

Endocalyx PRO

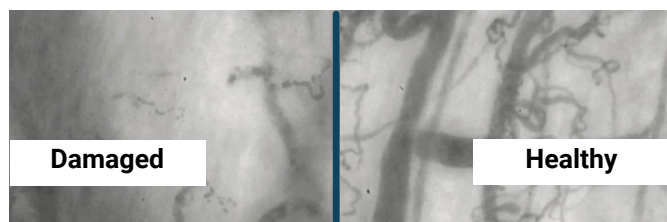

VASCULAR HEALTH

RESTORE. REJUVENATE. PROTECT.

Endocalyx Pro helps achieve optimal health through restoring, rejuvenating, and protecting a healthy microvascular system.* As the only proprietary, patented anti-aging supplement, Endocalyx PRO, has been clinically shown to maintain the thin, delicate lining of blood vessels called the glycocalyx.*

*Aging, diet, lack of exercise, sleep deprivation, and lifestyle choices can cause the glycocalyx to become damaged.**

99% of the microvascular system is made up of capillaries which depend on the glycocalyx. The glycocalyx optimizes capillaries to exchange nutrients and oxygen to all organs in the body to help remove waste.

Patented Formulation with Three Class Compounds

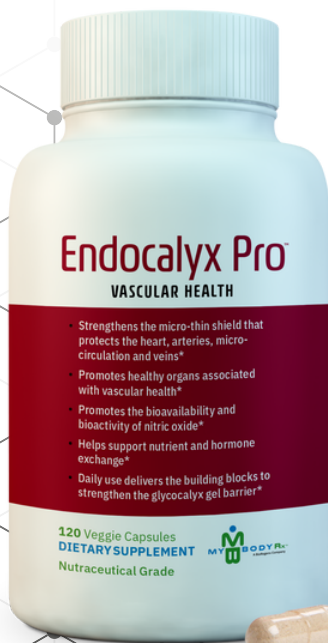

RESTORE: Polysaccharides repair glycocalyx damage of the arteries, veins and capillaries.*

REJUVENATE: Amino sugars provide the anti-aging building blocks needed for a strong and vital glycocalyx, strengthening its micro-thin shield that protects the heart, arteries, microcirculation, and veins.*

PROTECT: Antioxidants promote healthy organs associated with vascular health, including the heart, brain, kidneys, lung, muscle, skin, and eyes.*

FACT:

Endocalyx PRO is made from seven natural ingredients sourced from healthy regions around the world and contain the same compound that makeup and protect the structure of the glycocalyx.

Recommended use: Take 4 capsules per day, with or without food. If possible, take 2 capsules in the morning, and 2 capsules in the afternoon or evening.

Supplement Facts

Serving size: 4 capsules
Servings per container: 30

	Amount Per Serving	% Daily Value
Proprietary Blend	2,475 mg	**
