Overview

As the Foundation for Seacoast Health (“the Foundation”) enters a new phase of grant-making, it seeks to better understand the needs of the area it serves. The service area is made up of the following cities and towns:

- Portsmouth, NH
- New Castle, NH
- Rye, NH
- North Hampton, NH
- Newington, NH
- Greenland, NH
- Eliot, ME
- Kittery, ME
- York, ME

The communities that make up the Foundation’s service area are included in several needs assessments that are conducted by other organizations, and these assessments are a helpful starting

point for the Foundation to understand what has already been learned about the needs of the community. For this project, six (6) assessments were reviewed. This includes the statutorily required community needs assessments from the hospitals[‡] that serve the identified geographic area: Exeter Hospital, Wentworth-Douglass Hospital, and York Hospital. In addition, the State of NH has designated 13 Regional Public Health Networks (RPHN), each of which is responsible for developing a community health needs assessment and improvement plan; the Seacoast RPHN includes towns in the Foundation’s service area. This summary provides a synthesis of the priorities identified by these assessments, as well as information available from other data reporting tools in Maine and New Hampshire.

The first section of this report provides a brief description of each of the assessments that were reviewed. The second section provides a synthesis of the findings and needs of the communities, organized by topic area. It is worth noting that each assessment was conducted independently and uniquely. There was variation in the types of assessments developed, the questions asked and how they were asked, and the facilitation or distribution of these assessments. For this reason, there is variation in the priorities or issues identified in each assessment. It is possible that an issue that was a priority in one assessment was not a priority in another, not because the issue is unimportant, but because the process for collecting information was different. Despite these variations in methods, there was considerable consistency among the assessments in the issues identified within the assessments.

[‡] Portsmouth Regional Hospital was not included in this report as it is part of HCA Healthcare, a for-profit entity, and therefore not required to file a community needs assessment.

Section 1: Summary of Individual Assessments

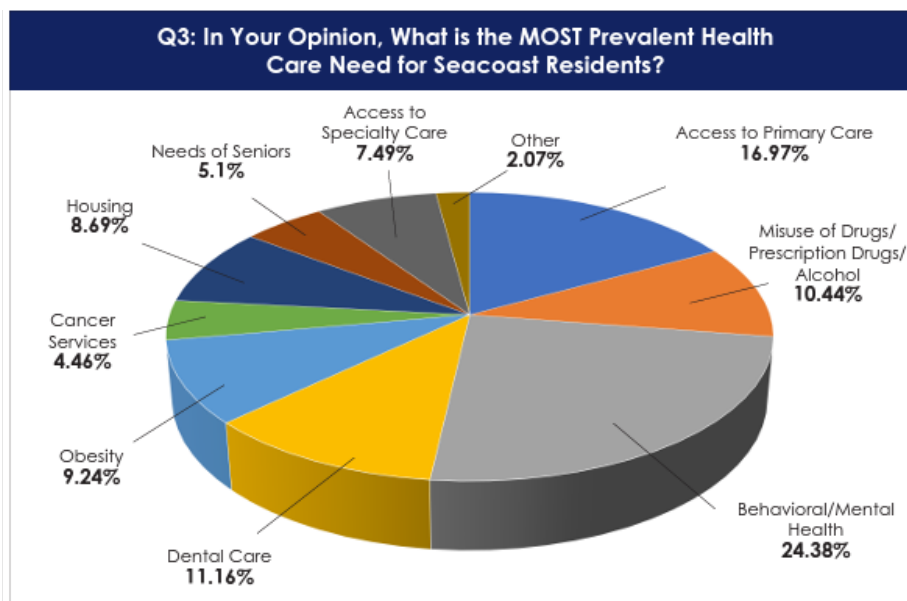

Exeter Hospital Community Health Needs Assessment

Exeter Hospital serves primarily NH’s Rockingham County, including **Greenland, New Castle, Newington, North Hampton, Portsmouth, and Rye.**

The [Exeter Hospital Community Health Needs Assessment](#) was published in 2022. There is no associated implementation plan available at this time. The Exeter Hospital CHNA identified the following issues as the greatest needs of the service area:

