

Eremophila glabra prostrate (Emu bush) 30/40mm ht. X 2.5m spread, silver foliage, yellow/gold tubular blossoms

Dianella caerulea 'Cassa Blue' 50mm ht. X 40mm spread, blue strappy (sedge like) foliage, masses of small purple and yellow blossoms

Anigozanthus flavidus (Kangaroo Paw) - pick a medium height one to keep within local government height requirements, yellow blossoms would go well with the Emu bush and the *Dianella* to create a sunny coastal verge

Coastal verge

scale: 1:50
