CONNECTICUT’S ELECTRIC BICYCLE LAW

CONNECTICUT’S ELECTRIC BICYCLE LAW FOR THE ROAD

» Electric bicycles are regulated like bicycles. The same rules of the road apply to both electric bicycles and human-powered bicycles.

» Electric bicycles are not subject to the registration, licensing, or insurance requirements that apply to motor vehicles.

» Connecticut designates three classes of electric bicycles:
  - Class 1: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 20 mph.
  - Class 2: Bicycle equipped with a throttle-actuated motor, that ceases to provide assistance when the electric bicycle reaches 28 mph.
  - Class 3: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 28 mph.

» Helmets are required for riders of all classes of electric bicycles. Persons under 16 years of age may not ride a Class 3 electric bicycle, unless as a passenger.

» Class 3 electric bicycles are not allowed on a bicycle trail or path or multiuse trail or path.

» Local governments have the authority to restrict the use of e-bikes under motor power on bike paths. When in doubt, check with your town, city, or county for local rules and regulations.

*The following Connecticut laws are referenced: Public Act 18-165 (HB 5313, 2018 session)

CONNECTICUT’S ELECTRIC BICYCLE LAW FOR TRAILS

» LOCAL: Consult your local land management agency.

» STATE: The Connecticut State Parks Division does not have an eMTB policy. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.

» FEDERAL: On federal lands, eMTBs are considered motorized vehicles and have access to motorized trails. However, Connecticut has minimal federal lands and fewer, if any, where mountain biking is allowed.

GREAT eMTB RIDES IN CONNECTICUT

» Pachaug State Forest
  Preston City | 25 miles

» Thomaston Dam OHV Trails
  Montrose | 18.6 miles

With an electric bicycle, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, electric bicycles are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. PeopleForBikes is clarifying state laws governing the use of electric bicycles in the U.S. Every state’s law is different, but the objective is to ensure that low-speed electric bicycles are regulated similarly to traditional, human-powered bicycles.