	<p>Mental & Behavioral Health</p> <ul style="list-style-type: none"> • Geriatric mental health and specialists in dementia
	<p>Access to Care</p> <ul style="list-style-type: none"> • Timely access to care from primary and specialty care physicians • Cost of dental services • Cost of insurance premiums and deductibles • Affordability of prescription and over-the-counter medications <p>Transportation</p> <ul style="list-style-type: none"> • Availability and cost of transportation
	<p>Social Determinants of Health</p> <ul style="list-style-type: none"> • Lack of affordable housing
	<p>Needs of Older Adults & Other Underserved Populations</p> <ul style="list-style-type: none"> • Need for more specialized geriatric care in service area

The Exeter Hospital Community Health Survey conducted as part of the needs assessment asked, “In your opinion, what is the most prevalent health care need for Seacoast residents?” (*Results from Page 24 of the 2022 Exeter Hospital Community Health Needs Assessment report*).

Seacoast Public Health Network Community Health Improvement Plan

The Seacoast Public Health Network consists of 23 towns in eastern Rockingham County in NH, including **Greenland, New Castle, Newington, North Hampton, Portsmouth, and Rye.**

There are 13 [Regional Public Health Networks \(RPHNs\)](#) located throughout the State of New Hampshire. Each Network involves “broad public health interests, including local health departments and health officers, health care providers, social service agencies, schools, fire, police, emergency medical services, media and advocacy groups, behavioral health, and leaders in the business, government, and faith communities, working together to address complex public health issues.” The RPHNs are a strategic partnership among the NH Department of Health and Human Services (DHHS), Bureau of Drug and Alcohol Services (BDAS), and Division of Public Health Services (DPHS) to align multiple public health priorities into a single integrated system. The RPHNs purpose is to integrate multiple public health initiatives and services into a common network of community stakeholders.

Throughout 2018, the Seacoast Public Health Network conducted the [Community Health Improvement Plan](#) and identified the following issues as the greatest needs of the service area:

	Behavioral Health <ul style="list-style-type: none">• Mental health• Suicide prevention
	Substance misuse prevention Continuum of care prevention, treatment, and recovery
	Public Health Emergency Preparedness <ul style="list-style-type: none">• Medical Reserve Corps Family and Social Support
	Falls Prevention/Older Adults
	Tickborne Disease

As part of the CHIP, the Seacoast Public Health Network Community Health Improvement Plan Survey asked 50 Public Health Advisory Council (PHAC) members and stakeholders to select the top five health priorities in their community and the top three social determinants of health that impact health in the Network. *Results below from Pages 9 and 10 of the Seacoast Public Health Network Annual Report.*

TABLE 1. Top Five Seacoast Region Health Priorities as Determined by the PHAC.

HEALTH TOPIC	PERCENTAGE RANKED TOP 5
Behavioral Health – Co-occurring conditions	64%
Mental Health - Coping in Schools & Trauma informed care	62%
Family & Social Support (focus on children in single parent households/parents struggling with SMD/sober parenting journey/Teen supports in schools/DBART education – Bystander education)	58%
Suicide prevention	48%
Community Activating/Community Engagement	28%

TABLE 2. Social Determinants of Health ranked by top three, as determined by the PHAC.

SOCIAL DETERMINANT OF HEALTH (SDOH)	RANKING
Affordable Housing	66.67%
Lack of treatment for Substance Use Disorders/Mental Health disorders	47.92%
Lack of Transportation	37.50%
Lack of support systems	35.42%
Income limitation	31.25%
Lack of insurance and or affordability of Insurance	27.08%
Access to care and or medication	18.75%
Health Equity	12.50%
Lack of work skills/Education	8.33%
Food Scarcity and or Food desert in my community	4.17%
Lack of recreational activities (parks, trails, sidewalks, etc.)	4.17%
Other (please specify)	2.08%

Wentworth-Douglass Hospital Community Health Needs Assessment

The [Wentworth-Douglass Hospital Community Health Needs Assessment](#) and [Implementation Strategy](#) were published in 2022. The hospital serves 24 towns located in Rockingham, Stafford, and Carroll counties in New Hampshire and York County in Maine. The towns served include **Portsmouth, NH, Newington, NH, Eliot, ME, Kittery, ME, and Kittery Point, ME.**

Wentworth-Douglass Hospital identified the following issues as the greatest needs of the service area:

	Access to Primary Care Services Access to Long-Term Services and Supports Financial Barriers to Care Oral Health
	Chronic Diseases Obesity and Physical Inactivity
	Mental Health
	Social Determinants of Health
	Substance Use Disorders

