Sunbrella Marine

Designed to weather the harshest conditions with unparalleled beauty. These fabrics are easy to clean and resist mildew; and their rich colors won't be washed away or bleached by the sun, rain or chlorine. Above deck and below, it's always smooth sailing. Corresponding binding also available.

Specifications:

- 46" (C46, C47, C48) wide x 65 yd rolls and 60" (C60) wide x 65 yd rolls (*less yardage available with cut charge*)
- 80" (C80) width available in some colors by special order (*full rolls*)
- 9 oz / sq yd
- 10 year limited warranty

Applications:

Biminis, Covers, Dodgers, Fixed & Retractable Awnings, Shade Sails, Tops, Umbrellas

Sunbrella fabrics can be cleaned while still on a shade structure or boat top. Simply brush away loose dirt. Rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.

* Premium colors

** Available in 80" width by special order (*full rolls*)

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Acrylic Fabric

Sunbrella Plus

A traditional shade and marine fabric with a durable polyurethane undercoating for superior water resistance. Sunbrella Plus uses standard Sunbrella colors for easy color coordination and is ideal wherever water resistance is critical.

Specifications:

- 60" wide x 60 yd rolls
(less yardage available with cut charge)
- 80" width available in some colors
by special order *(full rolls)*
- 10 oz / sq yd
- 5 year limited warranty
- Please inquire for stocked colors

Applications:

Biminis, Covers, Dodgers, Fixed & Retractable Awnings, Shade Sails, Tops, Umbrellas

Sunbrella fabrics can be cleaned while still on a shade structure or boat top. Simply brush away loose dirt. Rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.

* Premium colors

** Available in 80" width by special order (full rolls)

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Acrylic Fabric

Sunbrella Firesist

State-of-the-art flame retardant performance and UV resistance for the commercial awning, canopy and shade markets.

Specifications:

- 60" wide x 60 yd rolls
- 8.75 oz / sq yd
- 5 year limited warranty

Applications:

Biminis, Covers, Dodgers, Fixed & Retractable Awnings, Shade Sails, Tops, Umbrellas

Flame Resistance:

Passes all, but not limited to:

- California State Fire Marshal Title 19
- NFPA 701-99, Test Method II
- CPAI-84; Tent Walls and Roof
- FMVSS 302
- FAA 25.853 (Aviation)
- UFAC Upholstered Furniture, Class 1
- ULCS-109

Sunbrella fabrics can be cleaned while still on a shade structure or boat top. Simply brush away loose dirt. Rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Acrylic Fabric

Sunbrella Clarity

Durable awning fabric with a polyurethane coating for superior water and UV resistance, as well as a finish that uses natural elements of sunlight and rain to remove stains.

Specifications:

- 60" wide x 65 yd rolls
(less yardage available with cut charge)
- 10 oz / sq yd
- 5 year limited warranty
- Please inquire for stocked colors

Applications:

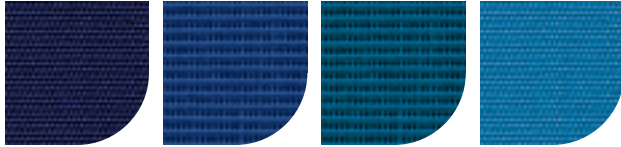

Fixed & Retractable Awnings,
Shade Sails, Umbrellas

Sunbrella fabrics can be cleaned while still on a shade structure or boat top. Simply brush away loose dirt. Rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.

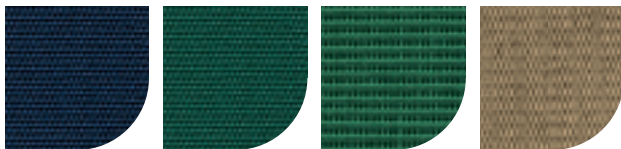

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Sunbrella SeaMark

Sunbrella woven solution dyed acrylic fabric, backed with a textured marine grade vinyl, offers the best of two worlds – beautiful, color-fast fabric with the added durability of vinyl.

- Waterproof
- Fade proof

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 16.25 oz / sq yd
- 5 year limited warranty

Applications:

Biminis, Boat Tops, Dodgers

Hand washing in shade or partial shade, not direct sunlight, is best. Vacuum with a brush attachment and rinse thoroughly with water to remove loose particle soils. Spray Marine Cleaner or bleach in extreme situations evenly over the entire surface while still wet. Allow the cleaner to soak for 10 to 20 minutes and then scrub lightly with a soft nylon brush or terry cloth rag. Rinse thoroughly, until no remaining soap is observed. Additional cleanings may be required.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Acrylic Coated Polyester Fabric

Properties:

100% woven polyester (600 denier) utilizing a proprietary process to acrylic coat both the top and bottom, thus allowing the fabric to be completely reversible.

- High in tensile & tear strength
- True reversible fabric, makes for optimum use of material when patterning
- Multi-ply construction for maximum wear & durability
- High tear, abrasion & puncture resistance
- Dimensionally stable (won't sag or stretch)
- Highly water repellent
- UV & mildew resistant
- Coated with stay-true long lasting colors

Specifications:

- 62" wide x 50 yd rolls
(less yardage available with cut charge)
- 78" width available in some colors by special order *(full rolls)*
- 11.5 oz / sq yd
- 5 year limited warranty

Applications:

Marine Tops, Winter Boat & Trailer Covers, Gazebos, Canopies, Tarps, Patio Furniture, Playground Equipment Covers, Grill Covers

Top Gun fabric may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

** Available in 78" width by special order (full rolls)

Printed colors are approximate. See sample card for exact shade.

