

## SIMPLY STABLE

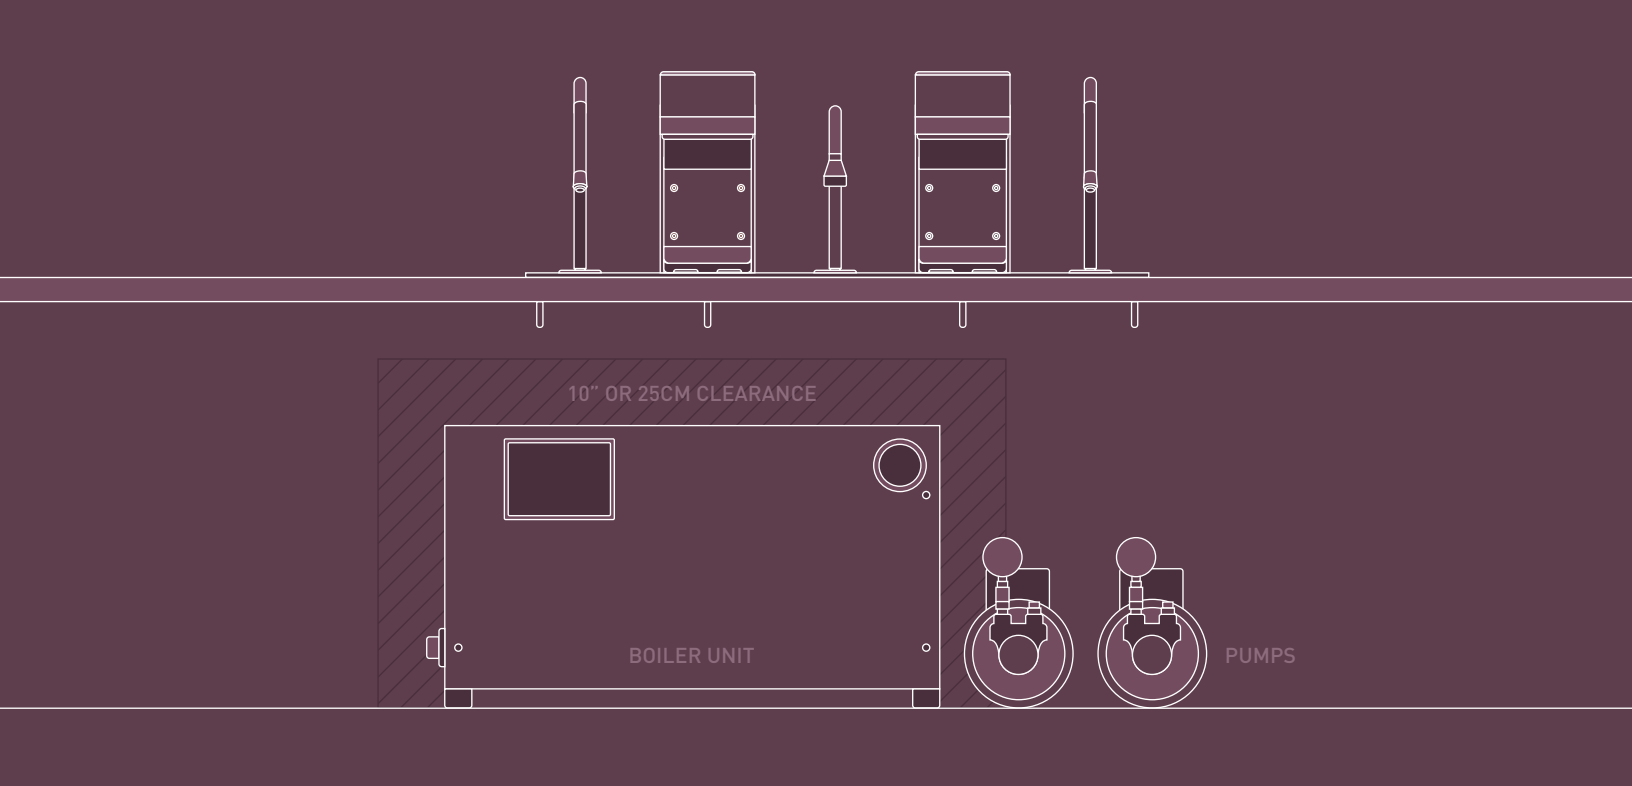

**WE DESIGNED THIS MACHINE TO MEET AND EXCEED THE TIRELESS DEMANDS OF TODAY'S ESPRESSO BAR OPERATORS WHILE MAINTAINING STRICT TEMPERATURE STABILITY.**

Stainless steel brew groups have a built in 200 watt heater assisting with temperature stability.

Individual pumps for each brew group allow for uninterrupted brewing pressure and individual group brewing pressures.

The 11 liter steam boiler is dedicated to producing a large volume of steam pressure while also preheating the brew group water plus individual 500ml brew boiler per group.

Our patented heated transfer system is used on our steam lines to remove condensation and provided endless dry steam.

# DIMENSIONS

## Interface Dimensions

28" / 71cm L x 14" / 35.5cm D x 9" / 23cm H

## Boiler Unit Dimensions

24" / 61cm L x 18" / 46cm D x 13" / 33cm H

## Pump Unit Dimensions

5" / 13cm L x 11" / 28cm D x 8" / 20cm H

# SPECIFICATIONS

Power: Single phase 240 volt

30 amps

11 Liter copper boiler 4000W

2 x 1 liter 316 Stainless steel boiler 500w

2 x group head heating element 200w
