

# Program Overview 2023

Lead design with  
strategic clarity.  
Make business better.

# Meet your Instructor

# Ryan Rumsey

For 20+ years, Ryan worked as a designer and executive at Apple, Electronic Arts, USAA, Nestlé, and Comcast. He is also the author of *Business Thinking for Designers*.

Ryan spent 10+ years as the senior design leader charged with building and scaling design organizations.

For the last four years, Ryan has been teaching design executives, leaders, and teams as CEO of Second Wave Dive and lead instructor of CDO School.

- pivot to 8-week cohort;  
\$3000
- Combined “Strategic Business Thinking for Designers” & “Design Org Strategy”
- 6-8 hrs/week
- 35-40 per/cohort
- All under SWD

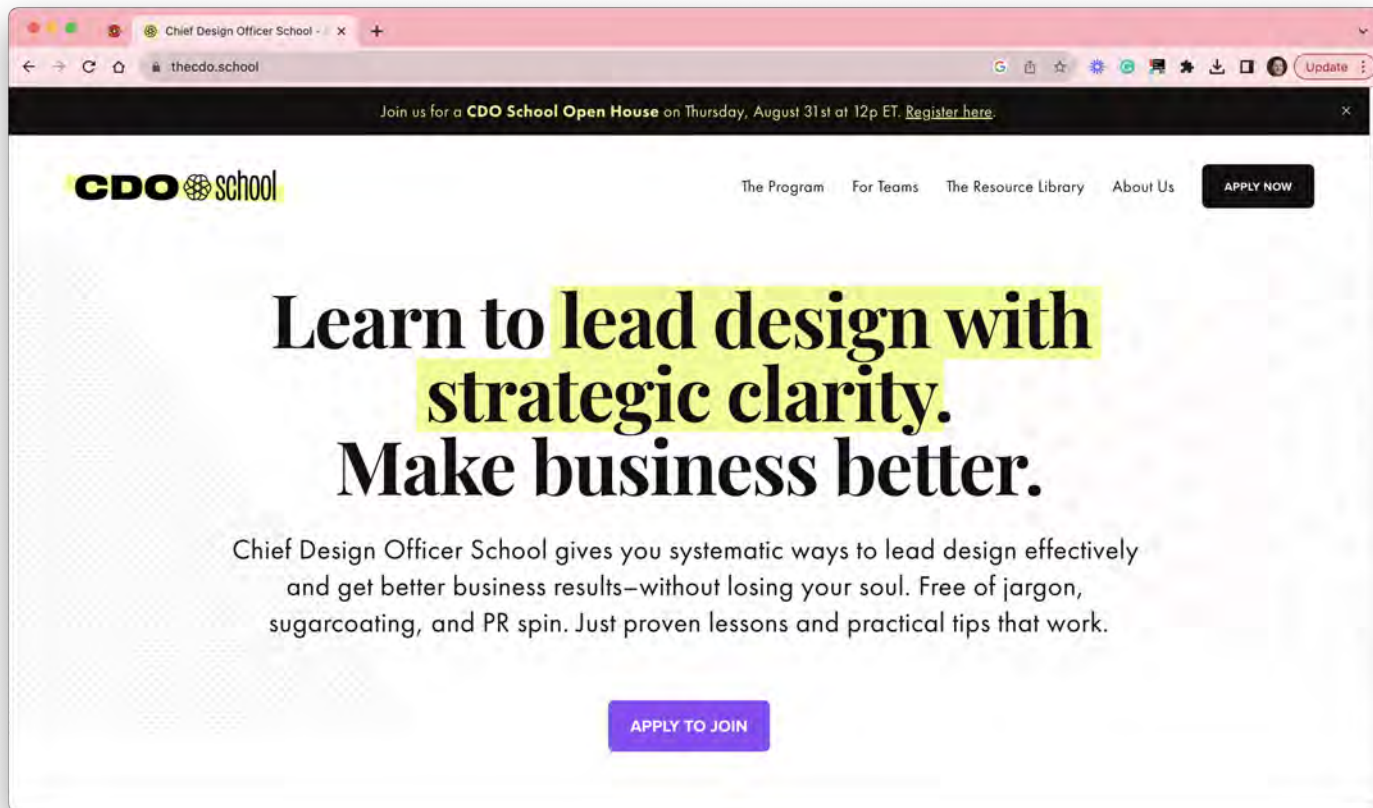

# Now

- ✓ Moved all programming to CDO School
- ✓ Turned async content into 11 individual courses
- ✓ 12-months of learning, not just 8 weeks
- ✓ 2 Live, Topic-Focused Cohorts per year
- ✓ 100+ Tools & Templates
- ✓ Weekly Live Events and Chat outside of cohorts
- ✓ Lowered the price from ~~\$3000~~ back to \$2000
- ✓ Introduced team pricing