Furthermore, when conducting the Wentworth-Douglass Hospital Community Health Assessment Survey, residents were asked, “As far as you know, are any of the following services unavailable or inadequate to meet the needs of your community?” *Results below from Page 90 of the 2022 Wentworth-Douglass Hospital Community Health Needs Assessment.*

- **As far as you know, are any of the following services unavailable or inadequate to meet the needs of your community?**
 - Mental health counseling for adults – 29%
 - Mental health counseling for youth – 27%
 - Drug treatment – 27%
 - Alcohol treatment – 20%
 - Dental care for adults – 16%
 - Long-term care – 14%
 - Home health or hospice care – 13%
 - Dental care for youth – 11%
 - Urgent or emergency care – 7%
 - Cannot identify any needed services – 28%
 - Don’t know – 25%

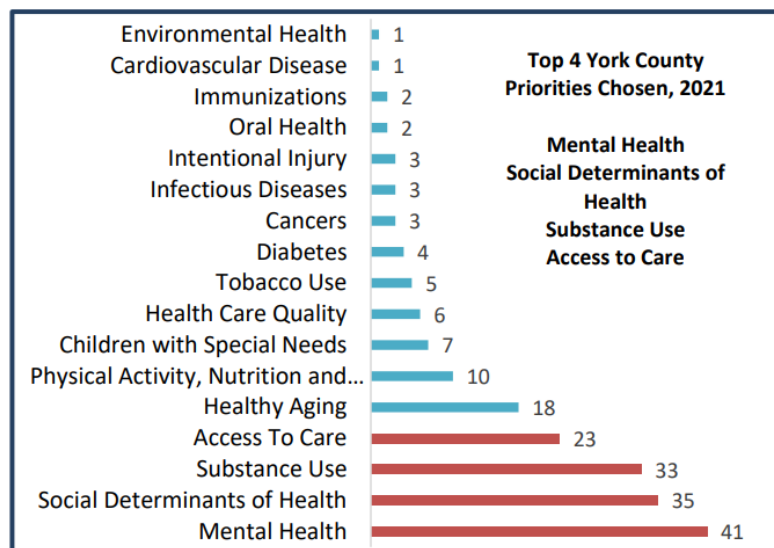

York Hospital Community Health Needs Assessment

The immediate service area of York Hospital consists of ten towns in southern York County in ME, including **Eliot, Kittery, and York**.

The [York Hospital Community Health Needs Assessment](#) was published in December 2021. There is no associated implementation plan at this time. The York Hospital CHNA identified the following issues and priorities as the greatest needs of the service area:

	Mental Health	<ul style="list-style-type: none"> • Priority: Increase access to mental health services and supports
	Substance Use and Misuse	<ul style="list-style-type: none"> • Priority: Increase substance use disorder prevention, intervention, and addiction services for those at highest risk, including youth, young adults, and underserved/uninsured
	Access to Care	<ul style="list-style-type: none"> • Priority: Increase and improve access to care

At a virtual community forum in September 2021, attendees selected their top health priorities through an anonymous electronic voting system. *Results from Page 12 of the York Hospital Community Health Needs Assessment Report.*

Additionally, in 2021, a Community Themes & Strengths Assessment Survey was conducted, which yielded the following top five health concerns and risk factors:

- Top health concerns:
 - Mental health
 - Drug abuse
 - Obesity
 - Infectious disease
 - Aging problems
- Top risk factors:
 - Lack of mental health services
 - Drug and alcohol use
 - Poor weight management
 - Hunger, food insecurity
 - Lack of social services

York County, Maine Shared Community Health Needs Assessment

The Maine Shared Community Health Needs Assessment (Maine Shared CHNA) is a collaboration between Central Maine Healthcare, Maine Centers for Disease Control and Prevention, MaineGeneral Health, MaineHealth, and Northern Light Health. The goals of the Maine Shared CHNA are to create shared CHNA reports, engage and activate communities, and support data-driven health improvements for Maine people. The [York County, Maine Shared Community Health Needs Assessment](#) was conducted in 2021. There is no associated implementation plan at this time. This particular report assessed the health needs of York County, ME, including **Eliot, Kittery, and York**.

