News Release

Evolution Aerospace Inc. Expands Their Product Offerings

Wichita, KS, September 1, 2015 – Evöolution Aerospace Inc. (EAI) announced today its continued expansion of airframe motor and electronic components offerings with the development of brush part TR-420A21 as an alternate FAA approved part for Dynamic Air Engineering, Inc., Brush, part number 420A21. This part is used in the air conditioner condenser blower, part number M7921C-2B with motor M3436MB used in thousands of Beechcraft models including the B200, B300, B300C, 900 and 1900C. Evöolution Aerospace has developed an extensive line of FAA approved alternate PMA parts including legacy lighting Honeywell Grimes © motors, brushes, flash tubes, transformers and lenses. MRO facilities interested in managing their parts costs for legacy electronic and electrical systems should contact Evöolution Aerospace Inc.
