

# Christopher Mortenson: Meditations

Dmst Atelier  
1117 E 7th Street Unit 2 Los Angeles, CA 90021  
Nov 12, 6 PM - 10 PM — ends Nov 20, 2022

**Show description:**

To meditate means to think deeply or focus one's mind for a period of time, in silence or not, for religious or spiritual purposes or as a method of relaxation.

Meditations embodies freedom of expression and discipline within that expression to see something from beginning to end. It's about soothing and healing and processing and questioning. For a period of time.

Works featured in this exhibition include photography, found objects and mixed media collage.

As a professional photographer, Mortenson's everyday life revolves around visual documentation of the external world around him. It is analytical, mediated through a camera and often tells a linear story. The photography in Meditations follows this same line, documentation of the external.

On the other side of this show, the collage work is seen by Mortenson as his meditation and an expression that guided him through a turbulent time in his life. Made with tangible material and with his hands, the works are unexplainable and dreamy, suggesting something deeper and something inward.

In Meditations, there is a balance that is struck between photography and collage with Mortenson and his own meditations on life as its common thread.
