INTRODUCTION

During the Covid era, crimes against humanity have been committed by Pfizer, the FDA, CDC, Fauci and many other three letter agencies run by power wielding, unelected bureaucrats within these organizations. In excess of 670,000 Americans have died from the so called “mRNA vaccine” in addition to thousands of others who were deprived of immediate care, only to die later in isolation from loved ones in hospitals after being put on a ventilator and treatment with Remdesivir. Equally criminal are countless others who avoided death from the mRNA bioweapon, only to suffer debilitating side effects such as neurological diseases, myocarditis, turbo cancers, reproductive issues and more.

The scope of criminality perpetrated on Americans is unprecedented and unfathomable! And not a single person responsible for this carnage has been prosecuted. Yet the First Amendment of our Constitution states, “Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and **to petition the Government for a redress of grievances.**”

We the people have grievances that need redressing! Are you incensed, outraged and frustrated by the gross injustice and distortion of the law that protects the perpetrators? In the spirit of the patriots who founded these United States of America, this is your moment in history to make a difference. Today you are invited to respond to a **Call To Action** to ensure that justice is served to the criminals who have enriched themselves while committing mass murder.

STRATEGY AND PLAN

Attempts to seek justice at the Federal level have stalled because of the corruption at that level of government. Everyday citizens have much more influence at the local level and thankfully the founders of this nation have made provision for recourse at the county level because of their skepticism about the concentration of power in a king, president or leaders at federal levels of government. The Citizen’s Initiative, 18 USC 3332 is a provision that empowers Grand Juries at the county level to make inquiry at the local, state and federal level of government. <https://www.law.cornell.edu/uscode/text/18/3332>

In the US there are 3140 counties of which sixteen counties are in the State of Maine. They are as follows:

Androscoggin County
Aroostook County
Cumberland County
Franklin County
Hancock County
Kennebec County
Knox County

Lincoln County
Oxford County
Penobscot County
Piscataquis County
Sagadahoc County
Somerset County
Waldo County
Washington County
York County

Citizens at the county level know one another because they live in community together. They see each other at the grocery store, at soccer games and walking the streets in town. In other words, each US citizen has much more influence at the local, county level. The goal is for citizens to use their personal influence to make inquiries through County Grand Juries to investigate and hand down indictments of criminal activity at the federal level.

YOUR COUNTRY NEEDS YOU!

1. Get Informed: On January 23, there will be a presentation delineating the steps for creating Grand Juries within the sixteen counties in Maine. Sign up for this presentation at Beyondthecon.com to learn more.
2. Be the person to take initiative in your county! And get your friends to join in.

The time for action is now! For more information go to Beyondthecon.com And plan to be on their webinar to get complete instructions about what to do next. Also please let us know if you are willing to step forward to help this process in your county here in Maine. If you want to participate, please fill out this [form](#). Thank you in advance.
