**Vice-President External**

**Policy & Bylaws Committee Meetings**

On November 1st, the Policy and Bylaws Committee (PBC) met to discuss SCSUs new credit card policy. Furthermore, the PBC discussed the two motions Vice President Eternal put forward for the Annual General Meeting; One being the advocacy for Accessible and Affordable Transit and Accessible and Affordable Telecommunications. Both were constructed to be aligned to similar motions submitted by Vice-President External towards the National General Meeting of the Canadian Federation of Students. The Policy and Bylaws Committee will strive to review, renew and to introduce any policy or policy changes that are in the preview of SCSU’s mission statement and would forward the condition of students. There will be more policy changes coming into the winter semester. For more information please contact Thai Dillon Higashihara at external@scsu.ca.

**Canadian Federation of Students National General Meeting**

The Canadian Federation of Students (CFS), hosted the annual National General Meeting (NGM) from November 4th lasting to November 9th. Four out of the six executives (Vice-President External, Vice-President Equity, Vice-President Academics and University Affairs and president) as well as the one of our staff persons the Campaigns and Advocacy coordinator attended this NGM. This event marked the annual conference where Student Unions across Canada meet to discuss the operations, services and campaigns of CFS. NGM is also an opportunity for Student Unions to learn from one another about what is happening on campuses in various universities from across Canada; this helps to improve the services we provide to our membership and help inform or guid our Campaigns to better advocate for the needs of students. Vice-President External submitted two motions in the Campaigns Committee of NGM; Accessible and Affordable Transit and Accessible and Affordable Telecommunications. These motions are similar to motions submitted towards the PBC in order for incorporation at the AGM. The annual National General Meeting (NGM) was cut short and operations were suspended unfortunately due to hate speech expressed during the elections form by two individuals who were removed. Operation of the National General Meeting is scheduled to resume in the next semester after the winter break. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

**Chief Administrative Office FORUM**

On November 21th, SCSU Executives attended the first Chief Administrative Office student forum of the year. The executive had a productive conversation regarding student issues. Various executive members brought up critical issues faced by students, the CAO forum is an important space to advocate and lobby for student issues. The Vice-President External brought forth to the CAO the issue of the lack of transit and the lack of avoidable service due to the near closure of line 3; especially in light that BRT and EELRT has not been implemented. Furthermore, the lack of fare integration and reduction on the part of the TTC has not been a part of the TTC’s fair plan. What is even more pertinent to the cost of living crisis facing students is the possibility of introducing U-Pass for students on this campus. Vice-President External will spearhead a lobby campaign in the attempt to introduce U-Pass to students. Furthermore; another issue brought forward by Vice-President External was the issue of Multinet roaming housing, particularly important is the need for the university to help lobby city council in legalizing multinet roaming housing For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

**UTMSU Robert Reisz Rally**
On November 30th, Vice-President External, Vice-President Academics and University Affairs and Vice President Campus Life, attended a rally hosted by the University of Toronto Mississauga Students Union (UTMSU). This rally was broadly on the issue of Sexual violence, lack of servour centric policies and especially calling for the termination of Professor Robert Reisz who was found guilty of sexual harassment, racism and bullying, but still continues to teach at UofT, especially concerning is the fact that he supervise students. The rally was successful and SCSU was able to show support in the face of injustice and join in solidarity with our fellow student unions, other organizations like the PEARs project and University of Toronto Students Union were present at the rally. We join forces to demand that this issue be resolved and UofT no longer ignores the plight of survivors. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

Annual General Meeting
On November 23rd, (Vice President External, Vice President Academics and University Affairs, Vice President equity, Vice President Campus Life, Vice President Operations) hosted the Annual General Meeting, however due to a lack of quorum on the part of an absence of commitments and operational issues, normal business was suspended until winter annual general meeting. However, the executive team who were present presented their updates to the membership. This allowed an insight into the work the Union has done for the past seven months; our events, our services, and our Campaigns which have been successfully implemented so far and will continue to drive to optimize our work for the membership. The union looks to synergies the optimality of its value added metrics in order to better formulate an internal cooperative model of membership engagement. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

Know Your Rights week
On the week of the 14th SCSU had our know your rights week relating to each campaign. During this week the camping executives (Vice President External, Vice President Academics and University Affairs, Vice President equity) and president Hosted various rights based information sessions. From academic rights, reproductive rights to housing rights. Vice President External and Vice President Equity combined the workshop into one theme of ‘Wellness’ hence both executives invited experts on housing rights to reproductive justice rights to better inform their membership on overall wellness. We have included resources for housing and reproductive rights accessible to our membership. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

