Individuals receiving SSI or Medicaid have limits on their income and asset levels. However, if you are disabled and deposit funds into a Pooled Trust, those funds become exempt and help you qualify for your benefits. Our Pooled Trust:

- Protects Government Benefits
- Helps Individuals Stay in the Community and Receive Quality Care
- Is Professionally Administered
- Has Low Fees and No Minimum Deposit
- Allows Unlimited Purchase Requests Without a Fee

For over a decade, the Western New York Coalition Pooled Trusts (WNYCPT) has been helping individuals age in place by securing eligibility for Medicaid services in community settings while maintaining access to the majority of their income and assets. Individuals receiving only Community Medicaid may be able to place their Medicaid monthly spenddown into a Pooled Trust and retain their Medicaid benefits.

Currently, we have nearly 1,000 beneficiaries using this vital tool, which statistically keeps the aging population out of nursing homes for a longer period than those who navigate their needs alone.
