Availability is limited. Program eligibility criteria may apply.

SKILLS & CERTS FOR HIGH-POTENTIAL TALENT

Through an intensive, 12-week live virtual program, **vett**ed candidates earn two CompTIA certifications, build hands-on tech support skills, and learn business communication strategies to start — and thrive within — an IT career.

UPLIFTING THOSE WHO ARE UNDER-REPRESENTED

More than 60% of our 1,000+ students are underrepresented in the tech workforce — and nearly all have attended TechWorks for **free** through public and private funding sources.

360° OF SUPPORT

Students access 1-1 tutoring, mindset coaching, and mentorship during and after the program to cultivate long-term success. They connect with partner employers for IT support job openings. Alumni have been hired by leading employers, such as Google, Twitch, Comcast, TekSystems, AT&T, Oracle, Bank of America, and more.

LOCAL TIES, NATIONAL REACH

Even though our live virtual delivery model reaches a national audience, our approach emphasizes local, including a 20+ employer partner network and 75+ funding organizations. Key states include PA, IN, IA, MD, CO, MT, OH, ME, and DE.