# Now

# Now

- 700+ alumni
- 24 countries
- Sr. Designers to SVPs
- Companies big and small
- In-house and agency side

# What you get and how you learn

- ✓ 12-months of learning
- ✓ Unlimited, On-Demand Access
- ✓ 11+ Action-Focused Courses
- ✓ 2 Live, Dive-Deep Cohorts
- ✓ 100+ Tools & Templates
- ✓ Weekly Live Events and Chat
- ✓ *\$3000*
- ✓ *\$2000*

# Courses (Track progress)

The screenshot shows a web browser window with the URL `members.secondwavedive.com/c/measure-design-with-confidence?preview=true`. The page features a navigation sidebar on the left with categories like 'Home', 'Courses', 'NEW MEMBER HUB', 'COMMUNITY', and 'LEARN WITH SWD'. The main content area displays a course titled 'Measure Design with Confidence' with a 'Start course' button. Below this, a 'Course progress' section shows 'Completed 0 of 16 lessons' with a 0% progress bar. The 'Course content' section lists '1 section • 16 lessons' and includes a list of topics under the section 'Connect Design to Business with North Star Maps and POKRs'.

- Connect Design to Business with North Star Maps and POKRs **16 lessons**
  - What will you learn in this module?
  - Connecting design health to business health
  - Design is the product

# Courses (worksheets)

## Link your objectives to each other

### Activity

Use the model to explain your desirability perspectives and objectives, and how they support your objectives, using the grid by drawing arrows.

### Tip

For more information:

1. Consider objectives and focus by identifying an objective, a quality and a measure.
2. What are the main reasons you may have for this objective in your organisation?
3. How do you know this is an objective? (What are the indicators?)
4. How do you know this is an objective? (What are the indicators?)
5. How do you know this is an objective? (What are the indicators?)