UTMSU/UTSU
On November 16th Vice-President External and president met with our counterparts of University of Toronto Sudent Union and Univeristy of Toronto Mississauga Students Union to discuss the issue around the sexual violence policy at UofT. The recommendations that could be presented during the next Governing Council meeting and What or how each respective student union could work on so far as advocacy strategy is concerned. Due to a miscommunication between the presidents of each union, SCSU was not able to speak at the Governing Council. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

TTCriders Outreach Meeting
On November 21st, Vice President External met with the outreach team of TTCriders inorder to better understand the outreach strategy of TTCriders as well as common points of outreach that each representative organization could find. Board solidarity amongst organizations in the face of growing financialization of our public trust system is important. A reduction in fairs and an increase in service is vital to revitalize this integral public service. Outreach is important to build a coalition of supporters and to create existing linkages of solidarity to mobilize support for better service. The SCSU will continue to build relationships with our solidarity partners in order to better service our membership, build an important solidarity coalition with allies of student issues and to formulate a network of support amongst organizations which align with our values and our mission. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

URS Planning
Throughout the month of November Vice President Academics and University affairs has worked closely with Vice President External to organize the Undergraduate Research Symposium. Both executive members have formulated an outreach plan that includes: nominees for a community panel, expert judges as well as keynote speakers. In addition, the URS committee has met to create a budget, rough outline of the agenda, and the mission statement of the URS. Both executives have worked tirelessly to hire 14 student members of the URS planning committee, with the addition of two indigenous students as special advisors. The URS will shortly open up submission of research to the student body. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

**Smart Commute Meeting**
On November 28th, Vice President External and Vice President Operations met with the Smart Commute in order to discuss the transit issue of students. Smart Commute is a subdivision of UrbanTrans North America. Urban Trans North America is a solution based management consulting firm specializing in “sustainable environments by developing and advancing innovative transportation solutions.” Particularly with an emphasis on First and Last Mile Planning, Shared Mobility Planning and Implementation and Program Management and Implementation within transportation and urban human mobility. This meeting was a very productive meeting regarding the issues of lack of adequate public transit, advocacy optimization strategy, as well as how to come closer to nudge the university administration to support and implement U-Pass. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

**Campaigns Meeting**
Throughout November the campaigns executives (Vice President External, Vice President Academics and University Affairs, Vice President Equity) worked primarily with the Campaigns and advocacy coordinator to develop campaigns of the Union, especially one that are coming up in the new semester. Vice President External plans to work on transit related issues such as U-Pass advocacy and Lobbying the TTC board for improvement of existing services. A part of this was working with Vice President Equity on the transit grant. Furthermore, in regards to housing, Vice President External will work on the lobbying of the city council to legalize multi tenant rooming housing as well as to lobby administration on a commitment to build co-op housing for students. Furthermore, Vice President External will work on sustainability of our campus and advocacy for a divestment plan for the university and a sustainability policy for the Union. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

**Transit Bursary**
Throughout November Vice President External has worked closely with Vice President Equity in order to advocate for, introduce and operate the transit Bursary. This will help mitigate the cost of public transit which the burden of footing the bill unduly falls on the student, which is considering the cost of living crisis will make accessing education unequal. Thanks, due in large part to Vice President Equity, funding for this bursary was secured by the Office of Student Experience and Wellbeing. Operational language and the access form was constructed by Vice President External. Both executives plan to introduce this bursary during the first week of January. For more information, please contact Thai Dillon Higashihara at external@scsu.ca.

Four out of the six executives (Vice-President External, Vice-President Equity, Vice-President Academics and University Affairs and president) as well as the one of our staff persons the Campaigns and Advocacy coordinator attended this NGM. This event marked the annual conference where Student Unions across Canada meet to discuss the operations, services and campaigns of CFS. NGM is also an opportunity for Student Unions to learn from one another about what is happening on campuses in various universities from across Canada; this helps to improve the services we provide to our membership and help inform or guid our Campaigns to better advocate for the needs of students. Vice-President External submitted two motions in the Campaigns Committee of NGM; Accessible and Affordable Transit and Accessible and Affordable Telecommunications. These motions are similar to motions submitted towards the PBC inorder for incorporation at the AGM. The annual National General Meeting (NGM) was cut short and operations were suspended unfortunately due to hate speech expressed during the elections form by two individuals who were removed. Operation of the National General Meeting is scheduled to resume in the next semester after the winter break. For more information please reach out to Amrith David at academics@scsu.ca

WE DID FOLKS!! WITH THE POWER OF STUDENT MOBILIZATION!! The policy will have full effect in the upcoming new year, beginning in Fall 2023 onwards. The demands of the policy are equal to the demands your VP AUA has listed in the petition, thus this is a GREAT WIN. After months of lobbying around the policy and its implications, your VP AUA has been successful in achieving this VICTORY for the students. For more information please reach out to Amrith David at academics@scsu.ca

