Student Video Contest Activity Sheet

Let's brainstorm! Write and/or draw the economic advice you would give to your local town/city Mayor.

For example: Create more sidewalks and bike lanes for our town. This will increase property value and those that bike or walk in visit shops more often and spend more in a month than drivers. This will support our businesses, and it's great for our health and environment!

______________________________________________________________________________________________

Write a script

______________________________________________________________________________________________
______________________________________________________________________________________________
______________________________________________________________________________________________
______________________________________________________________________________________________

Ask your teacher, friend or parent to record you, using your mobile device. After it's done, have your teacher submit the video on your behalf.

Be creative and have fun with it!