A York County forum, as part of the Maine Shared CHNA, identified the following issues as the greatest needs of the service area:

	Mental Health
	Social Determinants of Health
	Substance and Alcohol Use
	Access to Care

Other identified needs, as voted on by community members at the York County forum, are shown below. *Results below from Page 17 of the York County Maine Shared Community Health Needs Assessment Report.*

Table 10. All Priority Health Topic Areas for York County

PRIORITIES	# OF VOTES	% OF PARTICIPANTS
Mental Health	41	72%
Social Determinants of Health	35	61%
Substance and Alcohol Use	33	58%
Access to Care	23	40%
Older Adult Health	18	32%
Physical Activity, Nutrition, and Weight	10	18%
Children with Special Needs	7	12%
Health Care Quality	6	11%
Tobacco	5	9%
Diabetes	4	7%
Cancer	3	5%
Infectious Disease	3	5%
Intentional Injury	3	5%
Other (not specified)	3	5%
Immunizations	2	4%
Oral Health	2	4%
Unintentional Injury	2	4%
Cardiovascular Disease	1	2%
Environmental Health	1	2%
Pregnancy and Birth Outcomes	1	2%

York County Community Action Corporation Community Needs Assessment

The [YCCAC Community Needs Assessment](#) was published in December 2021 and assessed the health needs of York County, ME, including **Eliot, Kittery, and York**.

The York County Community Action Corporation (YCCAC) connects patients and clients of York County, ME to resources including primary and dental care, income support, early childhood education, transportation, and housing. The organization’s mission is to “alleviate the effects of poverty, attack its underlying causes, and promote the dignity and self-sufficiency of the people of York County, Maine.”

The YCCAC identified the following issues as the greatest needs and/or highest priorities of the service area:

Social Determinants of Health (Well-Being)

- Transportation
- Childcare
- Housing
- Livable wages

Furthermore, when conducting the YCCAC Community Survey, residents were asked to identify the top community needs. *Results below, display the top 10 of 49 needs identified, from Page 13 of the York County Community Action Corporation Community Needs Assessment.*

York County Community Action Corp		
	Need	Percent
1	Increasing the number of affordable apartments	62.7%
2	Developing more livable-wage jobs	58.2%
3	Making dental care more affordable	56.8%
4	Increasing the number of mental health providers in rural communities	56.4%
5	Providing more flexible and affordable childcare options for working parent(s)	54.6%
6	Creating more emergency shelter beds for people who are homeless	54.6%
7	Reducing the amount of opioid misuse	54.3%
8	Providing more senior housing options	54.3%
9	Reducing the amount of other drug misuse (heroin, cocaine, etc.)	53.2%
10	Increasing the number of dentists who serve MaineCare patients	52.9%

Section 2: Cross-Assessment Summary of Priority Areas

While each hospital and organization’s assessment was unique and independent of one another, there was considerable overlap and commonality among the needs and priorities identified. This section of the report groups the like-priorities and needs identified by the organizations above into priority area categories. These priority area categories, and the assessments they arose in, include:

Priority Areas	Exeter Hospital CHNA	Seacoast Public Health Network CHIP	York Hospital CHNA	York County, Maine Shared CHNA	York County Community Action Corp. CNA	Wentworth-Douglass Hospital CHNA
Access to Care	✓		✓	✓	✓	✓
Physical Health		✓				✓
Mental and Behavioral Health	✓	✓	✓	✓	✓	✓
Substance Use	✓	✓	✓	✓	✓	✓
Older Adults and Other Underserved Populations	✓	✓			✓	✓
Social Determinants of Health						
Economic Stability	✓			✓	✓	✓
Education	✓			✓	✓	✓
Food Security	✓			✓		✓
Housing	✓			✓	✓	✓
Transportation	✓			✓	✓	✓
Broadband Access				✓		
Social and Community Context	✓			✓	✓	

Access to Care

The category of **Access to Care** broadly includes the ability for people to find, afford, and access health insurance, providers, and care. Key issues within Access to Care are listed below; when available, data related to the issues are summarized.

The ability to afford care was included in the assessments, described in multiple ways.

- *Lack of health insurance* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York
- *High cost of care* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York
- *Rural communities are often overlooked, in terms of health care access and funding for resources* – Eliot, Kittery, York
- *Lack of education about non-emergency options for free or low-cost care* – Eliot, Kittery, York

Service Area	% without health insurance, all ages
Rockingham County	4.8%
New Hampshire	5.9%
York County	5.3%
Maine	7.4%

Rockingham County	\$1,130	\$210	\$360	\$230
New Hampshire	\$1,090	\$200	\$350	\$220
York County	\$1,140	\$210	\$360	\$230
Maine	\$1,100	\$210	\$340	\$230

Source: Policy Map, 2019 (<https://www.policymap.com/newmaps#/>)

Issues related to being able to receive care, largely related to provider availability for multiple types of care, were called out in a variety of ways. Mental health service gaps were emphasized in multiple ways, and there was an acknowledgment of the need for providers to be culturally aware.

