

# Pod Mapping with Queenie's Crew

A pod is a map of people that we call on for support when someone hurts us or when we hurt someone else. The idea of pod mapping came from an organization in California called the Bay Area Transformative Justice Collective (BATJC).

Can you think of 3 or 4 people who support you when you're having big feelings?

Put their names in the small green circles labeled 2!

Are there other people or places that you can go to in your community when something happens?

Put the names of those people or places in the big pink circles labeled 3!
