**Q2. To what extent would you support or oppose each of the following policies?**  
**Summary**

**Base: All respondents**

		Replace the current European system of human rights laws applied in Britain with new British laws that protect rights like free speech but enable the Gov. to promptly deport illegal migrants	Reform Equality Laws passed in the mid-2000s with a new system designed to ensure that activist groups are not able to use the law to promote their political agenda	Stop students who fail their A-levels from getting taxpayer-funded loans to attend university - loans they are unlikely to repay - and use the money instead to fund apprenticeships and training	Cut tax rates by introducing tax breaks for families, small businesses, and entrepreneurs	Halve the number of visas awarded to migrant workers, foreign students, and their families	Introduce a legal right for parents to see the Sex Education materials that their children are taught	Prevent schools from allowing children to 'change gender' and be treated as the opposite sex and use opposite-sex facilities at school
