# Hey Friend!

**PHOTOGRAPHS ARE NOT MEANT  
TO SIT ON A CLOUD SOMEWHERE.**

They are meant to be tangible items that are touched, cherished, admired and looked at regularly. Your wedding photos will bring back tender memories for the rest of your life and will do so more often if they are printed, touched and adored.

Emily Reedstrom Photography offers a variety of print options so let's get down to business and get these photos off a random cloud and into your house!

# My Artistic Frame of Mind

My most prized possession is a small 3 x 3 black and white image of my grandmother on her wedding day.

It's framed on my office desk as a reminder of what photography can be to a person. The excitement in her eyes is striking and I know it's moments before she committed her life to my grandfather.

They have been married for over 50 years and the majority of their wedding photos have been lost, but this one remains. She is young, carefree and unburdened by life's hardships. This small, simple, photograph is a constant reminder to me of what photography can do for a person.

A meaningful photograph can transport us through time, and flood us with memories and emotions. I truly believe those photographs shouldn't be lost on a cloud, **they should be in your hands.**

"I don't want  
my work to  
live hidden  
away on  
screens. Art  
deserves to  
be displayed  
on walls."

# Why Work with Me

Imagine 10 years of marriage. You and your partner are different people than when you got married, but that love and commitment to each other has stayed the same. You're not the same person you were when you first said those vows. Maybe you have a different career, or faced setbacks together and supported on another through hardships. Maybe you've experienced life changing joy and profound happiness together. You might have children or 10 dogs and a lot of vacation memories.

No matter what your life looks like you deserve to protect those precious first minutes as husband as wife. You don't need to feel stress about the order of the pages in your Shutterfly album, or become discouraged by the annoying pixilation of your Walmart prints. You deserve to feel confident, carefree and joyfilled knowing that you invested in the future generations. You are worthy of seeing, holding and remembering each moment of your wedding day in a beautifully crafted, hand-designed wedding album.

Emily Reedstrom Photography is here to deliver exactly what you are yearning for.
