

1 Protect medication abortion.

For 23 years mifepristone has been used safely in the US and around the world for medication abortion and miscarriage. This year the US Supreme Court could limit its accessibility. Because reproductive freedom is a Jewish value, access to mifepristone is both a religious freedom issue and a health care accessibility issue. Tell the Department of Health and Human Services (HHS) to make medication abortion more readily available. Scan the QR code below to send a quick message.

2 Support abortion on the ballot.

When abortion is on the ballot, it puts the question of reproductive freedom directly to voters. In 2024, the Jews for Abortion Access campaign is mobilizing in states across the country to protect reproductive freedom and expand access. Get involved in opportunities to turnout voters for reproductive freedom ballot initiatives across the US.

3 Shout it from the rooftop!

Abortion access is a Jewish value. Get tools and merch (apparel, stickers, posters, and more) to show your support.

4 Join the campaign!

Sign up to be on the Jews for Abortion Access campaign list to get involved/take action with us. Scan the QR code or visit jewsforabortionaccess.org to learn more.
