This home features a xeriscape plan with large berms filled with spruce, firs and aspen and almost 30 tons of granite boulders. Cobblestone swales and Western Sunset decorative rock were used to break up the river rock. Much of the outside perimeter are planted with a low grow drought resistant native seed mix. There is a stamped concrete patio in the back with a Madera block sitting wall off the composite deck. A buff flagstone pathway and colored concrete sidewalk wind around the backyard areas for better access.

WILDGRASS SUBDIVISION

Go north on Sheridan past 144th Street; turn left on Silver Feather Circle and follow the curve.