- *Provider shortage – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *Increase the availability, adequacy, and affordability of mental health services (including counseling services, individual support options, and case management) to meet community needs – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *Increasing the number of community members visiting dentists/dental clinics – Portsmouth, Newington, Eliot, Kittery*
- *Limited beds for youth in crisis and need of inpatient pediatric behavioral health – Eliot, Kittery, York*
- *More cultural awareness among providers – Eliot, Kittery, York*

Service Area	Ratio of population to providers				
	Other Primary Care Providers ¹ (Nurse Practitioners, Physician Assistants, Clinical Nurse Specialists)	Primary Care Physicians ¹	Dentists ¹	Mental Health Providers ¹	Psychiatrists ²

[§] **HPSA designations** are assigned by the Health Resources and Services Administration and used to identify areas of population groups within the U.S. that are experiencing a shortage of health professionals. The primary factor used to determine a HPSA designation is the number of health professionals relative to the population with consideration of high need. Federal regulations stipulate that, in order to be considered as having a shortage of providers, an area must have a population-to-provider ratio of a certain threshold. The ratio for **primary medical care** is at least 3,500 to 1, or 3,000 to 1 if there are unusually high needs in the community. The ratio for **dental care** is at least 5,000 to 1, or 4,000 to 1 if there are unusually high needs in the community. The ratio for **mental health care** is at least 30,000 to 1, or 20,000 to 1 if there are unusually high needs in the community.

Service Area	Number of providers per 100,000 population		
	Primary Care Providers <i>(General Practice, Family Practice, Obstetrics and Gynecology, Pediatrics, Geriatrics, Internal Medicine, Physician Assistants, and Nurse Practitioners)</i>	Dental Providers <i>(General Dentists and Advanced Practice Dental Therapists)</i>	Mental Health Providers <i>(Psychiatrists, Psychologists, Licensed Clinical Social Workers, Counselors, Marriage and Family Therapists, and Advanced Practice Nurses specializing in mental health care)</i>
New Hampshire	329.9	62.3	371.3
Maine	355.0	57.6	539.8
United States	265.3	60.6	305.0

Transportation and travel to care was an issue identified in multiple ways.

- *Lack of transportation to receive care, especially in rural communities – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *More telehealth services needed due to long distance to travel for care – Eliot, Kittery, York*
- *Reducing MaineCare transportation limitations – Eliot, Kittery, York*

Service Area	% who visit a primary care provider who is located more than 30 miles from the patient's home
Rockingham County	N/A
New Hampshire	N/A
York County	18.8%

Physical Health

The category of **Physical Health** broadly includes a range of health behaviors, such as exercise and healthy eating, and physical health conditions, such as cancer and heart disease. Key issues within Physical Health are listed below; when available, data related to the issues are summarized.

Decline in how people ranked their personal health – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland

Service Area	% of adults who reported that their physical health was not good for 14 or more days in the past 30 days	% of adults who reported that their mental health was not good for 14 or more days in the past 30 days
New Hampshire	9.6%	14.6%
Maine	11.7%	15.2%

Mental and Behavioral Health

The category of **Mental and Behavioral Health** broadly includes the ability for people to find, afford, and access mental and behavioral health providers and treatment, as well as the prevalence of mental health conditions. Key issues within Mental and Behavioral Health are listed below; when available, data related to the issues are summarized.

Youth mental health was identified as an issue generally, and specifically related to the impact of COVID-19.

- *Youth mental health, depression* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York
- *Impact of COVID-19, social isolation, and e-learning on youth mental health and adverse childhood experiences (ACEs)* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York
- *Adverse Childhood Experiences (ACEs)* – Eliot, Kittery, York
- *Suicide prevention* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland

Service Area	Felt so sad/hopeless almost every day for 2 weeks or more in a row that they stopped doing some usual activities

Substance Use

The category of **Substance Use** broadly includes the prevalence of substance use, such as alcohol, marijuana, and opioids, substance use among youth, and overdose fatalities. Key issues within Substance Use are listed below; when available, data related to the issues are summarized.