Acrylic Coated Polyester Fabric

Properties:

One sided acrylic coated 100% woven polyester (600 denier) fabric. With no pigmentation on the underside, color rub is near impossible.

- Excellent strength & durability
- Tear & abrasion resistant
- UV & mildew resistant
- Dimensionally stable
- Highly water repellent

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 9.0 oz / sq yd
- 5 year limited warranty
- Please inquire for stocked colors

Applications:

Marine Tops, Trailer Covers, Bimini Tops, Gazebos, Canopies, Tarps, Playground Equipment Covers, BBQ Covers, Patio Furniture Covers

Top Gun 1S may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Acrylic Coated Polyester Fabric

Properties:

Acrylic coated 100% woven polyester fabric (450 denier) characterized by excellent strength, durability, tear and abrasion resistance.

- Performs as well as heavier, more expensive fabrics
- Completely reversible
- High abrasion resistance
- Dimensionally stable (won't sag or stretch)
- Highly water repellent
- UV & mildew resistant

Specifications:

- 62" wide x 50 yd rolls
(less yardage available with cut charge)
- 9 oz / sq yd
- 4 year warranty
- Please inquire for stocked colors

Applications:

Marine & Bimini Tops, Trailer Covers, Tarps, Gazebos, Canopies, Patio Furniture Covers, Playground Equipment Covers, Grill Covers

Top Gun 9 may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Acrylic Coated Flame Retardant Polyester Fabric

Properties:

Flame retardant 100% woven polyester (600 denier) utilizing a proprietary process to acrylic coat both the top and bottom, allowing the fabric to be completely reversible.

- Economical choice when needing FR spec
- High in tensile & tear strength
- True reversible fabric, makes for optimum use of material when patterning
- Multi-ply construction for maximum wear & durability
- High abrasion & puncture resistance
- Dimensionally stable (won't sag or stretch)
- Highly water repellent
- UV & mildew resistant
- Coated with stay-true long lasting colors

Specifications:

- 62" wide x 45 yd rolls (FR®), 62" wide x 50 yd rolls (FR Lite®)
(less yardage available with cut charge)
- 13 oz / sq yd (FR®), 8 oz / sq yd (FR Lite®)
- Limited warranty: 8 yr (FR®), 5 yr (FR Lite®)
- Please inquire for stocked colors

Applications:

Tents, Commercial Awnings, Canopies

Flame Resistance:

3rd party certified to pass California State Fire Marshall, NFPA 701 & CPAI 84

Top Gun FR may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Polyester Fabric

Properties:

100% solution dyed polyester (840 denier) with a fluorocarbon finish, resulting in a fabric that is breathable, reversible, water repellent and has a luxurious hand.

- UV & mildew resistant
- Stronger than acrylics
- Better abrasion resistance than acrylics
- Maintains appearance for years
- Dimensionally stable (won't sag or stretch)
- High water resistance
- Exceptionally colorfast

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 11.5 oz / sq yd
- 8 year limited warranty

Applications:

Marine Tops, Trailer Covers, Awnings, Gazebos, Canopies, Patio Furniture

Top Notch fabric may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Polyester Fabric

Properties:

100% solution dyed polyester (600 denier) with a clear back coat, characterized by excellent strength, durability, tear and abrasion resistance,

- Soft & pliable
- Exceptional color fastness with no rub off
- Non-abrasive hand
- Dimensionally stable (won't sag or stretch)
- High water resistance
- UV & mildew resistant

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 7.5 oz / sq yd
- 5 year warranty
- Please inquire for stocked colors

Applications:

Marine Tops & Covers, Gazebo Covers, Canopies, Tarps, Patio Furniture Covers, Playground Equipment Covers, Grill covers

Top Notch 1S may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite[®] Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Polyester Fabric

Properties:

100% solution dyed polyester fabric with a fluorocarbon finish, making it more breathable than other solution dyed polyesters, yet still water resistant.

- Stronger & more abrasion resistant than acrylics
- Exceptional colorfast
- Dimensionally stable (won't sag or stretch)
- UV & mildew resistant
- Luxurious hand

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 78" width available in some colors by special order *(full rolls)*
- 9 oz / sq yd
- 8 year limited warranty
- Please inquire for stocked colors

Applications:

Marine Tops, Trailer Covers, Sail Covers, Awnings, Gazebos, Canopies, Patio Furniture

Top Notch 9 may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite[®] Green water and stain repellent.

** Available in 78" width by special order (full rolls)

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Flame Retardant Polyester Fabric

Properties:

Flame retardant 100% woven polyester (600 denier) utilizing a proprietary process to coat the bottom.

- Superior fade resistance
- Excellent strength & durability
- Tear & abrasion resistant
- UV & mildew resistant
- Highly water repellent
- Puncture resistant

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 10 oz / sq yd
- 8 year limited warranty
- Please inquire for stocked colors

Applications:

Tents, Awnings, Canopies

Flame Resistance:

3rd party certified to pass California State Fire Marshall, NFPA 701, CPAI 84 & CAN/ULC

Top Notch FR may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100°F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite[®] Green water and stain repellent.

