Click me for credit ratings agencies information in Canada in case you wanted to contact your credit agency and ask them how you can make sure that your credit data is even more secure (credit agencies in the US have been hacked recently).

Your country’s government insures money in the bank up to CAD100,000 Canadian dollars and you can click on me to go to the Canada Deposit Insurance Corporation website.

Please only complete the white boxes below (after watching the first lecture in the course). Thanks

Please select your country:

Please select your currency:

Please type ONLY your first name or your nickname here:

* Why? Because I want to personalize the course, so it’s more fun for you! : )

Optional Canadian dollars** foreign exchange rate setting (please select your currency in cell E13)

If you are not using US dollars for currency, then if you want, please update the current FX rate for your currency in the white box on the right if it is not accurate by clicking on me in order to get the most recent currency rate for Canadian dollars.

Please express the exchange rate in terms of how many units of your currency is required to buy 1 US dollar.

What is entered in the white box above means that it costs 1.287 Canadian dollars to buy 1 US dollar. If this is incorrect, please change the value in the white box above by typing the right value. Please click on the hyperlink above in order to find out what the latest Canadian dollars to US dollar exchange rate is if you want to change what is in the white box above. Thanks

**Click me to get your exchange rate only if your currency is not available in cell E13