The need for improvements in substance use disorder prevention, treatment, and recovery services and programs was identified in multiple ways.

- *Increase awareness, substance misuse prevention through education, and resources for youth – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *Gaps in the continuum of substance use disorder care (prevention, treatment, recovery) – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Reduce stigma around mental health and substance issues to encourage individuals to come forward and seek help – Eliot, Kittery, York*
- *Hospitals should focus on substance use to improve community health – Portsmouth, Newington, Eliot, Kittery*

Service Area	% of high school students that think people are at great risk of harming themselves if they take a prescription drug without a doctor's prescription	% of high school students that reported that their friends feel it would be wrong or very wrong for them to take a prescription drug without a doctor's prescription	% of high school students that reported that their parents feel it would be wrong or very wrong for them to take a prescription drug without a doctor's prescription

Reducing substance use was mentioned in multiple ways. Specific substances were identified, and there was specific recognition of how COVID-19 impacted substance use disorder response.

- *Substance use disorder increased but was overshadowed by the COVID-19 pandemic – Portsmouth, Newington, Eliot, Kittery*
- *Alcohol deaths increased during the COVID-19 pandemic – Eliot, Kittery, York*
- *Reduce heavy/binge drinking – Portsmouth, Newington, Eliot, Kittery*
- *Reduce prescription drug misuse among youth – Portsmouth, Newington, Eliot, Kittery*
- *Reduce the amount of drug misuse (opioids, heroin, cocaine, and other drugs) – Eliot, Kittery, York*
- *Reduce smoking and vaping, particularly among youth – Eliot, Kittery, York*
- *Overdose deaths increase steadily, primarily caused by fentanyl – Eliot, Kittery, York*

Service Area	Alcohol use** in the past month ¹			Binge alcohol use ^{††} in the past month ¹			Heavy alcohol use ^{‡‡} in the past month ²
	Age 12-17	Age 18-25	Age 26+	Age 12-17	Age 18-25	Age 26+	Adults
New Hampshire	10.9%	68.9%	66.8%	5.7%	43.4%	27.6%	7.3%

Older Adults and Other Underserved Populations

The category of **Older Adults and Other Underserved Populations** broadly includes available services and social supports for older adults and fall prevention. Key issues within Older Adults and Other Underserved Populations are listed below; when available, data related to the issues are summarized.

Better services to support older adults was mentioned in multiple ways.

- *Isolation, inadequate help (with groceries, shopping, medications), and social risk factors: living alone, bills/debt, multiple medications, financial loss/need – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Family and social support (resiliency) kinship care – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Inadequate investments to better serve older populations as demographics change (e.g., transit and paratransit, safe pedestrian facilities) – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Services and supports needed include adult day programs, transportation, legal services, home health services, prevention and wellness programs, dental services, long-term care, and hospice/end-of-life care – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery*
- *Fall prevention – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*

Social Determinants of Health

The category of **Social Determinants of Health** broadly includes economic stability, such as unemployment and poverty; educational attainment; food security; physical environments, such as housing, transportation, and broadband access; and social context. Key issues within Social Determinants of Health are listed below; when available, data related to the issues are summarized.

Issues related to economic stability were called out in a variety of ways.

- *Low-income, poverty, and cost of living* – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York
- *Unemployment* – Eliot, Kittery, York
- *Develop more livable-wage jobs* – Eliot, Kittery, York

Service Area	% of population living in poverty	% of non-federal workers whose annual salary from their primary job is \$15,000 or less	% of non-federal workers whose annual salary from their primary job is \$40,000 or less

The availability and affordability of quality housing was an issue identified in multiple ways.

- *Increase availability of affordable housing options (“workforce-affordable housing”) – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *High energy costs – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *High local property taxes in many communities – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Creating higher quality rental apartments and houses – Eliot, Kittery, York*
- *Supply is not aligned well with evolving preferences of different age groups – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Senior population will occupy a growing number of housing units – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Limited new construction in projected area of slower population growth – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Poor access to sewer, water, and/or natural gas in many parts of the region – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*

Service Area	Housing costs above 30% of household income ^{1,2}	Rent above 30% of household income ^{1,2}
Rockingham County	29.3%	42.3%
New Hampshire	30.5%	43.9%
York County	23.5%	46.1%
Maine	21.2%	46.1%

Reliability of and investment in transportation were identified issues.