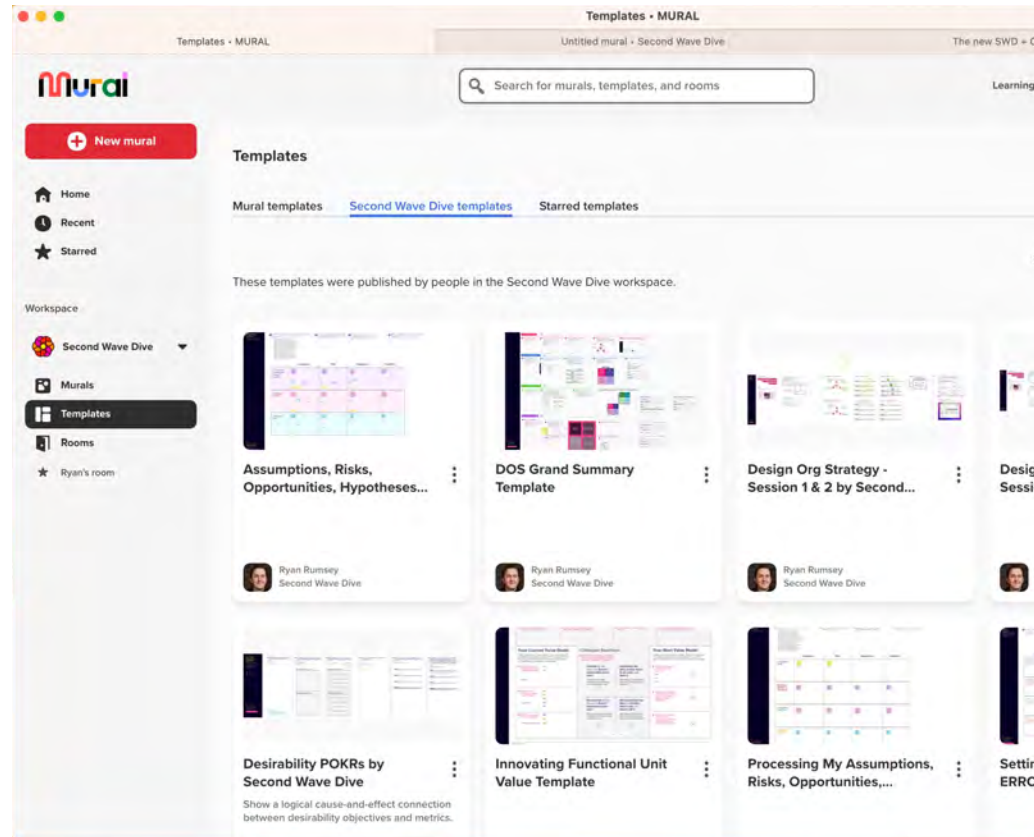

### E.G. DESIRABILITY POKR

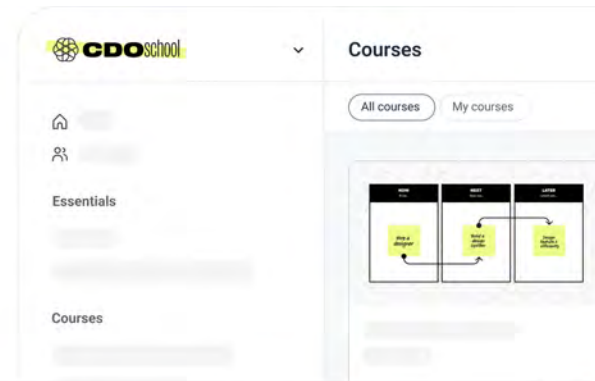

PERSPECTIVES	OBJECTIVES	KEY RESULTS	INITIATIVES
Measurements of product or service performance	Goals that measure what we want to achieve	Measurable outcomes produced towards the goals	Steps required to drive the achievement of the key results
What are the quality metrics we are focusing on?	Where do we need to get?	How do we know we're getting there?	What do we do to get there?

# Templates

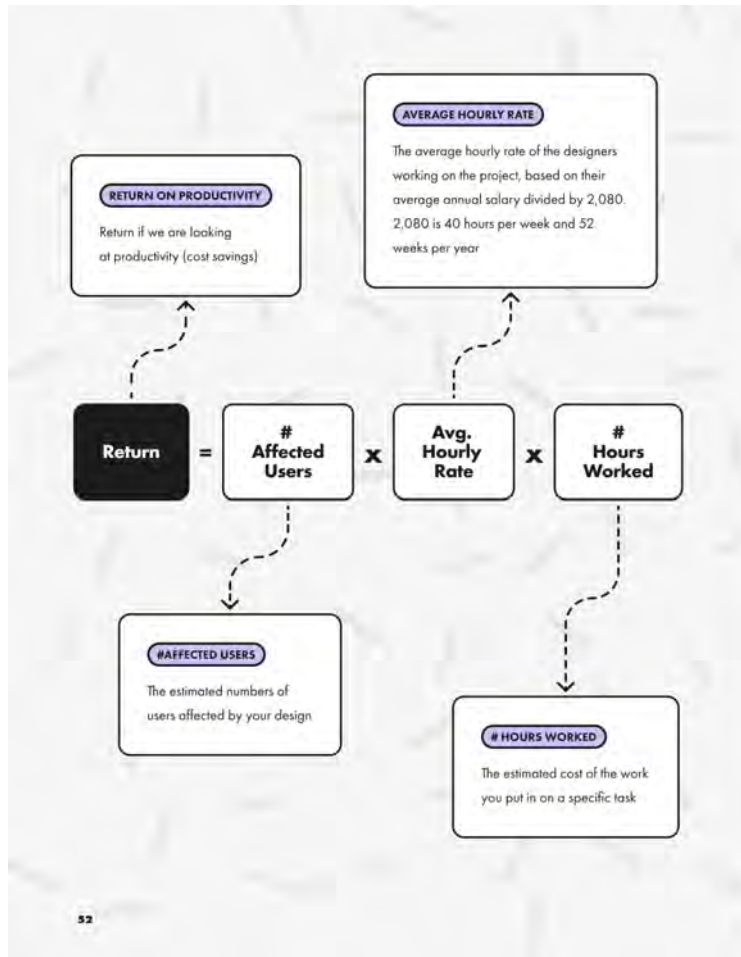

# Live Cohorts

- **September & April**
- **4 weeks**
- **3-5 hours/week**
- **Weekly live sessions**
- **Practice & reflection**
- **Specific learning outcomes**
- **Peer feedback**