* Premium colors
Printed colors are approximate. See sample card for exact shade.

Acrylic Coated Polyester Fabric

Properties:

Acrylic coated 100% woven polyester fabric (300 denier) with a clear back coating, characterized by excellent strength, durability, tear and abrasion resistance.

- Lightweight means great value; long lasting durability without the cost of heavier fabrics
- Soft & pliable
- Dimensionally stable (won't sag or stretch)
- Highly water repellent
- UV & mildew resistant
- Best performing economy fabric available

Specifications:

- 64" wide x 75 yd rolls
(less yardage available with cut charge)
- 6.5 oz / sq yd
- 3 year warranty

Applications:

Marine Tops, Trailer Covers, Gazebos, Canopies, Tarps, Patio Furniture Covers, Grill Covers, Playground Equipment Covers, Stools, Cots, Luggage, Bags

Odyssey fabric may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100° F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite[®] Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Laminated Polyester Fabric

Properties:

Odyssey fabric laminated to special non-woven backing, providing the ultimate non-abrasive surface for those looking to cover and protect without damaging a painted, gel coated or other delicate underside surface.

- Weather protection on the top side
- Soft underside that won't scratch
- Dimensionally stable (won't sag or stretch)
- High abrasion resistance
- Highly water repellent
- Mildew resistant

Specifications:

- 60" wide x 50 yd rolls
(less yardage available with cut charge)
- 11 oz / sq yd
- 3 year warranty *(from original installation)*
- Please inquire for stocked colors

Applications:

Wooden Boat Covers, Aircraft & Car Covers, Cockpit & Motor Covers, Grill & Outdoor Kitchen Covers, GPS & Instrument Covers, Pool Table Covers, TV & Monitor Covers

Softouch fabric may be cleaned with a solution of 4 oz. of bleach and 2 oz. of mild soap mixed in 1 gallon of warm (100° F) water. Do not use detergents. Use a soft, bristled brush to lift soil embedded in the fabric surface. Rinse thoroughly with clear water to remove soil and soap residue. Water repellency may be reduced after thorough cleaning and drying. This can be improved by applying Aqua-Tite® Green water and stain repellent.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Polyester Fabric

WeatherMAX 80:

100% solution dyed SaturaMax polyester combines high strength and durability with superior long-term color consistency, light fastness and fade resistance.

- Lack of coating allows fabric to breathe (water vapor passes through, preventing mildew growth and heat build up)
- High water repellency
- Mildew resistant & 99% UV blockage
- Fabrication manual available

Specifications:

- 60" wide x 75 yd rolls
(less yardage available with cut charge)
- 80" width available in some colors by special order *(full rolls)*
- 8 oz / sq yd
- 10 year limited warranty

Applications:

Marine Covers, Awnings, other outdoor applications where strength and durability are main concerns

WeatherMAX may be cleaned with a 50% bleach/water mixture or spot washed with soapy solution of mild detergent and warm water. Rinse thoroughly with clean water to remove soap and allow to air dry.

* Premium colors

** Available in 80" width by special order (full rolls)

Printed colors are approximate. See sample card for exact shade.

Solution Dyed Polyester Fabric

WeatherMAX LT

100% solution dyed SaturaMax polyester combines high strength and durability with superior long-term color consistency, light fastness and fade resistance.

- Lack of coating allows fabric to breathe (water vapor passes through, preventing mildew growth and heat build up)
- High water repellency
- Mildew resistant & 99% UV blockage
- Fabrication manual available

Specifications:

- 60" wide x 100 yd rolls
(less yardage available with cut charge)
- 6.5 oz / sq yd
- 3 year limited warranty

Applications:

Covers, Cushions, Umbrellas, Shade Structures

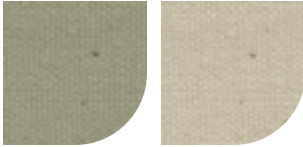

WeatherMAX may be cleaned with a 50% bleach/water mixture or spot washed with soapy solution of mild detergent and warm water. Rinse thoroughly with clean water to remove soap and allow to air dry.

* Premium colors

Printed colors are approximate. See sample card for exact shade.

Versatile Cover Fabric

PEARL
C1130

COLORLESS
C1134

Properties:

100% cotton versatile outdoor fabric.

- Marine finished & boat shrunk
- Water repellent & rot resistant
- Mildew resistant & breathable
- Easy to sew
- Flexible in cold temperatures

Specifications:

- 36" wide; roll sizes vary
(less yardage available with cut charge)
- 10.1 oz / sq yd

Applications:

Boat Covers, Campers, Car Covers,
Tents, Tarpaulins, Bags

Clean with soft brush and warm water. For tougher stains, use a diluted soap solution, but avoid cleaning chemicals as they will remove the protective finish.

Printed colors are approximate. See sample card for exact shade.

Vinyl Coated Polyester Fabric

Stamoid Light 4128

A high-tenacity dtex 280 polyester fabric with a durable PVC coating on one side.

