MicroDental Ivotion Dentures, a Digital Solution that Delivers Optimal Fit and Esthetics!

A monolithic solution designed and milled with digital accuracy and superior in all aspects of form, fit, and functional occlusion. Our specialized removable prosthetics team will case plan and collaborate with your office through a highly efficient workflow. As a final step, our technicians' artistic touch finishes every Ivotion denture to accomplish the life-like esthetics your patients will love.

"Ivotion is an easy-to-use, precise system that helps me combine my analog knowledge and skills with the CAD/CAM laboratory workflow to provide my patients with state-of-the-art definitive dentures with customized esthetics, comfortable and have an exceptional fit." – **DR. NADIM Z. BABA, MSD, FACP**