AA&CC Advisory Committee

The three days are divided into Management, Sciences and Social Sciences and Humanities. The planning committee has been hired and we are currently working on reaching out to sponsors, keynote speakers, community panel speakers and judges as well as finalizing the budget. The event will take place in the 1265 Bistro located in the student center. Stay tuned for more updates regarding this event. For more information please reach out to Amrith at academics@scsu.ca

This allowed an insight into the work the Union has done for the past seven months; our events, our services, and our Campaigns which have been successfully implemented so far and will continue to drive to optimize our work for the membership. 6. Credit Card Policy

OPERATIONAL POLICY - Credit Card Policy

Preamble
The SCSU does a high volume of transactions that creates financial strain on individuals required to utilize their personal resources to make necessary and pre-approved purchases for the Union. The SCSU serves to benefit from a corporate credit card for the following reasons:

- The staff will be able to purchase office supplies, software subscriptions and other items without submitting an expense report.
- The organization will be able to earn points on business expenses then receive membership rewards which can be used against our credit statement.
- SCSU will receive up-to-date online monitoring tools to enforce policy compliance, track expenses and creating reports.
- Card liability and protection such as Buyer’s Assurance Protection Plan which extends the warranty on eligible purchases (computers, printers, etc.)
- In case of theft and damage, the Union will be able to get reimbursed for the amount.
- SCSU’s business credit card shall have employee card misuse protection insurance. In the case that an employee does misuse this credit card, the Union will be able to get reimbursed through this insurance.
Procedures
In addition to the misuse insurance protection on the card itself, the following procedure will be implemented to ensure fiscal responsibility and strong financial controls:

- The Executive Director will be the only Cardholder for the credit card and the card will be in their name.
- The executives and staff will sign and abide by an employee credit card agreement acknowledging that the credit card belongs to the company and executive director.
- The Executive Director, VP Operations, President, Accountant shall be empowered to investigate charges as they fit.
- The Executive Team, the Executive Director, Accountant, Operations Coordinator, Internal Coordinator, Campaigns and Advocacy Coordinator, Graphic Designer, and Events & Membership Engagement Coordinator will only have access to request the use of the credit card. Any other individuals will not be able to request the use of the credit card.
- Like expense reports, two signing officers (Executive Director mandatory) will need written approval to purchase before authorizing the use of the credit card. In the case of subscriptions (i.e. Sage, Zoom, etc.) the credit does not need approval each month.
- All members who use the credit card for purchases will need to keep receipts and submit documentation with the date and purpose of the expense to the Accountant.
- In the event of misplaced receipts, the executive/staff member will have only one-time grace submission. If it occurs again, the individual’s credit card privileges will be taken away.
- When not used, the credit card will be protected by the Accountant or Executive Director in their safe.
- The Accountant will create monthly credit card reports which will be forwarded to the Executive Director, President and VP Operations to ensure that they have approved of all expenses.
- The credit card will be paid within 5 business days once the credit statement has been created.

Redemption of Points
All points will be redeemed as Statement Credits against the Company’s billing statement. As part of the Employee Agreement, no individual will be able to redeem points for gift cards, merchandise, Amazon.ca, retail rewards or any other redemption options.

At the point value of 168,000 and/or the last billing period of the calendar year, the Accountant will redeem points as Statement Credits against a future billing statement.

Card Misuse Protection
In the event where the Executive Director (cardholder of the credit card), the Vice- President Operations, President, Accountant, or Operations Coordinator, recognizes that there is an unauthorized transaction or series of transactions, including a cash advance, charged to the Company’s Account.

Within two business days of the unauthorized transaction(s), any of these individuals will terminate and cancel the Card. In addition, any of these individuals will provide all information for the Proof of Loss application including, the completed claim form, all billing statements on which there is an identified Unauthorized Expense, explanation which supports the contention that the Unauthorized Expenses for which the Union is seeking a payment were inappropriate and did not benefit the company, and the copy of the employee/employer agreement for the use of the credit card.

If the total unauthorized amount of transaction(s) is greater than $1.00 and less than $200.00, any of these individuals will formally notify the Executive Committee of the unauthorized transaction(s). If the total amount of unauthorized transactions is greater than $200, any of these individuals will need to notify the Finance Committee and the Board of Directors.
If the total amount of unauthorized transactions is greater than $500, Scarborough Campus Students’ Union will need to have a forensic audit completed. Moreover, the Scarborough Campus Students’ Union will contact the appropriate authorities (including Toronto Police Service) to proceed with charges against the individual who incurred the unauthorized transaction(s). In addition, the Scarborough Campus Students’ Union will request the individual who incurred the unauthorized transaction(s) to return the funds lost on the transaction(s) to the Scarborough Campus Students’ Union. If the individual does not provide the funds within five business days, the Scarborough Campus Students’ Union will proceed with litigation against the individual who incurred the unauthorized transaction(s).