- 100% waterproof
- UV & mildew resistant
- Exceptional colorfastness
- No deformation
- Stain-proof & easy upkeep

Specifications:

- 59" wide x 54.6 yd & 80" wide (W) x 32.8 yd (*less yardage available with cut charge*)
- 102" width (XW) available in some colors by special order (*full rolls*)
- 8.82 oz / sq yd
- 5 year warranty

Applications:

Rigging Protection, Console Covers, Seat Covers, Bar Covers

To clean Stamoid fabric, lay it out on a flat surface and dampen with clear water. Spray on a diluted non-aggressive liquid soap and leave for 2 or 3 minutes. Using a natural bristle brush, spread to the edges and rinse with clear water to remove the soapy solution. Repeat this process on the opposite side of the fabric. Hang up the fabric and leave until completely dry.

* Premium colors

** Available in 102" width by special order (*full rolls*)

† Available only in 102" width by special order (*full rolls*)

Printed colors are approximate. See sample card for exact shade.

Vinyl Coated Polyester Fabric

Stamoid Top 3933

A high-tenacity dtex 280 polyester fabric with a durable PVC coating on both sides.

- 100% waterproof
- UV & mildew resistant
- Exceptional colorfastness
- No deformation
- Stain-proof & easy upkeep

Specifications:

- 59" wide x 54.6 yd & 80" wide (W) x 32.8 yd (less yardage available with cut charge)
- 102" width (XW) available in some colors by special order (full rolls)
- 12.64 oz / sq yd
- 5 year warranty

Applications:

Sprayhoods, Bimini Tops, Cockpit Enclosures

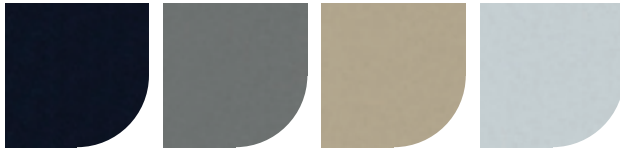

To clean Stamoid fabric, lay it out on a flat surface and dampen with clear water. Spray on a diluted non-aggressive liquid soap and leave for 2 or 3 minutes. Using a natural bristle brush, spread to the edges and rinse with clear water to remove the soapy solution. Repeat this process on the opposite side of the fabric. Hang up the fabric and leave until completely dry.

* Premium colors

** Available in 102" width by special order (full rolls)

Printed colors are approximate. See sample card for exact shade.

Stamoid Heavy Cover 4313

A high-tenacity dtex 1100 polyester fabric with a durable PVC coating on one side. Features the same noteworthy properties as Stamoid Light, but with added tear strength.

Specifications:

- 102" wide (XW) x 32.8 yd
(less yardage available with cut charge)
- 13.71 oz / sq yd
- 5 year warranty

Applications:

Winter Covers, Flybridge Covers, Tender Covers

Stamoid Open 4463

A high-tenacity dtex 1100 polyester fabric with a durable PVC coating on both sides. Features the same noteworthy properties as Stamoid Top, but with added tear strength.

Specifications:

- 102" wide (XW) x 32.8 yd
(less yardage available with cut charge)
- 19.2 oz / sq yd
- 5 year warranty

Applications:

Sprayhoods, Bimini Tops, Cockpit Enclosures

Properties:

Strong, flexible polyester with a vinyl coating that makes the fibers waterproof and able to withstand intense sun and harsh weather without fading, stretching or fraying.

- Vinyl & polyester composite
- Rain Kleen® on weather side
- High, lasting strength
- White tops reflect heat while pastel linings relieve glare
- Heat, cold & abrasion resistant
- Dimensional stability
- Waterproof & mildew resistant
- Compact storage wet or dry
- Corresponding binding available

Specifications:

- 62" wide x 50 yd rolls
(less yardage available with cut charge)
- 13 oz / sq yd
- 3 year limited warranty

Applications:

Lace-On Bridge Tops, Bimini Tops, Enclosure Borders & Curtains, Awnings, Sun Covers, Navy & Convertible Tops, Mooring & Protective Covers of All Types

Occasional hosing with clear water will prevent dirt accumulation. Can be cleaned with mild soap, water and a soft scrub brush. In extreme cases, apply a half strength bleach solution and brush softly to cover the necessary area. Let sit for two or three minutes, then thoroughly rinse with clear water.

Printed colors are approximate. See sample card for exact shade.

Properties:

High performance upholstery vinyl perfectly suited for the marine industry.

- Indoor / outdoor
- Anti-microbial
- Stain resistant & easy upkeep
- 100% polyester knit backing
- Abrasion resistant

Specifications:

- 54" wide x 40 yd rolls
(less yardage available with cut charge)
- 54" wide x 10-15 yd rolls (Roll N' Pleat)
(less yardage available with cut charge)
- 32 oz / linear yd

Applications:

Marine Seating, Furniture

Prompt cleaning is always recommended. Ordinary dirt and stains can be removed with mild soap and water. For more persistent stains use a 1:10 bleach solution. Seaquest will resist without serious discoloration, the repeated actions of normal dilutions of non-abrasive chlorine or ammonia-based cleaners. NOTE: Be sure to rinse the cleaned area with clean water and dry with a lint free cloth.

Properties:

Finish off upholstery projects with marine grade underlining.

- Breathable
- Mildew & rot resistant
- Dimensionally stable

Specifications:

- 54" wide x 75 yd rolls
(less yardage available with cut charge)
- 9 oz / sq yd

Applications:

Marine Cushion Underlining

To clean, remove excess dirt with mild soap and water. Rinse thoroughly to remove soap residue. Do not use harsh chemicals or solvents.

