LEGAL DISCLAIMER

This presentation and the accompanying oral presentation have been prepared byGuideGroup LLC, together with its subsidiaries, the “Company.” The information provided is intended for persons involved in making their own investment decision and is not necessarily indicative of past or current performance of the proposed transaction. The information provided is not meant to serve as tax, legal or other professional advice, nor is it a recommendation to acquire or dispose of any security or other property.

This presentation and the accompanying oral presentation do not purport to contain or provide all of the information, data, or documentation necessary to make a full analysis of the Company or the proposed transaction. Viewers of this presentation should rely upon their own independent analysis and research and not solely upon this presentation. The Company undertakes no obligation to update or change any information or statements herein, and does not accept any responsibility or liability for any error, omission or misstatement contained herein.

Forward looking statements and other data and information presented herein should be read in conjunction with the Company’s filings with the Securities and Exchange Commission. The Company has no obligation to update or modify this presentation to reflect developments or events which may affect the matters discussed herein. The statements contained in this presentation must be evaluated in the context of all of the information provided, including the risk factors and other information contained in the Company’s reports filed on Forms 10-K and 10-Q, in which the Company discloses the risks and uncertainties associated with the transaction and its completion.

Certain information contained herein is based on information released by third-party sources. Neither the Company nor Tiga has independently verified such information. In addition, the Company does not undertake any obligation to update or correct any information or forward-looking statement, or to update the reasons why actual results could differ materially from those anticipated in this presentation.

This presentation and the accompanying oral presentation do not purport to contain all of the information, data, and other facts relevant to make a full analysis of the Company or the proposed transaction. Viewers of this presentation should make their own evaluation of the Company and the relevance and adequacy of the information and should make such other investigations as they deem necessary.

The presentation and the accompanying oral presentation also contain estimates and other statistical data based on independent and public sources. The Company does not have the ability to verify such data and cannot accept any responsibility for the accuracy thereof. The presentation includes forward-looking statements, including estimates, projections, expectations, and other similar statements. Forward-looking statements are based on current expectations and involve inherent risks and uncertainties. The actual results may differ from the forward-looking estimates and projections due to a number of factors, including but not limited to the risks described in the Company’s filings with the Securities and Exchange Commission.
Financial Information; Non-GAAP Financial Measures (Cont’d.)

Tiga and the Company believe adjusted EBITDA provides useful information to management and investors regarding certain financial and business trends relating to the Company’s financial condition and results of operations. Tiga and the Company believe that the use of adjusted EBITDA provides an additional tool for investors to use in evaluating projected operating results and trends in and in comparing the Company’s financial measures with other similar companies, many of which present similar Non-GAAP financial measures to investors. Management does not consider these adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of adjusted EBITDA is that it excludes significant expenses and income that are required by GAAP to be recorded in the Company’s financial statements. In order to compensate for these limitations, management presents Non-GAAP financial measures in connection with GAAP results. The Company is not providing a reconciliation of its adjusted EBITDA for full years 2021-2025 to the most directly comparable measure prepared in accordance with GAAP because the Company is unable to provide this reconciliation without unreasonable effort due to the uncertainty and inherent difficulty of predicting the occurrence, the financial impact, and the periods in which the adjustments may be recognized. For the same reasons, the Company is unable to address the probable significance of the unavailable information, which could be material to future results. You should review the Company’s audited financial statements, which will be included in the Registration Statement (as defined below) relating to the Proposed Business Combination (as described further below). In addition, all the Company historical financial information included herein is preliminary and subject to change.

Additional Information About the Proposed Business Combination and Where To Find It

The Proposed Business Combination will be submitted to stockholders of Tiga for their consideration. Tiga intends to file a registration statement on Form S-4 (the “Registration Statement”) with the SEC which will include preliminary and definitive proxy statements to be distributed to Tiga’s stockholders in connection with Tiga’s solicitation for proxies for the vote by Tiga’s stockholders in connection with the Proposed Business Combination and other matters as described in the Registration Statement, as well as the prospectus relating to the offer of the securities to be issued to the Company’s stockholders in connection with the completion of the Proposed Business Combination. After the Registration Statement has been filed and declared effective, Tiga will mail a definitive proxy statement and other relevant documents to its stockholders as of the record date established for voting on the Proposed Business Combination. Tiga’s stockholders and other interested persons are advised to read, once available, the preliminary proxy statement/prospectus and any amendments thereto and, once available, the definitive proxy statement/prospectus, in connection with Tiga’s solicitation of proxies for its special meeting of stockholders to be held to approve, among other things, the Proposed Business Combination, because these documents will contain important information about Tiga, the Company and the Proposed Business Combination. Stockholders may also obtain a copy of the preliminary or definitive proxy statement, as applicable, as well as other documents filed with the SEC regarding the Proposed Business Combination and other documents filed with the SEC by Tiga, without charge, at the SEC’s website located at www.sec.gov.

