registration

You will receive intensive training in biblically based prophetic ministry. This workshop will offer intensive training extensive notes, Q & A, and exercises and activations; both for "newbies" in prophetic ministry and for seasoned prophetic speakers who want to go deeper. Youth and children with the maturity to receive the workshop training are warmly invited, but childcare will not be provided.

You will receive vision and practical suggestions about how to make room for prophetic ministry in your local church. We will examine how The Barn has incorporated Vineyard values-based prophetic ministry into our church culture. And we will suggest how your local church might do the same in submission to the approval of your church leaders.

You Will Receive Personal Prophetic Ministry. All who attend in-person will receive personal prophesy at least once from seasoned prophetic ministers.