Printed colors are approximate. See sample card for exact shade.

Polyester Reinforced PVC

Properties:

Multipurpose polyester reinforced PVC designed to maintain color and appearance for many years!

- Extremely waterproof
- Acrylic lacquer for extended durability
- Fade resistant
- Mildew & fungus resistant
- Dimensionally stable
- Superior tensile & tear strength
- Digital & screen printable

Specifications:

- 61" wide x 50 yd rolls
(less yardage available with cut charge)
- 19 oz / sq yd
- 5 year limited warranty

Applications:

Fixed Awnings, Canopies, Stadium Wall Pads

Flame Resistance:

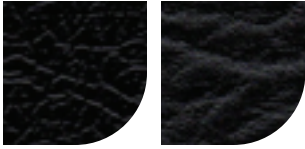

- CSFM
- NFPA-701
- ASTM E-84 (Class A)

Clean regularly by hosing with clear water in order to prevent dirt build up. If dirt has accumulated, remove with water, soap, and soft scrubbing brush. Be certain to rinse thoroughly. In more severe cases, a mild detergent can be used, allowing it to remain on the surface for several minutes and then rinsed thoroughly.

Tonneau-tex

Superior performance tonneau cover fabric available in elk and crush embossing.

- Weather & rot resistant
- Dimensionally stable
- High tensile & tear strength
- Abrasion resistant
- Excellent cleanability

Specifications:

- 78" wide x 50 yd rolls
(less yardage available with cut charge)
- 18 oz / sq yd

Applications:

Tonneau Covers

Evolution

Soft fabric made with four protective layers.

- Blocks 99% of UV rays
- Excellent breathability
- Strong but flexible
- Moisture resistant

Specifications:

- 55" wide x 30 yd rolls
(less yardage available with cut charge)
- 4.8 oz / sq yd
- 4 year limited warranty (exceptions apply)

Applications:

Car Covers, Marine Cover Lining

Clean fabric by mixing one ounce Simple Green cleaner per quart of warm water. Spray or sponge onto cover, rinse with plain water and air dry.

- 16 oz / sq yd; openness factor 7.5%

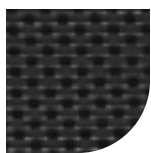

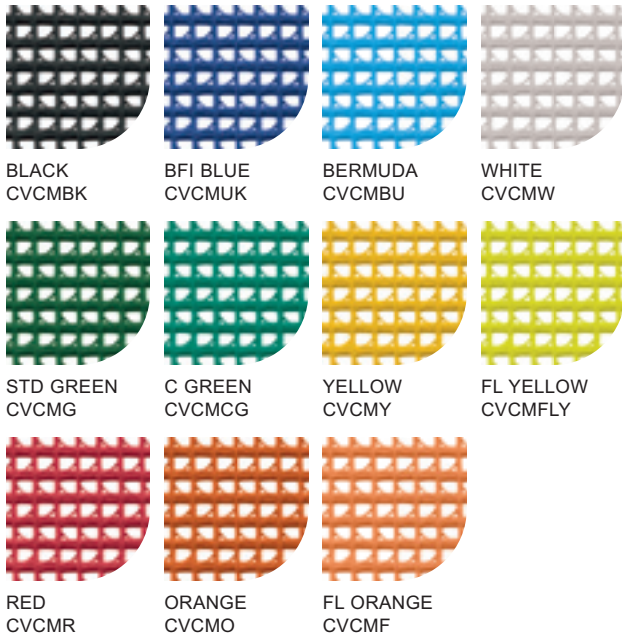

Flame Resistance (Standard & Plus):

- National Fire Protection Association, NFPA No. 101, "Life Safety Code", "Class A" rating (in accordance to ASTM E84-07, Surface Burning Characteristics of Building Material)
- California Technical Bulletin 117, Section E, Commercial Standard CS-191-53 (Class 1)
- Federal Motor Vehicles Safety Standards, Section 571.302, Standard No. 302 (FMVSS 302), Flammability of Interior Materials (December 15, 2006 Edition)

Clean fabric using a sponge or soft cloth dipped in a solution of 1 tablespoon liquid dish detergent plus 2 tablespoon household bleach in a gallon of water. Rinse thoroughly with clean water and air dry.

Printed colors are approximate. See sample card for exact shade.

VCM & Trampoline Fabric

BLACK
CTR62(74)(88)

VCM (Vinyl Coated Mesh)

Quality and proven performance makes VCM an industry favorite for a variety of applications.

- PVC dip-coated 9 x 9 1000 denier polyester twisted, weft inserted knit scrim
- Flexible & breathable
- Heat sealable
- High tensile strength
- Rot & tear resistant

Specifications:

- 62" wide x 100 yd rolls
(less yardage available with cut charge)
- 6.5 oz / sq yd
- FR available by special order *(full rolls)*

Applications:

Tennis Court Wind Screens & Backstops, Track Covers, Sporting Goods, Shade Cloth, Divider Curtains, Spa & Pool Covers, Safety Apparel, Underwater & Storage Bags

Trampoline Fabric

Made from 100% polypropylene, this fabric is ideal for trampolines on sailing dingies.

