

Home away from Home

CCI and Foundation S

Presentation of the initiative and Q&A

11 . 02 . 2023

agenda

Intro & Context

Presentation of the "Home Away From Home" initiative

Criteria for selection

Assessment & selection process

Overview of the application form

Q&A

Context

A risk of treatment abandonment

Some families face difficulties to follow the treatment because of:

Transportation & long distance

Expenses

Psychological & emotional stress

CCI and Foundation S collaborate to reduce inequality and ensuring that every child with cancer has an equal chance of survival through this initiative:

“Home Away From Home”

Worldwide **400,000** children under 15 years old face a cancer diagnosis, every year

“Home away from Home”

Taskforce - CCI leads the request for proposals with the support of Foundation S

Objectives -

- Decrease treatment abandonment of children and adolescents with cancer
- Support organizations in providing a second home for the patients and the caregivers in 5 ways:

1

Build a new home

2

Expand an existing parent house

3

Rent a parent house

4

Cover operating expenses for a set period of time

5

Improve an existing parent house

Scope - FOR Low- and Middle-incomes countries

Proposals submission deadline - January 5th, 2024 (midnight Amsterdam-Paris time)

Criteria for selection

Scope

The project must be **for a LMIC**

Members of CCI

In operation from a **minimum of one year** and demonstration of commitment and ability to support children and adolescent with cancer

Localization

The home shall **not be more than 25 kilometres / 16 miles** from the relevant healthcare service

Project

Share a **description** of the project to explain what makes an accommodation facility a home away from home

Funds

Funds requested should be between **25,000 € to €250,000**

Business Plan

Include a robust **business plan** with the home's sustainability for a minimum of 3 years

Funding

Minimum of 30% of income of the housing come from **other donors**

Plan of action

Explain **how** the organization will **help** children and adolescents with cancer

Assessment & Selection process

We will consider the following metrics to measure the impact of the project:

- **Immediate outcomes**

- Number of beneficiaries served
- Number of bed nights provided
- Number of meals provided
- Number of transport trips provided
- Number of beneficiaries from other services provided

- **Intermediate outcomes**

- For Beneficiaries (providing essential accommodation needs, feeling at home, change in their thinking toward treatment, ...)
- Treatment team (difference notable in the abandonment rates, improvement of the physical and mental health of children, improvement of the nutrition status, facilitation of the treatment)

Proposals will be evaluated with a scoring on the 6 following criteria categories :

Beneficiary Engagement

Applicants consider input from the beneficiaries that will be empowered/involved in the decision taking

Finance & Sustainability

The proposal includes a suitable project, a tracker, a fundraising plan ...

1

Understanding

Applicants understand what is required to make accommodation facility a suitable Home Away from Home

2

Need

An Unmet accommodation need is addressed

3

Metrics & Impact

The proposal includes a plan of actions and has the capacity to impact a significant number of beneficiaries. The project also has deliverables to measure the outcome

4

5

Inequity

The project address disparities of access to treatment and care experienced by poorer and/or minority groups

6