6. Credit Card Policy

OPERATIONAL POLICY - Credit Card Policy

Preamble
The SCSU does a high volume of transactions that creates financial strain on individuals required to utilize their personal resources to make necessary and pre-approved purchases for the Union. The SCSU serves to benefit from a corporate credit card for the following reasons:

- The staff will be able to purchase office supplies, software subscriptions and other items without submitting an expense report.
- The organization will be able to earn points on business expenses then receive membership rewards which can be used against our credit statement.
- SCSU will receive up-to-date online monitoring tools to enforce policy compliance, track expenses and creating reports.
- Card liability and protection such as Buyer’s Assurance Protection Plan which extends the warranty on eligible purchases (computers, printers, etc.)
- In case of theft and damage, the Union will be able to get reimbursed for the amount.
- SCSU’s business credit card shall have employee card misuse protection insurance. In the case that an employee does misuse this credit card, the Union will be able to get reimbursed through this insurance.

Procedures
In addition to the misuse insurance protection on the card itself, the following procedure will be implemented to ensure fiscal responsibility and strong financial controls:
- The Executive Director will be the only Cardholder for the credit card and the card will be in their name.
- The executives and staff will sign and abide by an employee credit card agreement acknowledging that the credit card belongs to the company and executive director.
- The Executive Director, VP Operations, President, Accountant shall be empowered to investigate charges as they fit.
- The Executive Team, the Executive Director, Accountant, Operations Coordinator, Internal Coordinator, Campaigns and Advocacy Coordinator, Graphic Designer, and Events & Membership Engagement Coordinator will only have access to request the use of the credit card. Any other individuals will not be able to request the use of the credit card.
- Like expense reports, two signing officers (Executive Director mandatory) will need written approval to purchase before authorizing the use of the credit card. In the case of subscriptions (i.e. Sage, Zoom, etc.) the credit does not need approval each month.
- All members who use the credit card for purchases will need to keep receipts and submit documentation with the date and purpose of the expense to the Accountant.
- In the event of misplaced receipts, the executive/staff member will have only one-time grace submission. If it occurs again, the individual's credit card privileges will be taken away.
- When not used, the credit card will be protected by the Accountant or Executive Director in their safe.
- The Accountant will create monthly credit card reports which will be forwarded to the Executive Director, President and VP Operations to ensure that they have approved of all expenses.
- The credit card will be paid within 5 business days once the credit statement has been created.

**Redemption of Points**

All points will be redeemed as Statement Credits against the Company’s billing statement. As part of the Employee Agreement, no individual will be able to redeem points for gift cards, merchandise, Amazon.ca, retail rewards or any other redemption options.

At the point value of 168,000 and/or the last billing period of the calendar year, the Accountant will redeem points as Statement Credits against a future billing statement.

**Card Misuse Protection**

In the event where the Executive Director (cardholder of the credit card), the Vice-President Operations, President, Accountant, or Operations Coordinator, recognizes that there is an unauthorized transaction or series of transactions, including a cash advance, charged to the Company’s Account.

Within two business days of the unauthorized transaction(s), any of these individuals will terminate and cancel the Card. In addition, any of these individuals will provide all information for the Proof of Loss application including, the completed claim form, all billing statements on which there is an identified Unauthorized Expense, explanation which supports the contention that the Unauthorized Expenses for which the Union is seeking a payment were inappropriate and did not benefit the company, and the copy of the employee/employer agreement for the use of the credit card.

If the total unauthorized amount of transaction(s) is greater than $1.00 and less than $200.00, any of these individuals will formally notify the Executive Committee of the unauthorized transaction(s). If the total amount of unauthorized transactions is greater than $200, any of these individuals will need to notify the Finance Committee and the Board of Directors.

If the total amount of unauthorized transactions is greater than $500, Scarborough Campus Students’ Union will need to have a forensic audit completed. Moreover, the Scarborough Campus Students’ Union will contact the appropriate authorities (including Toronto Police Service) to proceed with charges against the individual who incurred the unauthorized transaction(s). In addition, the Scarborough Campus Students’ Union will request the individual who incurred the unauthorized transaction(s) to return the funds lost on the
transaction(s) to the Scarborough Campus Students’ Union. If the individual does not provide the funds within five business days, the Scarborough Campus Students’ Union will proceed with litigation against the individual who incurred the unauthorized transaction(s)