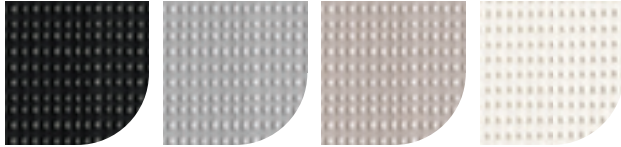

- 20 mil black basketweave
- Allows water to pass through
- Does not absorb moisture

Specifications:

- 62", 74", & 88" widths; roll sizes vary
- 8 oz / sq yd
- 155" & 165" widths available by special order *(full rolls)*

Printed colors are approximate. See sample card for exact shade.

- 11.2 oz / sq yd
- 5 year warranty

Applications:

Sunshades, Bimini Top & Dodger

To clean, spread the fabric out on a flat surface and dampen with clear water. Spray on a diluted solution of non-aggressive liquid soap and leave to act for 2 or 3 minutes. Using a natural bristle brush, brush out to the edges and rinse with clear water to remove the soapy solution. Repeat this process on the opposite side of the fabric. Hang up the fabric and leave until completely dry.

Printed colors are approximate. See sample card for exact shade.

Clear Polycarbonate Sheets

Properties:

Tuffak® (formerly Makrolon) polycarbonate sheets provide clear, unobstructed views with little to no distortion. Polycarbonate can survive the harshest of environments, retaining its clean, crisp appearance for many years.

- Optically clear
- Smooth glass-like & wrinkle free surface
- Sewable
- Low shrink rate

Tuffak® Marine 5:

- 60 mil, 50" x 110" sheets (ID: YFPCM5)
- Best quality
- Abrasion resistant
- 20" bend radius
- 80 mil thickness available by special order
- 5 year limited warranty

Tuffak® AR:

- 60 mil, 48" x 96" sheets (ID: YFPC60)
- Better quality
- Abrasion resistant AR2 coating
- Limited bendability

Tuffak® VR:

- 40 mil, 52" x 110" sheets (ID: YFPCVR)
- Good quality
- Rollable / 4" bend radius
- 5 year limited warranty

Tuffak products can be cleaned with over-the-counter dishwashing liquids such as Joy® or Palmolive® soaps. Rinse thoroughly with clean water to remove all traces of cleaning products. To prevent water spots, thoroughly dry the product with a dry microfiber cloth or chamois. Use only neutral-pH cleaners or those specified to be compatible with Tuffak products – harsh detergents may cause damage!

O'Sea

O'Sea is a premium vinyl pressed polished sheet engineered for superb optical clarity and durability. With a high degree of scratch resistance, UV durability, flexibility, and stain resistance, O'Sea is designed for marine windows, canvas enclosures and tents.

PART	DESCRIPTION	COLOR	THICKNESS	SIZE	QTY	ORDER
YOSEA30	O'Sea	Clear	30 mil	54" x 110"	5	Sheets
YOSEA40	O'Sea	Clear	40 mil	54" x 110"	5	Sheets

Regalite

From the makers of O'Sea, Regalite is a vinyl pressed polished sheet designed to meet the same high clarity and durability standards as O'Sea, but at a more economical price. While Regalite does not have a scratch resistant coating, it offers superior UV resistance to prevent yellowing and cracking over time. Regalite is engineered for use in marine windows, canvas enclosures, billboards, and exterior signage.

PART	DESCRIPTION	COLOR	THICKNESS	SIZE	QTY	ORDER
YFS2	Regalite	Clear	20 mil	29" x 68"	60	Sheets

* Unable to ship UPS due to weight.

Strataglass

Premium, flexible vinyl sheet engineered to resist the damaging effects from the sun's rays and scratching from handling. A unique coating prevents fine lines caused by washing, drying, rolling and abrasion from roll-up straps. The coating blocks these elements from etching the surface of the vinyl allowing windows to remain clearer longer, so you won't need to replace curtains as often. Larger sheets make it less expensive per foot.

PART	DESCRIPTION	COLOR	THICKNESS	SIZE	QTY	ORDER
YFG30	Stataglass	Clear	30 mil	54" x 111"	5	Sheets
YFG	Stataglass	Clear	40 mil	54" x 111"	5	Sheets

Tubular Polyester Webbing

Extra-strong tubular webbing with black tracer stripe available in three convenient sizes. The soft-spun tubular polyester is not as strong as our regular tubular polyester, but its soft finish makes it great for sail ties and many canvas projects. This webbing is so soft it can be used as binding.

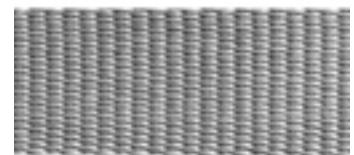

PART	DESCRIPTION	COLOR	WIDTH	ABS	YD/ROLL	ORDER
YWTP2	Tubular Webbing	White	1/2"	1,133 lb	100	Rolls

YWTP9	Tubular Webbing	Soft White	1 1/8"	1,370 lb	50	Rolls

Kevlar® Webbing

Tightly woven Kevlar® webbing provides strength and durability for demanding racing applications. This Aramid webbing has lower creep under constant load than Spectra® / Dyneema® based webbing.

PART	DESCRIPTION	WIDTH	ABS	YD/ROLL	ORDER
YWK	Kevlar Webbing	1"	4,500 lb	25	Rolls

Spectra® / Dyneema® UHMWPE Webbing

The ultimate in strength, UV and abrasion resistance, Spectra® or Dyneema® (also known as UHMWPE for Ultra High Molecular Weight Polyethylene) webbing is perfect for the most demanding applications in racing or offshore sailing. All weights are woven from Spectra® or Dyneema® UHMWPE fibers in both warp and fill. Light weights feature a blue tracer line near selvages.