Investment in any securities described herein has not been approved or disapproved by the SEC or any other regulatory authority of any other U.S. or non-U.S. jurisdiction nor has any authority passed upon or endorsed the merits of the offering or the accuracy or adequacy of the information contained herein. Any representation to the contrary is a criminal offense.

Participants in the Solicitation

Tiga, the Company and certain of their respective directors, executive officers and other members of management and employees may, under SEC rules, be deemed to be participants in the solicitations of proxies from Tiga’s stockholders in connection with the Proposed Business Combination. Information regarding the persons who may, under SEC rules, be deemed participants in the solicitations of proxies of Tiga’s stockholders in connection with the will be set forth in Tiga’s proxy statement/prospectus when it is filed with the SEC. You can find more information about Tiga’s directors and executive officers in Tiga’s Annual Report on Form 10-K for the year ended December 31, 2021 filed with the SEC on March 22, 2022. Additional information regarding the participants in the proxy solicitation and a description of their direct and indirect interests will be included in the proxy statement/prospectus when it becomes available. Shareholders, potential investors and other interested persons should read the proxy statement/prospectus carefully when it becomes available before making any voting or investment decisions. You may obtain free copies of these documents from the sources indicated above.

No Offer or Solicitation

This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities, or a solicitation of any vote or approval, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

Trademarks

This presentation contains trademarks, service marks, trade names and copyrights of the Company, Tiga and other companies, which are the property of their respective owners. The use or display of third parties’ trademarks, service marks, trade name or products in this presentation is not intended to, and does not imply, a relationship with Tiga or the Company, or an endorsement of sponsorship by or of Tiga or the Company. Solely for convenience, the trademarks, service marks and trade names referred to in this presentation may appear with the ®, ™ or SM symbols, but such references are not intended to indicate, in any way, that Tiga or the Company will not assert, to the fullest extent under applicable law, their rights or the right of the applicable licensor to these trademarks, service marks and trade names.

(1) Shares issued pursuant to the forward purchase commitment and backstop commitment are at a deemed value of $10 per share. It is expected that prior to the closing of the business combination, Tiga sponsor will assign its obligations under the forward purchase agreement to San Vicente Parent LLC, a shareholder of Grindr.

(2) Excludes 3.9M shares to be associated with rollover options as well as warrants. Assumes no redemptions.

(3) Assumes no redemptions of public shares. Assumes Grindr's outstanding debt at closing amounts to $200M. Net Debt may be larger than stated as a result of increasing levels of redemptions.

(4) Calculated as of June 30, 2022. Cash in trust assumes no redemptions, cash may be reduced, including to the extent of Tiga stockholder redemptions.

(5) Reflects a total estimated cash distribution to Grindr unitholders of $287.8 million through a capital distribution to be declared prior to the closing of the transaction and paid at the closing. Of that amount, $155.0 million is to be used to extinguish the remaining deferred payment and $132.8 million is to be distributed to Grindr unitholders. The $132.8 million includes $4.5 million of unpaid distribution accrued for on the Grindr historical balance sheet.
WHAT WE LOVE ABOUT GRINDR

Grindr’s platform is purpose-built to help foster a tight-knit community

Community At Its Core
Grindr is essential to the LGBTQ+ community

Rapidly Growing TAM
Large and growing addressable market

Clear First-Mover Advantage
Grindr is the leading player in the LGBTQ+ social networks; a unique global brand

Compelling Competitive Advantage
Competitive moat with high engagement, MAU growth & network effects

Attractive Financial Profile
Growing business model with best-in-class margins

Significant Room For Growth
Grindr’s monetization and growth story has just begun

**Our ~11M MAUs & the current self-identified LGBTQ+ population of 538M implies just ~2% penetration globally**

**Gen Z adults (18-24) are 4x more likely to identify LGBTQ+ than boomers (65+)**

---

(1) Source: Frost & Sullivan market research, March 2022
(2) MAUs based on Grindr internal data as of December 31, 2021. LGBTQ+ population for 2021. See "Definitions" in the Appendix for additional detail.
HIGHLY COVETED USER DEMOGRAPHIC WITH UNIQUE VALUE DRIVERS

KEY USER DEMOGRAPHICS

- **$14T**: Estimated total GDP of self-identified LGBTQ+ population in 2026
- **30%**: More spent per capita on recreational activities by US LGBTQ+ population vs. general population
- **18%**: Higher median income in US male same-sex households compared to opposite sex households
- **58%**: Of US male same-sex households have at least one bachelor degree (vs. 42% for opposite sex households)
- **36%**: Of US-based gay and bi men consider themselves at least moderate luxury travelers (vs. 30% for all identities)

---

(1) Source: Frost & Sullivan market research, March 2022
Note: GDP statistics are an estimate for 2024, expenditure and travel statistics are for 2021, household and income statistics are for 2020.
80% of Grindr profiles are aged 18-35

GRINDR PROFILES AGE DISTRIBUTION(1)

- 18-23: 27%
- 24-29: 33%
- 30-35: 20%
- 36-40: 9%
- 41+: 11%

1. Based on self-reported profile ages for the 28-days ended December 31, 2021, excludes Grindr users who claim to be older than 90 years; sourced from Grindr internal data.

