ADVOCATING FOR OUR NATIONS. FIRST.
SINCE 1982.

Now hiring Intermediate and Junior Lawyers
Tansi kakiyawkitisanihk ekwa nitotemak,

I am deeply honored to address you as the President of the Indigenous Bar Association in Canada (the “IBA”). As we gather at the Rama First Nation this year, I want to emphasize a critical aspect of exercising the right to self-determination and protecting and advancing the rights of Indigenous peoples in Canada – the imperative to build capacity within our respective communities and organizations, including within the IBA.

Capacity building is at the heart of our ability to drive lasting change and secure a brighter future for Indigenous peoples across Canada. It is a commitment to empowerment, resilience, and self-determination, and it is central to the IBA’s vision for stronger, more vibrant Indigenous nations.

Over the years, we have made significant strides in building the IBA up to serve as a voice for Indigenous people working with and for Indigenous peoples in Canada. Our members have assumed roles as key decision-makers across the country, while creating supports and networks to ensure that any progress within our communities honours and furthers our languages and cultural heritage. Our ability to address the pressing issues facing our communities, whether in the areas of justice reform, economic development, education, child and family services or critical infrastructure, hinges on our capacity to mobilize resources, develop leadership and strengthen our networks.

In the coming year, we will continue to place a strong emphasis on capacity building within the IBA. We will work to expand educational opportunities, provide training and undertake research, and create mentorship opportunities within the IBA. We will foster collaboration with partners who share our commitment to the advancement of Indigenous interests in Canada.

Since the inception of the IBA, the selfless and generous donations of time, resources and shared efforts of the IBA’s members have enabled the IBA to deliver on its goals and vision. I am ceaselessly amazed and inspired by our members’ accomplishments, and am humbled by the hard work that awaits us.

I pray and hope that we can continue to build a resilient, flourishing, respectful and collaborative community within the IBA to effectively promote and support the growth and prosperity of Indigenous nations in Canada.

Kinanaskomitinanaw.

Ekosi,

Drew Lafond
THERE’S ANOTHER WAY TO GET WHERE YOU’RE GOING.

Location matters. To navigate the challenges and leverage the opportunities that exist within this market, you need a team well positioned to deliver.

For legal proficiency where you need it, look to us.

Look west.

MLT Aikins provides a full spectrum of legal services for Indigenous communities and organizations across Western Canada. We are proud to have offices in the territories of Treaty Nos. 1, 4, 6 and 7, and in the traditional, ancestral and unceded territory of the Coast Salish peoples on the west coast and the Dakota peoples on the prairies, and within the homelands of the Métis in the province of Manitoba, Saskatchewan and Alberta.

We are dedicated to the Indigenous communities and organizations that we serve, assisting with specific claims, policy development and advocacy work to advance the unique legal rights of Indigenous peoples in Canada. In doing so, we strive to implement the Calls to Action of the Truth and Reconciliation Commission, including the adoption and implementation of the United Nations Declaration on the Rights of Indigenous Peoples by federal, provincial, territorial and municipal governments as the framework for reconciliation, and the Calls for Justice set out in the Final Report of the National Inquiry into Missing and Murdered Indigenous Women and Girls.

*ANISHINAABE A BALLROOM*

Brian Calliou, Assistant Professor, Faculty of Law, University of Calgary

Canada’s legal profession historically excluded Indigenous persons and other persons of colour, along with women, from entering the legal profession. Indigenous lawyers’ numbers have steadily increased since the 1970s - over time they recognized the divergence between their advocacy and legal pursuits and that of the mainstream legal culture. Documenting how and why the Indigenous Bar Association (IBA) was established as a separate breakaway group from the Canadian Bar Association (CBA), I explore how the IBA has helped develop Indigenous legal culture and influenced new Indigenous lawyers.

“We have brought some of the best vendors (small business owners) together for the 2023 Indigenous Bar Association Conference here in Rama First Nation. We were a resourceful First Nation and for many years traded our goods with others for survival, as we were along the trade route to the north and west. We continue this tradition today. Many of us do work that has been passed down, while others are self taught to bring back a tradition long forgotten. Some have experienced the practices of colonization - and the trauma this has caused - and use this means to connect to their community. Whatever our avenue, we bring our art/crafts to you with love and respect.”