SunStop® UV Filament Polyester Thread by American & Efird

A high performance twisted multifilament polyester sewing thread featuring advanced UV protection, which reduces strength degradation and fading. Nonwicking treatment helps reduce moisture leakage through seams. SunStop has superior sewability and is matched to industry standard colors, making it the perfect choice for any marine and awning application. Colors are formulated to match the most popular acrylic and solution dyed polyester marine fabrics.

Tenara PTFE Thread

Manufactured from 100% PTFE fiber, commonly known as Teflon®, this unique thread is easier to sew and will not rot or mildew. It is also unaffected by UV, salt water, acid rain, industrial pollutants or cleaning agents, and is backed by a lifetime warranty. “TR” style Tenara, is the second generation with better elongation and is lubricated to aid in high-speed sewing. The original Tenara without lubrication is available by special order, please inquire.

Groz-Beckert MR Sewing Machine Needles

Challenge is pleased to be a distributor to sailmakers and canvas fabricators for Groz-Beckert MR Sewing Machine Needles. Those who have used MR's have preferred them over conventional needles when sewing Dacron, Kevlar, Mylar, Canvas materials or even Nylon for the following reasons:

- **Less needle breakage:** Buckling strength is increased by 90% on average.
- **Skipping is reduced:** Clearance above the eye is longer and deeper; the needle groove is continued at full depth all the way to the eye, protecting the thread from pinching and thus permitting a better loop formation. The needle is also stiffer, reducing fluttering and providing for better loop seizure.
- **Decreased needle inventory:** Simplified needle ordering through interchangeability of various sizes and types of needles.
- **Improved seam appearance:** Smaller diameter needle can replace a larger ordinary needle, making penetrations that are less visible.

DESIGN FEATURES

- A: Same crosssection in both the blade and CAE area increases buckling strength by an average of 90%.
- B: Longer and deeper CAE creates more free space for the hook point to pick up a thread loop.
- C: Deep thread groove continued to eye area offers better thread protection and improves thread handling.

Conventional Sizes Replaced by MR

W. Smith & Son Reduced Edge Sailmakers' Needles

These hand-sewing needles are made by hand to highest quality standards. Their unique tri-angular shaped reduced edge helps the needle cut it's way through the fabric with ease while the special rounded thread eye is designed not to cut the twine.

PART	DESCRIPTION	SIZE	LENGTH	QTY/PKG	ORDER
TNE12	Reduced Edge Needle	#12	3 1/4"	25	Pkg

Sail Repair Kit

The perfect start to any sail or canvas repair kit. Kit features a basic palm, assortment of five needles, and spool of round pre-waxed twine.

PART	DESCRIPTION	ORDER
TRK	Sewing Palm, Assorted Needles, Thread	Set

Sailmakers' Palms

High quality handcrafted palms. Seaming palms feature a fine thimble pattern for small to medium sized needles. Roping palms feature a large thimble pattern for medium to large needles and raised leather band around the thumb hole to wrap thread around for pulling and tensioning. Adjustable palms are lighter duty featuring a seaming thimble and semi-raised thumb hole which can be used for roping in a pinch. Best quality palms are professional grade and will last a lifetime. Adjustable palms are inexpensive yet fully fuctional.

Swivel Pole Base

Support pole base swivels and locks in place. Made from overmolded rubber for soft grip. Attaches to telescoping adjustable cover poles.

PART	DESCRIPTION	MATERIAL	QTY/PKG	ORDER
FSPB	Swivel Pole Base	Rubber	10	Each

Vico Boat Vents

Vico Boat Vents prolong the life of your boat's upholstery by venting the enclosed space of warm, moist air. Boat Vent 2 helps prevent mold, mildew, and bacteria from growing under your cover, and causing irreversible damage to your boat's interior. Boat Vent 3 features improvements over Boat Vent 2 including 40% more venting, overhanging top to allow in less moisture, 30 teeth on the washer for a better grip and ergonomic reversible nut for easy installation. Boat Vents pair perfectly with telescoping adjustable cover poles.

PART	DESCRIPTION	MATERIAL	QTY/PKG	ORDER
FBV2	Vico Boat Vent 2	Plastic	10	Each
FBV3	Vico Boat Vent 3	Plastic	10	Each

Vico Boat Vent AERO

Vico Boat Vent AERO is the perfect sew-in vent solution where tenting with Boat Vent 2 or 3 is not an option. The louver front can be used to help prevent bees or rodents from entering the cover or for extra protection from heavy rain. For maximum venting, or to use with the traditional cone look, Boat Vent AERO can be installed without the front.

PART	DESCRIPTION	MATERIAL	COLOR	QTY/PKG	ORDER

YKK® SNAD® (SNap ADhesively Attached) Fasteners

A revolutionary way to secure canvas, cushions, carpeting, covers to any hard substrate. SNADs use a pad of 3M's VHB acrylic foam adhesive that enables application of snap studs or sockets without having to drill holes! VHB adhesive has 20 years of use in marine and other extreme environments and produces an extremely strong bond to any smooth substrate like gelcoat, varnished wood, painted metals, polished metals, annodized aluminum, etc. Will not deteriorate from exposure to sunlight, sand or grit. Choose from a 40 mm diameter for attachment to flat surfaces or a 25 mm with silicone rubber flexible base for attachment to round surfaces.