- **Tremendous engagement with highly attractive, core young user**
- **Profile age distribution has remained consistent over time, suggesting ongoing influx of new users**
- **Significant opportunity to capture larger share of older demographics through specific product features**

---

1) The $8.2M and $0.9M in non-GAAP revenue adjustments in 2020 and 2021 respectively are purchase accounting deferred revenue adjustments related to the San Vicente acquisition. These adjustments are included as a subset of the total “non-core expenses/losses (gains),” resulting in different non-core expenses/losses (gains) in the revenue and EBITDA reconciliations.
RISK FACTORS SUMMARY

The risks presented below are certain of the general risks related to the business of the Company and Tiga, and such list is not exhaustive. The list below has been prepared solely for purposes of the proposed Business Combination, and solely for, and not for any other purpose. The occurrence of any of the following risks or additional risks and uncertainties not presently known to us or that we currently believe to be immaterial could materially and adversely affect our business, financial condition or results of operations. You should carefully consider these risks and uncertainties, and should carry out your own diligence and consult with your own financial and legal advisors concerning the risks and suitability of an investment in this offering before making an investment decision. Risks relating to the business of the Company will be disclosed in future documents filed or furnished by the Company and Tiga with the SEC, including the documents filed or furnished in connection with the proposed transactions between the Company and Tiga. The risks presented in such filings will be consistent with those that would be required for a public company in its SEC filings, including with respect to the business and securities of the Company and Tiga and the proposed transactions between the Company and Tiga, and may differ significantly from, and be more extensive than, those presented below.

Risks Related to Grindr’s Business

Risks Related to Grindr’s Brand, Products and Services, and Operations

• Grindr’s business depends on the strength and market perception of the Grindr brand. If events occur that damage Grindr’s reputation and brand, its ability to expand its base of users may be impaired, and Grindr’s business could be materially adversely affected.
• Changes to Grindr’s existing products and services, or the development and introduction of new products and services, could fail to attract or retain users or generate revenue and profits.
• If Grindr fails to retain existing users or add new users, or if Grindr’s users decrease their level of engagement with its products and services or do not convert to paying users, its revenue, financial results, and business may be significantly harmed.
• Inappropriate actions by certain of Grindr’s users could be attributed to Grindr and damage Grindr’s brand or reputation, or subject Grindr to regulatory inquiries, legal action, or other liabilities, which, in turn, could materially adversely affect its business.
• Unfavorable media coverage could materially and adversely affect Grindr’s business, brand, or reputation.
• The online social networking industry in which Grindr operates is highly competitive, and if Grindr cannot compete effectively its business will suffer.
• Grindr has grown rapidly in recent years and certain members of its management team have joined Grindr recently. If Grindr is unable to manage its growth effectively, its brand, company culture, and financial performance may suffer.
• Grindr’s quarterly operating results and other operating metrics may fluctuate from quarter to quarter, which makes these metrics difficult to predict.
• Privacy concerns relating to Grindr’s services and the use of user information could negatively impact its user base or user engagement, which could have a material and adverse effect on its business, financial condition, and results of operations.
• The distribution, marketing of, and access to Grindr’s products and services depend, in large part, on third-party platforms and mobile application stores, among other third-party providers. If these third parties limit, prohibit, or otherwise interfere with the distribution or use of Grindr’s products and services in any material way, it could adversely affect its business, financial condition, and results of operations.
• Grindr has a limited operating history and, as a result, its past results may not be indicative of future operating performance.
• Grindr’s business and results of operations may be materially adversely affected by the recent COVID-19 pandemic, the 2022 monkeypox outbreak or other similar outbreaks.