# Downloads

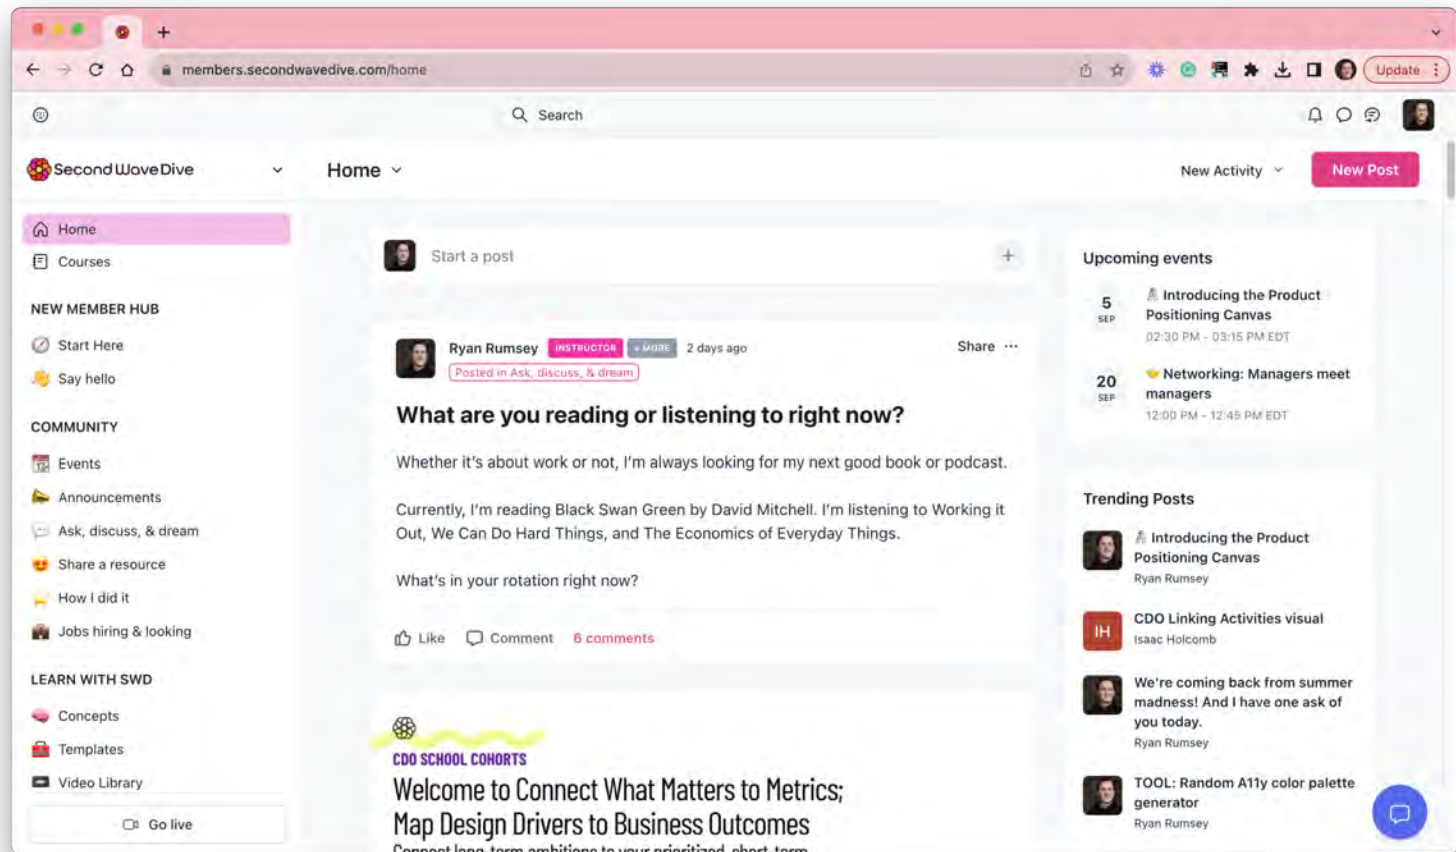

## Return is not just revenue, but saved costs as well.

Decisions we make might include a process that saves us operational costs AND increases revenue. Make sure you're considering both perspectives when calculating your final return.

# Community

## Unlimited, On-Demand Access

Membership gives unlimited access to all available on-demand CDO School programs, content, tools, frameworks, processes, etc.

## Live, Dive-Deep Cohorts

Cohorts are live, in-depth learning experiences for topic-specific areas. These are the core experience we've been leading since 2019.

## Practical Exercises

Put CDO School concepts into action with assignments and exercises, providing you with the skills you need to adapt to ever-changing situations

## Actionable Tools & Templates

Address your biggest and most frequent challenges with our Figma, Mural, Mural, Google Sheets, Docs, and PDF templates and tools.

## Cross-Industry Peer Examples

Gain some of your biggest insights by seeing how others have done it before, and what has and hasn't worked.

## Level-Specific Discussions

The leadership spectrum is broad. Join relevant and timely discussions with those who share your responsibilities and pressures.

# What you will be able to do after CDO School

Measure, track, and monitor design metrics with confidence

Develop the strategy, priorities, outcomes, and game plan for design at your company

Visualize and assess your company's business, strategic direction and focus

Grow analytical prowess to support creative problem solving

Craft better business arguments and clarify the points you need to make

Identify the ideal stakeholders and partners to validate and scale good ideas with

Convert insights and opinions into ratings and math

Develop a sense of how partners perceive design and how to support or change that perception

Map business activities to your reasoning and rationale

Connect long-term ambitions of the practice to prioritized, short-term tactics

Negotiate effectively while resolving conflicts and creating better outcomes.

