

VERISCOPE ESG INTELLIGENCE

THE FOOD INDUSTRY'S MUST-HAVE ESG INSIGHT AND BUSINESS INTELLIGENCE FROM THE TEAM AT VERIS STRATEGIES.

Expert insights to help you navigate and make sense of the big conversations on People, Planet and Performance. An always-on Futures Engine for your business, supercharge your business strategy with our unique Veris insight lens.

We identify critical themes across multiple channels, interpreting and distilling hundreds of insight points, to give you clarity and confidence. Everything is distilled through our Veris insight lens to guide ambition and action, clearly indicating whether you need to **Act Now**, **Watch Closely**, use to **Inform Strategy** or be mindful of **Future Signals**.

Our forward-looking insight is designed to equip you and your team with the insights and strategic thinking required to navigate the compelling issues of today for the future, instigate debate, challenge thinking and generate opportunities to uncover new areas for growth.

Our Veris insight lens includes:

ACT NOW

Action stations. Be ready to lead.

WATCH CLOSELY

You may need to formulate a plan within 6 months.

INFORM STRATEGY

Build into plans for 12-24 months.

FUTURE SIGNALS

Issues to be aware of just over the horizon.

“

Veris' unique lens outlining actions needed now alongside future foresight, means we know our sustainability and climate focus as a team can remain agile, informed and relevant.