- *Lack of reliable transportation (public and private), particularly in rural communities, which leads to social isolation and declining health outcomes; older adults and disabled populations most impacted – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *Inadequate/Lack of allocated funds toward pedestrian, bicycle, and public transit (bus and rail service) – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Increase freight movement; damage to roadways, movement through communities, low investment in rail, port, and connecting transportation infrastructure – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*

Service Area	Estimated average number of vehicles per household	Estimated % of housing units for which no vehicles were available
Rockingham County	2.1	2.8%
New Hampshire	2.0	4.7%
York County	1.9	5.0%
Maine	1.8	6.8%

Source: Policy Map, 2017-2021 (<https://unh-policymap-com.unh.idm.oclc.org/newmaps#/>)

Broadband access was a highlighted issue.

- *Gaps in broadband access, particularly in less densely populated rural areas – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland, Eliot, Kittery, York*
- *Lack of competition in broadband access; monopoly – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*

Service Area	% of households with a subscription to any type of broadband internet
Rockingham County	93.5%
New Hampshire	90.1%
York County	89.1%
Maine	86.0%

Source: Policy Map, 2017-2021 (<https://www.policymap.com/newmaps#/>)

Social and community issues were mentioned in multiple ways.

- *Lack of information on services in multiple languages – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Lack of intermunicipal cooperation to solve problems or share services – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Developing and implementing policies and regulations to plan for and adapt to the impacts of climate-induced change – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Medical Reserve Corps – Portsmouth, New Castle, Rye, North Hampton, Newington, Greenland*
- *Provide more flexible and affordable childcare options for working parents – Eliot, Kittery, York*
- *Need for more Community Health Coalitions and collaboration amongst services – Eliot, Kittery, York*
- *Discrimination – Eliot, Kittery, York*
- *Lack of data around racial impacts – Eliot, Kittery, York*
- *Need for health literacy and education – Eliot, Kittery, York*

Appendix B. Data Sources

America's Health Rankings

[America's Health Rankings](#) evaluates comprehensive health, environmental, and socioeconomic data. Produced by the United Health Foundation, this interactive tool provides state-level data that stakeholders can use to effect change in a state or nationally. America's Health Rankings consists of multiple data sources, such as the Centers for Disease Control and Prevention (CDC), the U.S. Department of Health and Human Services Maternal and Child Health Bureau, and the US Department of Agriculture (USDA). The data included in this summary is from 2015-2022.

Centers for Disease Control and Prevention (CDC)

The CDC conducts the [Youth Risk Behavior Survey](#) (YRBS) to monitor health behaviors contributing to the leading causes of death, disability and social problems among youth and adults in the United States. The survey is distributed among representative samples of 9th through 12th-grade students in public and private schools nationwide. The [source](#) cited in this report is an analytic tool that consists of YRBS data at the national, state, and local level.

County Health Rankings

[County Health Rankings and Roadmaps](#) (CHR&R) is a program that provides data, evidence, guidance, and examples to build awareness of the multiple factors that influence health and support leaders in growing community power to improve health equity. CHR&R measures the health of nearly every county in all 50 states and is complemented by guidance, tools, and resources designed to accelerate community learning and action. CHR&R is known for effectively translating and communicating complex data and evidence-informed policy into accessible models, reports, and products that deepen the understanding of what makes communities healthy and inspires and supports improvement efforts. CHR&R's work is rooted in a sincere belief in health equity, the idea that everyone deserves a fair and just opportunity to be as healthy as possible. This summary includes data from 2014-2022.

Energy Sage

Energy Sage provides access to transparent information for consumers to make informed decisions about an energy supplier. The cited source from Energy Sage is an [article](#) about the cost of electricity in New Hampshire.

Institute for Health Policy and Practice (IHPP) Report Suite

IHPP maintains a [suite of analytic reports](#) based on NH medical, pharmacy, and dental claims data to understand better a broad range of issues related to the cost and utilization of health care services. The NH Claims Report Suite contains measures of types of service, the burden of specific diseases and conditions, and the use of medications, with the ability to drill down by population and geographic characteristics. The data in this summary is from 2018-2020.

Kaiser Family Foundation

[KFF \(Kaiser Family Foundation\)](#) is a nonprofit organization focusing on national health issues, as well as the U.S. role in global health policy. KFF develops and runs its own policy analysis, journalism, and communications programs, sometimes in partnership with major news organizations. KFF is a nonpartisan source of facts, analysis, and journalism for policymakers, the media, the health policy community, and the public. The data collected in the summary is from 2022, cited from the Health Resources and Services Administration (HRSA).