Position design as a differentiator for your company

Set meaningful boundaries and expectations with stakeholders

Improve relationships and build stronger alignment

Connect more human needs to business expectations

Grow analytical prowess to support creative problem solving

Boost your influence while being more efficient and effective

Challenge the status quo with curiosity and healthy tension

# CDO School by the numbers

**67%**

NPS

**94%**

satisfaction

**700+**

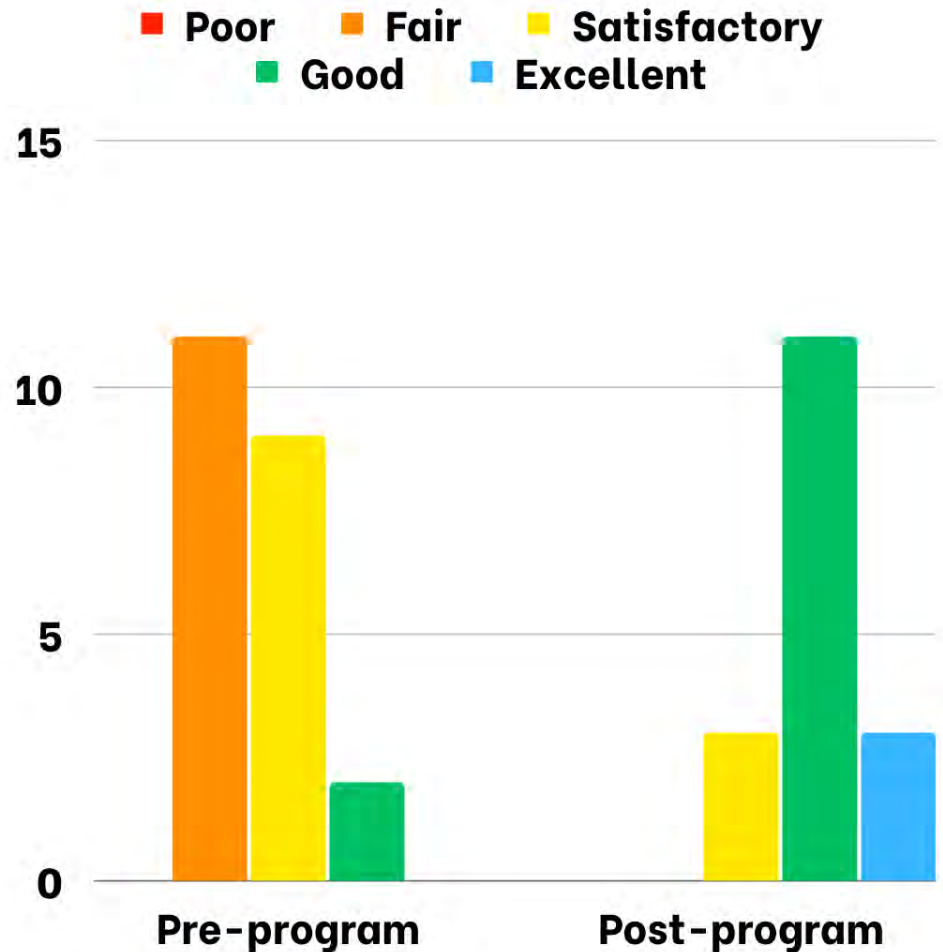

alumni

# Skill-level growth\* during CDO School

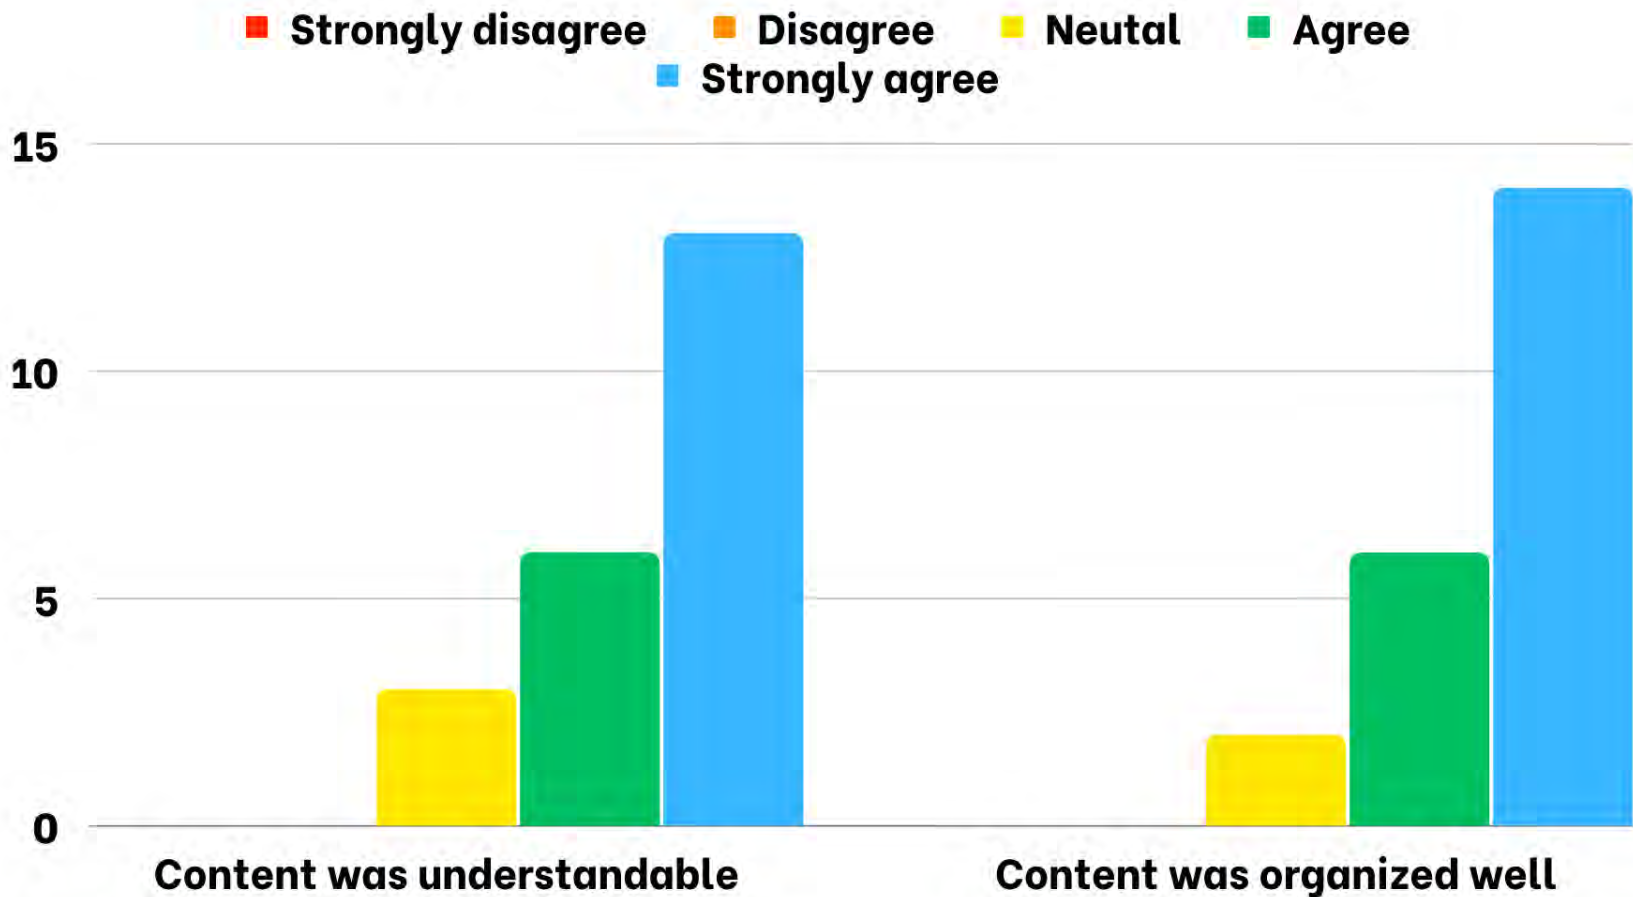

Pre-program, the majority of attendees feel their skill level is not at the level they need to do their job well.

Post-program, the majority of attendees feel good about their skill level.

