Part II: Africa

This part of the Directory of Catholic Seminaries describes seminaries in Africa. The map above illustrates the number of seminary records in the Directory by country. Overall, the Directory includes 750 seminary records for Africa. Among countries in this world region, the Directory includes the highest number of seminary records for Democratic Republic of the Congo (115 seminaries), Nigeria (93 seminaries), and Tanzania (52 seminaries).

Comparison between the Number of Seminaries in the *Annuario Statisticum Ecclesiae* (ASE) and Its Equivalent in the *Directory of Catholic Seminaries* (DCS) in Africa by Country¹

¹ The numbers for ASE were derived from the 2013 edition. The numbers for DCS in the table here were calculated for comparison to the numbers from ASE. The numbers of “seminaries” for DCS in the table here are not equal to the number of “seminary records” in DCS for two reasons. First, one seminary record may, for example, describe a seminary which is classified as “seminary” and “residence” or “center for the diocesan clergy” and “center for the religious clergy” as understood by ASE and treated by ASE as separate seminaries. Second, DCS includes information about both open and closed seminaries.

The table above attempts to estimate how complete the Directory is by comparing the number of seminaries listed in the Segreteria di Stato Vaticano's (2013) *Annuario Statisticum Ecclesiae* with the number of open seminaries included in this Directory.

- According to *Annuario Statisticum Ecclesiae* countries with the highest number of seminaries in Africa are: Democratic Republic of the Congo (159 seminaries), Nigeria (153 seminaries), Angola (80 seminaries), Kenya (80 seminaries), and United Republic of Tanzania (79 seminaries). Countries with the fewest number of seminaries are: Djibouti, Gambia, and Mauritius (each has one seminary).

- The Directory contains information on 735 seminaries in Africa. This number includes 42 secondary schools, 340 philosophy and theology seminaries, and 353 seminaries for which there is not sufficient information to classify them in one of the two groups.
- Overall, the number of seminaries in the Directory amounts to 64 percent of the seminaries accounted for in the *Annuarium Statisticum Ecclesiae*.
- Relative to *Annuarium Statisticum Ecclesiae*, the Directory contains information on more seminaries in: Mauritius, Liberia, Mali, Sierra Leone, and Malawi. Notably the Directory also includes more seminaries in Sudan, but this is likely due to the fact that the underlying data sources do not make the distinction between Sudan and South Sudan. Furthermore, the Directory provides information about seminaries in countries for which *Annuarium Statisticum Ecclesiae* does not list any seminaries (Algeria, Mauritania, Morocco, Seychelles, Swaziland, and Tunisia).

The discrepancies between *Annuarium Statisticum Ecclesiae* and the Directory should be given due consideration when using the Directory. For more detailed description of the methodology used in preparing the Directory please see Part I.
