

St. Thomas TRANSPORTATION

TRANSPORTATION PROVIDERS

Many entities own and manage USVI transportation infrastructure:

- Department of Public Works (DPW) maintains public roads.
- Virgin Islands Port Authority (VIPA) owns and maintains the two airports and nearly all public seaports and harbors, including 12 cargo and ferry ports and two cruise ports.
- Virgin Islands Transit (VITRAN), as part of DPW, provides seven bus routes on St. Thomas.
- Ferries provide linkages to other islands in the Caribbean.

Cruise ships bring 1-2 million tourists to the USVI each year (prior to the COVID-19 pandemic).

Most products, including most food and building materials, enter the USVI via cargo ship.