**\*Self assessed**

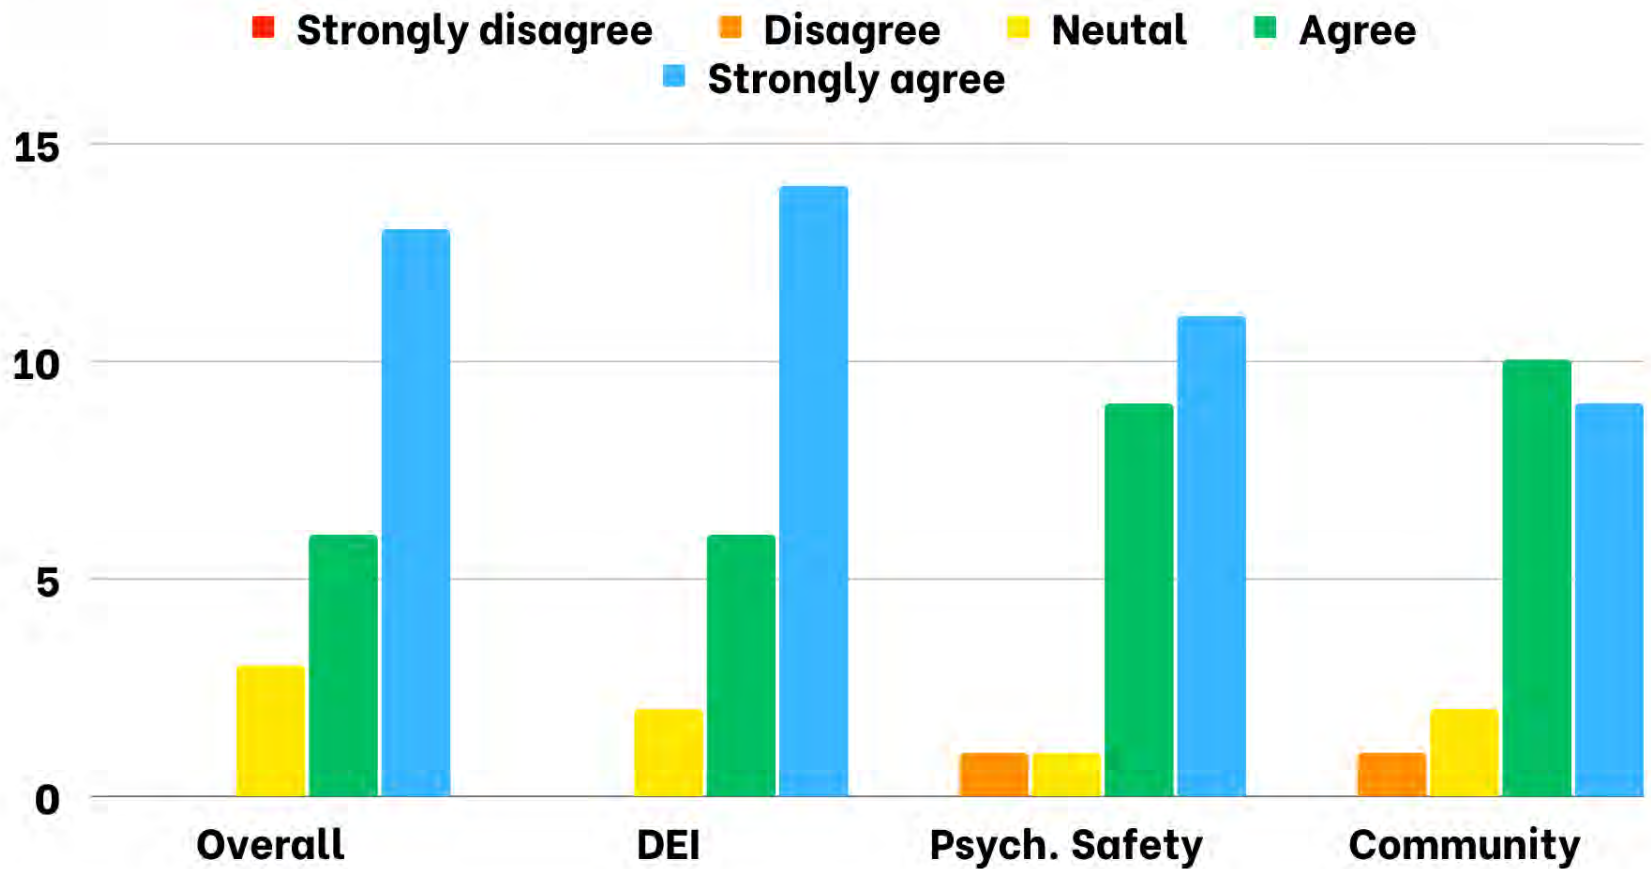

# Content meets my expectations

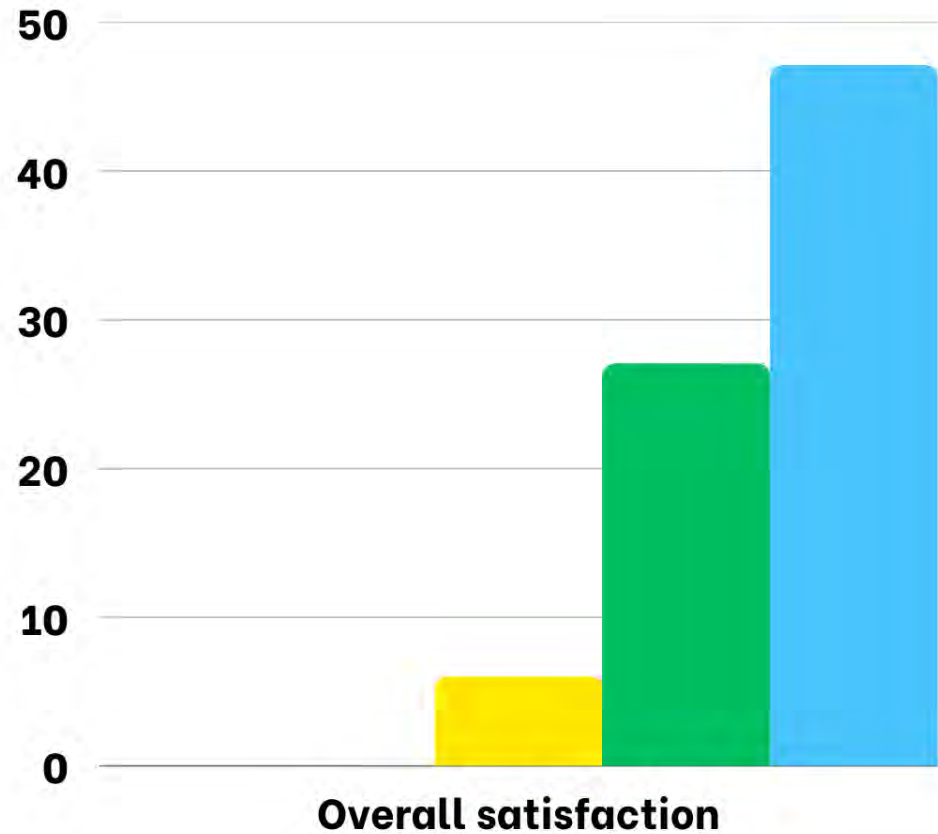

# Format meets my expectations

# 93% Customer Satisfaction rate

Through all the iterations, updates, and changes to CDO School, we continue to score high satisfaction rates with our programming.

- Completely unsatisfied
- Mildly satisfied
- Satisfied
- Very satisfied
- Thoroughly satisfied

# What alumni have said about CDO School

"This is an absolute gold mine!  
These lessons demystified so  
much for me. I finally have a map  
of how everything fits together  
after a few years of wandering  
aimlessly."

**Sarah Mills**

Director of Design

Pagoda

"This course has evolved my mindset more than any other course I've taken. As a result, I think more critically and have clear steps to show the value of design."

**Darcy Taj**

Design and Brand Manager

Federal Reserve Bank of Dallas

"In short, CDO School is the best money I have spent on my career. I can now create an objective, shared point of view about what great design is for the products we're working on."

**Gene Moy**

Senior Manager, UX  
aPriori Technologies

"This has made me the leader that I am today. Without a doubt, I wouldn't be as strategic, business-savvy, or empathetic towards my stakeholders without this course."

**Andy Morales Coto**

Sr. Director of Product Design

FireHydrant

"This has given me the time and space and connections to mature my perspectives. More importantly, I think I'm healing here."

**Carolina Tod**

Design Team Leader

Fintech Magalu

# What alumni are able to do post-CDO School

Think, pair, share

Before CDO School,  
I used to think

What was I doing wrong, what am I missing on being successful in leading my team, and getting further in an organisation.

It was on me to express the necessity of design

There is a huge gap in between what I am and what a CDO is.

After CDO School,  
now I think

Still always have lots to learn, but sometimes its not about you its about right time, right shared knowledge and learning. Now I know I just need more practice and exposure in the right space.

Reminder that design is not necessary for success, but it makes success more scientific, more planned and multiples value potential

