

RECLAIM

Reclaiming Forgotten Cities

Turning cities from vulnerable spaces to healthy places for people

The network has diversity at its core. It will focus on the forgotten cities - especially the smaller urban areas which have mostly been ignored in the implementation and assessment of nature-inspired solutions so far. **RECLAIM Network Plus** is also building connections with other cities globally.

340
network members and growing

45
founding partners including 26 academic, 12 non-academic and 7 international partners

Network members represent over **40 countries**

Meet the RECLAIM Network Plus Team

Prof Prashant Kumar
University of Surrey

Prof Laurence Jones
UKCEH

Dr Thomas Kjeldsen
University of Bath

Dr Nerea Calvillo
University of Warwick

Dr Shelagh Malham
Bangor University

Dr Sisay Debele
University of Surrey

Mark Simmons
University of Surrey

RECLAIM Network Plus is a one-stop-shop for towns and cities to find the information and support you need to install green-blue-grey infrastructure in your communities and put you in touch with others with similar experiences.

We are:

- building a community of practice, which reconsiders urban green-blue-grey infrastructure in a holistic way,
- identifying and addressing knowledge gaps and implementation challenges,
- helping to fast-track solutions which improve the sustainability of cities and their resilience to climate and societal challenges.

RECLAIM Network Plus will provide the following network activities:

- **Secondments**
- **Workshops**
- **Horizon Scanning & Synthesis Studies**
- **Webinar Series**
- **Engagement Event**
- **Funding to address knowledge gaps**

Plus much more

RECLAIM
is a **UKRI-funded**
Network Plus grant
(£1.2M)

RECLAIM Network Plus brings together a new multi-disciplinary and cross-sectoral network covering multiple areas of scientific expertise (engineering, hydrology, air quality, transport, health, ecology, arts, social science), arts engagement organisations, community groups, and governance organisations ranging from local government in small towns to large cities, regional government, SMEs, larger companies, and NGOs as well as international partners.

RECLAIM Network Plus activities are specifically designed to:

- identify opportunities
- address complex challenges
- accelerate solutions-based interventions
- develop a skills pipeline for early-career researchers (ECRs) and non-academic and academic partners through a secondment programme
