About us
Privacy Salon is a non-profit organization that aims to critically inform the broader public, policymakers and industry in Belgium and Europe about privacy, data protection and other social and ethical issues raised with introducing new technologies in society. We co-organise the annual Computers, Privacy and Data Protection conference (CPDP).

About Privacytopia
Privacytopia is a NOMADIC arts festival, traveling to a new European city each year. It is a celebration of privacy, with a holistic view on the future we share with a digital world. Through the filter of the artist’s gaze, we research the sense and non-sense of the digital age. Data usage is handy, it’s all around us and it doesn’t go away. It helps many of us to find what they are looking for: friends, jobs, a location, an identity, transport, a hotel... It is an extension of our brain, it helps us with keeping healthy or pay for coffee, cloths, or food.