Kids Count

[Kids Count](#) is a premier data source to track the well-being of children and families in the United States. The data center aims to raise the visibility of issues involving children through a nonpartisan, evidence-based lens. Data are provided at the town, county, and state levels. Kids Count has multiple data sources, including the American Community Survey (ACS), Department of Education, and Health Resources and Services Administration (HRSA). This summary includes data from 2017-2022.

Maine Shared Community Health Needs Assessment

The [Maine Shared Community Health Needs Assessment](#) is a collaboration of Central Maine Healthcare, Eastern Maine Healthcare System, MaineGeneral Health, MaineHealth, and the Maine Centers for Disease Control and Prevention. The data on the interactive website aims to improve the health status of residents in Maine and track results. Health topics include health behaviors, chronic diseases, general health conditions, and social determinants of health.

The Maine Shared CHNA includes multiple data sources such as the Health Resources and Services Administration (HRSA), Maine Integrated Youth Health Survey, American Community Survey (ACS), and Behavior Risk Factor Surveillance System (BRFSS). This summary includes data from 2015-2020.

Maine State Housing Authority

The [Maine State Housing Authority](#) is an independent authority created by the Maine State Legislature in 1969 to address problems of unsafe, unsuitable, overcrowded, and unaffordable housing. The source cited is a [point-in-time count survey](#) of homelessness in Maine in 2022.

Maine's Youth Health Data Atlas

[Maine's Youth Health Data Atlas](#) is an interactive data dashboard from the Maine Integrated Youth Health Survey, a survey on the health and well-being of Maine youth. Data collected in this summary is from 2019.

Margaret Chase Smith Policy Center

The cited [source](#) is a data hub from the [Margaret Chase Smith Policy Center](#) for substance use and substance use disorder data in Maine. The website contains monthly overdose reports in addition to quarterly and annual drug death reports.

New Hampshire Coalition to End Homelessness

The [NH Coalition to End Homelessness](#) (NHCEH) is a nonprofit organization that helps organize leaders in the state to research solutions, educate providers on best practices, and empower people to advocate on behalf of the homeless. The NHCEH is regarded as the principal statewide entity for research, education, and advocacy for homelessness in New Hampshire. The [annual report](#) cited in the summary is from 2021.

NH Department of Health and Human Services (DHHS) WISDOM Data Portal

The [NH Department of Health and Human Services WISDOM Data Portal](#) is an interactive website aggregating health and social services data and producing customized reports, maps, and time trend analyses on hundreds of health-related indicators at the town, county, and state levels. Data may be used to identify trends, develop program initiatives, strengthen research, aid grant writing, and support policy changes.

The WISDOM Data Portal contains several [data sources](#) such as the American Community Survey (ACS), Behavioral Risk Factor Surveillance System (BRFSS), Youth Risk Behavior Survey (YRBS), and Hospital Discharge Data. This summary includes data from 2015-2021.

Policy Map

The [Policy Map](#) is a mapping and analytics tool for researchers to visualize and understand communities in the United States. Data are available to subscribers at the town, county, and state levels. Topics include demographics, income and spending, housing, quality of life, economy, education, and health. Policy Map consists of multiple data sources such as the American Community Survey (ACS), Centers for Disease Control and Prevention (CDC), and Centers for Medicare and Medicaid Services (CMS). This summary includes data from 2015-2021.

State of Maine Department of Labor

The source from the [Maine Department of Labor](#) is an [article](#) that discusses the labor law changes from 2022 to 2023, specifically the increase in the state's minimum wage.

Substance Abuse and Mental Health Services Administration (SAMHSA)

SAMHSA conducts the [National Survey on Drug Use and Health](#) (NSDUH) annually to gather nationally representative data on the use of tobacco, alcohol, and illicit drugs; substance use disorders; receipt of substance use treatment; mental health challenges; and the use of mental health services among those ages 12 and older. The NSDUH data allows researchers, clinicians, policymakers, and the public to better understand and improve behavioral health in the United States.

United States Census Bureau – Quick Facts

The United States Census Bureau Quick Facts provides statistics for all states and counties, and for cities and towns with a population of 5,000 or more. The [source](#) cited in this summary includes data from 2021.
