

Mastering The Siddhis

Twenty-seven centuries ago, Patanjali, the great Seer (maharishi), cognized his masterpiece, The Yoga Sutras.

A *siddhi* is an extraordinary human power, a rare capability to interact with the laws of nature to manifest desires. A siddhi awakens the power to engage the laws of nature in order to live in accord with them from within one's deep level of bliss consciousness.

Through mastering the siddhis, we master the mechanics by which the conscious Unified Field creates the laws of nature that uphold evolution. In this fresh approach to learning the siddhis, complete intellectual understanding will go hand in hand with the practice of the techniques of Maharishi Patanjali.

Once mastered, the siddhis are considered to be the most powerful and advanced technique in a meditator's repertoire.

Prerequisites: Thom designed this course exclusively for the Advanced Vedic Meditator. The prerequisite for *Mastering the Siddhis* is completion of instalments 1-6 of Exploring the Veda OR completion of the equivalent ETV instalment prior to the MTS instalment.

The *Mastering the Siddhis* course is taught in six instalments. Each of the first five instalments consists of approximately seven and a half hours of training and comprises a series of recorded instructions and lectures by Thom Knoles.

Each of the instalments will give you a new practice with enormous lifelong benefit and can be enjoyed without the necessity to complete all 6 instalments. The course must be completed in sequential order as one instalment leads naturally into the next.

\$1,100 per instalment (for instalments 1 to 5).
