

# FIRST WOMAN

## CAMP GUIDE

As NASA prepares to put the first woman on the Moon in the next few years through the Artemis Missions, join us in an opportunity to imagine the possibilities of future lunar exploration with your upper elementary and middle school students.

This set of hands-on activities accompanies NASA's "First Woman" graphic novel series, which tells the story of Callie Rodriguez, the first woman to explore the Moon. While Callie is a fictional character, the first female astronaut and person of color will soon set foot on the Moon. Intended for use in afterschool and summer settings, this First Woman Camp Experience Guide will bring the excitement of NASA's science and technology. Read the fictional story of Callie, the first woman and person of color on the Moon. Download the interactive graphic novel and mobile apps.
