

LEAD THE CHANGE A MENTORSHIP PROGRAM FOR AGED CARE LEADERS

**ONLINE PROGRAM -
Commencing 11 March 2025**

Are you ready to implement changes aligned to the new aged care standards coming into effect 1 July 2025?

Our online mentorship program is a practical approach to equip leaders with knowledge, skill and confidence to lead sustainable changes.

Over 4 sessions our industry experts will share:

- An overview of the new standards, key areas for change and clinical governance
- Using data to drive change
- Quality Improvement and partnering with consumers
- Driving and Sustaining Change

During this program leaders will receive a 1:1 mentoring session, supporting you to implement a small project relating to the new standards at your workplace. Translating learnings straight into practice!

About our facilitators

Kate and Kathy bring 40+ years of combined experience in health and aged care across a variety of clinical, leadership, quality, and compliance roles. With a shared passion for improving care for older Australians, they established Thrive to provide a holistic, practical, and sustainable approach to aged care services. Their vision is simple: to help organizations thrive, while ensuring older people have the opportunity to do the same.

**Setting you up
for success with
the new Aged
Care Standards**

This final session will see you present your change idea and results to fellow participants, online with a short PowerPoint.</p>

Testimonials

Over the past 6 months THRIVE have facilitated a multidisciplinary middle managers leadership program for approximately 30 staff. Their communication with executive in planning the course and after each session has been timely and beneficial and course content relevant and engaging.

Most importantly feedback from attendees has been incredibly positive. I would highly recommend. Thank you Kathy and Kate!

- Michelle Butler, Previous Executive Director Quality and Learning NCN Health
