What was the role of nature in this place? Did people seem to notice nature or interact with it while you were there?

Jot your notes here.

How did the design of the built environment afford people an opportunity to restore, relax, or do nothing? Did you observe these behaviors? Did any build elements distract from their ability to destress?

Jot your notes here.

What did you notice about people interacting with digital devices? Did those interactions appear to bring them closer to the present moment or distract them? Could you tell what they were using it for?

Jot your notes here.

How did people in this place interact with each other? Did they seem to be alone or in groups? Were they talking or were they silent?

Jot your notes here.
