

# Can we raise £300?

Your donations are creating Diversi-TEA in tea gardens across the world! £300 could help farmers like Edward invest in seedlings and equipment so they can diversify their crops, protecting their livelihood and land from the impacts of climate change. *For every £50 you raise, shade in a new crop on the picture of the tea garden!*

*“Tea is no longer making a lot of money for the farmers and that is why we are diversifying our crops. In January, we had rains that is not what we usually experience. With such changes we prefer having other crops like avocado which will be useful in the long run.”*

Edward Ngumi

**Honey**

**£300**

**Avocado**

**£250**

**Passion fruit**

**£200**

**Plums**

**£150**

**Cabbage**

**£100**

**Maize**

**£50**

**Every penny  
you raise helps  
tea growers  
tackle the climate  
crisis and support  
their families**