Mundial Shears – Finest Quality, All-Knife Edge

Challenge is proud to carry a large assortment of Mundial Industrial Forged Shears. Many of these industrial-quality shears feature Mundial's Stay-Set pivot assembly, which is uniquely engineered to allow the ride to be adjusted to fit one's own ergonomic needs. Once it's set, it stays set... for comfortable cutting power on the heaviest of sailcloth, laminates or canvas. All of these hot drop-forged shears are fully nickel plated and then ground to an extremely sharp knife-edge angle. This, combined with durable black enameled handles, make Mundial shears the best choice for use in the demanding sailmaking and canvas fabrication industries.

Weller Hot Knife Handle

This popular hot knife features a red handle with black grip. Choose from a variety of tip options listed below.

PART	DESCRIPTION	SIZE	ORDER
THKUHA	Hot Knife Handle*	One Size	Each

* Hot knife tip not included, see below.

Weller Hot Knife Heating Element

A good choice for high use applications where tips must remain sharp. Dull tips are easily replaced with THKU100 to keep your work on point.

PART	DESCRIPTION	SIZE	ORDER
THKUHP	HP Heating Element	#37	Each

Please Note: The heating element in Ungar Hot Knife equipment is replaceable, consumable and fragile (like a light bulb it will burn out if dropped or subjected to shock), therefore, they are not generally warranted by the manufacturer beyond initial operation.

Weller Hot Knife Tips

Pick the right tip for the job – Nyla-cut tips integrate heating element and flat blade tip in one unit. Basting tips offer very detailed control for cutting more elaborate designs. Bronze tips are a great option when tips must be replaced often to maintain sharpness.

PART	DESCRIPTION	SIZE	ORDER
THKUN	Nyla Cut Tip (Complete)	#65	Each
THKUB	Basting Tip (Complete)	#33	Each
THKU100	Bronze Tip	#100	Each

Hot Knife Heat Control Units

Unit adjusts heat level of hot tools in order to prolong life of tips.

PART	DESCRIPTION	SIZE	ORDER
THKC	Hot Knife Heat Control Unit	One Size	Each

PUV43	UV Coated Polyester Tape	4.5 oz	3"	White	Yards
PUV44	UV Coated Polyester Tape	4.5 oz	4"	White	Yards

IMAR Clear Vinyl Cleaner & Polish

The only cleaning and polishing products endorsed by Strataglass. The cleaner is safe to use daily to avoid age induced brittleness and to protect the scratch resistant coating. The polish cleans and restores Strataglass to like-new clarity, and can be used before the cleaner. These products work equally as well on any clear vinyl product that Challenge carries.

PART	DESCRIPTION	VOLUME	CONTAINER	CASE	ORDER
LSTRATC	Strataglass Cleaner	16 oz	Spray	12	Each
LSTRATC1	Strataglass Cleaner	1 gal	Gallon	4	Each
LSTRATP	Strataglass Polish	16 oz	Spray	12	Each

303® Marine & Recreation Multi-Surface Cleaner™

The perfect cleaning solution for awnings, boat covers, bimini tops, sailcloth, vinyl and more! This product can be used on all “marine safe” surfaces and contains no harsh chemicals; caustics or acids.

PART	DESCRIPTION	VOLUME	CONTAINER	CASE	ORDER
L303MSC4	303 Multi-Surface Cleaner	32 oz	Spray	6	Each
L303MSC1	303 Multi-Surface Cleaner	1 gal	Gallon	4	Each

Aqua-Tite® Green

Reformulated to meet all known VOC requirements. It retains the premium, water-repellency and stain protection of the old Aqua-Tite, but now is the most environmentally friendly product available. Can be used on cotton and synthetic fabrics and also flame resistant fabrics without affecting properties. May impart a slightly darker, richer tone on some lighter color fabrics.

PART	DESCRIPTION	VOLUME	CONTAINER	COVERAGE	ORDER
LAQUA4	Aqua-Tite	1 qt	Spray	125 – 175 sq ft	Each
LAQUA1	Aqua-Tite	1 gal	Jug	500 – 700 sq ft	Each

AquaBlock

Developed to protect and extend the life of marine fabrics including acrylics, nylon, cotton, canvas, polyester, vinyl and leather. Helps prevent damage from moisture, mildew, oil and grease, bird droppings and airborne pollutants.

PART	DESCRIPTION	VOLUME	CONTAINER	ORDER
LMCT90-22	AquaBlock	22 oz	Spray	Each

BioShield AM 500™

Molecularly bonds to the surface of sails and prevents the growth and micro-organisms that cause mold, mildew, stains and odors. Can be used on most canvas, vinyl, plastic upholstery fabrics and indoor/outdoor carpet.

PART	DESCRIPTION	VOLUME	CONTAINER	ORDER
LAM500	BioShield AM 500	1 gal	Bottle	Each

CS-530 Mildew Cleaner

Dry powder chemical formula designed for mildew and algae stains. Especially for laminates with mildew stain under the taffeta. Safe and effective for all types of sail material, including dacron, nylon, kevlar, acrylics and colored sails. Avoid using on leather and leather trim.