Risks Related to Information Technology Systems and Intellectual Property

• Security breaches, unauthorized access to or disclosure of Grindr’s data or user data, other hacking and phishing attacks on Grindr’s systems, or other data security incidents could compromise sensitive information related to Grindr’s business and/or personal data processed by it or on its behalf and expose Grindr to liability, which could harm its reputation, generate negative publicity, and materially adversely affect its business.
• Grindr’s success depends, in part, on the integrity of its information technology systems and infrastructures and on its ability to enhance, expand, and adapt these systems and infrastructures in a timely and cost-effective manner.
• From time to time, Grindr is party to intellectual property-related litigations and proceedings that are expensive and time consuming to defend, and, if resolved adversely, could materially adversely impact its business, financial condition, and results of operations.
RISK FACTORS SUMMARY

Risks Related to Regulation and Litigation

- Grindr’s success depends, in part, on its ability to access, collect, and use personal data about its users and to comply with applicable privacy and data protection laws and industry best practices.
- The varying and rapidly evolving regulatory framework on privacy and data protection across jurisdictions could result in claims, changes to Grindr’s business practices, monetary penalties, increased cost of operations, or declines in user growth or engagement, or otherwise harm its business.
- Investments in Grindr’s business may be subject to U.S. foreign investment regulations which may impose conditions on or limit certain investors’ ability to purchase its stock or otherwise participate in the Business Combination, potentially making the stock less attractive to investors. Grindr’s future investments in U.S. companies may also be subject to U.S. foreign investment regulations.
- Grindr is subject to litigation, regulatory and other government investigations, enforcement actions, and settlements, and adverse outcomes in such proceedings could have a materially adverse effect on its business, financial condition, and results of operation.

Risks Related to Grindr’s Indebtedness

- Grindr’s indebtedness could materially adversely affect its financial condition, its ability to raise additional capital to fund its operations, operate its business, react to changes in the economy or its industry, meet its obligations under its outstanding indebtedness, including significant operating and financial restrictions imposed on it by its debt agreements, and it could divert its cash flow from operations for debt payments.

Risks Related to Tiga and the Business Combination

- The Sponsor and the independent directors of Tiga have agreed to vote in favor of the Business Combination, regardless of how Tiga’s public shareholders vote.
- The Sponsor, certain members of the Tiga board of directors and certain Tiga officers, including without limitation Mr. Zage and Mr. Gupta, who own 43% and 4.5% of Grindr, respectively, have interests in the Business Combination that are different from or are in addition to other shareholders in recommending that shareholders vote in favor of approval of the business combination proposal and approval of the other proposals.
- Because the post-combination company will become a publicly-traded company by virtue of a merger as opposed to an undertaking initial public offering, the process does not use the services of one or more underwriters, which could result in less diligence being conducted.
- The exercise of Tiga’s directors’ and executive officers’ discretion in agreeing to changes or waivers in the terms of the Business Combination may result in a conflict of interest when determining whether such changes to the terms of the Business Combination or waivers of conditions are appropriate and in Tiga’s shareholders’ best interest.
- If Tiga is unable to complete the Business Combination or another initial business combination by November 27, 2022, Tiga will cease all operations except for the purpose of winding up, redeeming 100% of the outstanding public shares and, subject to the approval of its remaining shareholders and the Tiga Board, dissolving and liquidating. In such event, third parties may bring claims against Tiga and, as a result, the proceeds held in the trust account could be reduced and the per-share liquidation price received by shareholders could be less than $10.40 per share.
- The proportionate ownership of Tiga’s shareholders will be reduced as a consequence of, among other transactions, the issuance of New Grindr Equity Common Stock as consideration in the Business Combination, the Forward Purchase Commitment and the Backstop Commitment. Having a minority share position in New Grindr will reduce the influence that Tiga’s current shareholders have on the management of New Grindr following the Business Combination.
- Warrants will become exercisable for New Grindr Common Stock, which would increase the number of shares eligible for future resale in the public market and result in dilution to our shareholders.
- The Sponsor and existing members of Grindr and the Forward Purchase Investors will beneficially own a significant equity interest in New Grindr and may take actions that conflict with your interests. Our stockholders will experience immediate dilution as a consequence of the issuance of New Grindr Common Stock as consideration in the Business Combination and may be further diluted following the closing of the Business Combination as a result of the terms thereof. Having a minority share position may reduce the influence that our current stockholders have on the management of New Grindr.
DEFINITIONS

1. “ARPU” is Average Total Revenue per User, which is calculated based on Total Revenue in any measurement period, divided by our MAUs in such a period divided by the number of months in the period.

2. “ARPPU” is the Average Direct Revenue per Paying User, which is calculated based on Direct Revenue in any measurement period, divided by Paying Users in such a period divided by the number of months in the period.

3. “MAUs”, or Monthly Active Users, are unique devices that have demonstrated activity on the Grindr App over the course of the specified period. Activity on the app is defined as opening the app, chatting with another user, or viewing the cascade of other users. Grindr also excludes devices where all linked profiles have been banned for spam. We calculate MAUs as a monthly average, by counting number of MAUs in each month and then dividing by the number of months in the relevant period.

4. “Paying Users” are users that have purchased or renewed a Grindr subscription and/or purchased premium add-ons on the Grindr App. We calculate Paying Users as a monthly average, by counting the number of Paying Users in each month and then dividing by the number of months in the relevant measurement period.