Its largely all about framing, sharing and connecting with a common language, magic in laddering

**Before CDO School,  
I used to think**

I needed to have a background in Business Development to be able to show the value of design and that I needed to be better at math

It was a bigger jump for me to get to executive level thinking

**After CDO School,  
now I think**

I was closer than I thought and now feel empowered with the tools provided to prove the value of design in various ways leveraging POKRs and Strategy Maps

I am ready for the next level in my career and have a one-up on others because of the tools we have been taught and provided

**Before CDO School,  
I used to think**

I thought the arguments  
were built to reach our  
goals

I didn't truly understand  
the value of metrics and  
how to bring metrics on  
the table

**After CDO School,  
now I think**

Now I know that  
arguments are what we  
use to bring on the table  
the situation, propose  
possible solutions and  
open a discussion that  
could also lead to  
something we did not  
expect

I better understand  
metrics and I also have an  
general idea on how  
metrics can be used to  
make arguments more  
concrete

**Before CDO School,  
I used to think**

That business metrics  
might be hiding some  
complexities to which I  
might not be able to  
connect design

Unable to see the vision of  
the future org

**After CDO School,  
now I think**

There are definitive paths  
to connecting design to  
business metrics

Clear path to vision

**"I need to tell you I sketched out a strategy map with measures today in the last 10 minutes of a workshop and the whole team, including engineering, pms, and data were like "fuck yeah"! I cannot believe this has finally happened to me."**

**"I don't think I would have gotten  
out of this situation without SCR.  
It totally worked! Thank you!  
Eternally grateful!"**

**"I was sitting in a meeting today and suddenly, everything made sense. I wasn't freaking out or confused. I was like, completely calm and knew what to do. It was some comforting!"**

**Cost, expected  
time commitment,  
timing, etc.**

- ✓ 12-months of learning
- ✓ Unlimited, On-Demand Access
- ✓ 11+ Action-Focused Courses
- ✓ 2 Live, Dive-Deep Cohorts
- ✓ 100+ Tools & Templates
