Updated July 17, 2015

Program

The technical operations of the “MLTS Website”, by the “MLTS Website Technical Team”, and the management of its content management program, by the “MLTS Website Partner Content Team”, will be coordinated by the “MLTS Webmaster”, to be designated by the Consultant and who will serve as the project lead, using protocols documented, updated and maintained by the Consultant in the “MLTS Website Handbook”.

   c. Email nicolemontano@mltpa.org
   d. Telephone Contact: 760-709-0694

Content Management System (CMS) and Backend Access

The Town and the Consultant mutually agree that in the interests of the fundamental security, technical integrity, and reliability of the content of the MLTS Website, an efficient and accountable program must be maintained for the granting of access to the MLTS Website Content Management System (CMS) as well as to Backend Access to the MLTS Website, including administrative access to the hosting service for the MLTS Website, which is currently provided by Webfaction. To this end, the Town identifies its single authorized holder of “Superuser” and Backend Access status to the MLTS Website:

1. Town of Mammoth Lakes “Superuser” and Backend access Contact.
   a. Name: (to be assigned)
   b. Position: (to be assigned)
   c. Email Address (to be assigned)
   d. Telephone Contact (to be assigned)

Upon execution of this agreement, the Town’s single authorized holder of “Superuser” and Backend Access status shall assign to the Consultant’s designated Webmaster “Superuser” and Backend access to the MLTS Website including administrative access to the hosting service for the MLTS Website, currently Webfaction. The Town’s authorized Contact and the MLTS Webmaster shall agree on a program to maintain reliable communications, including communications outside of regular business hours, in order to maintain the security, technical integrity, and reliability of the content of the MLTS Website. Consultant acknowledges that “Superuser” status and/or Backend Access to the MLTS Website may be withheld by the Town at any time. However, should the Consultant’s designated Webmaster be denied access to “Superuser” status and/or Backend Access to the MLTS Website without reasonable notice and rationale, the provisions of the Contingency program of this agreement shall be initiated. Should the situation not be resolved within 72 hours, this agreement may be terminated by the Consultant for cause.
Webmaster – Content Management System (CMS) and Permissions Management

Once “Superuser” access has been assigned to the MLTS Webmaster, the MLTS Webmaster is responsible for the assigning of all access and appropriate levels of permission to the MLTS Website CMS including denying access or terminating access to users. In no event shall the MLTS Webmaster deny the Town its “Superuser” or Backend Access. The MLTS Webmaster shall maintain and keep current an “off-line” inventory of all users with access to the MLTS Website CMS and Backend Access, which shall be available to the Town at the Town’s request.

Webmaster – Maintenance of Technical Integrity of mammothtrails.org Web Platform

Through the assignment of access and appropriate levels of permission to the MLTS Website CMS and Backend, including denying access or terminating access to users, the MLTS Webmaster is responsible for the technical integrity of the MLTS Website. All requests for access to the MLTS Website CMS or Backend for the purposes of security management, general maintenance, software and hardware updating, 3rd party platform integration, content updating including the review of draft content for approval by partner agencies, or any other requests for access that may effect the technical integrity of the MLTS Website, must be approved the MLTS Webmaster.

- Traffic to the MLTS Website exceeds capacity of the web host and crashes the Website. Extra bandwidth and server administration is required immediately.
- A catastrophic web hosting failure necessitates the installation of a full backup of the MLTS Website on an alternative webhost/data center.
- A member of the MLTS Website Technical Team is unable to perform to expectations necessitating alternative solutions to immediate needs.
- Unanticipated changes are needed to MLTS Website content or functionality in response to public safety needs or to fast moving changes in the technological environment that are beyond the control of the MLTS Webmaster or the MLTS Website Technical Team.
- Any unforeseen, unanticipated or technical failure of the MLTS Website for which there is no readily available or discernable explanation.
In order to maintain the capacity to implement viable solutions for unforeseen circumstances which may affect the reliable operations of the MLTS Website, and to maintain the capacity to implement technical and user interface needs of the MLTS Website that may arise from time to time, the Consultant may maintain time and material consulting agreements with third parties "SparkGeo" of Prince George, British Columbia, Canada, and "HoldFast Creative" of Denver, Colorado. The Town and Consultant acknowledge the following in regards to contingency efforts:

1. Funds for non-emergency contingency tasks will be considered, and may be approved, by the Town Manager or his/her designee based upon budget and scope recommendations of the MLTS Webmaster. These tasks will be considered as "Extra Work" per section 3.3.4 to this agreement.

2. In the event of a failure of the website or the existence of a condition which Consultant believes requires "Extra Work," Consultant shall communicate the failure or condition to the Town Manager (or his or her designee) in writing, along with a proposed course of action to remedy the failure or condition and a cost estimate for doing so.

3. Provided that the Town Manager or his or her designee has approved the work and costs in advance and in writing, Consultant will be reimbursed for the costs of resolving a failure or other condition as described in paragraph 2 above.

4. Should the Consultant encounter a catastrophic situation wherein the website is incapacitated or is delivering misleading and/or potentially harmful information to the public and the catastrophic situation requires extraordinary efforts including either 1) immediately addressing the cause of the catastrophic situation using available resources including posting to the mammothtrails.org web address a placeholder page advising that the "MLTS Website is currently not available" and 2) the identified contacts for the Town are not responsive per the communication protocols as established through this agreement within one (1) hour of the identification of a catastrophic situation, then the Consultant shall be empowered to take prudent and reasonable corrective actions at a cost not to exceed $2,500 until communication can be re-established with a representative of the Town who will provide direction on any further corrective actions and will review consultants request for "Extra Work" as required and as detailed in this agreement.
