30. Transparent and Accessible Meeting Act
Moved: Alibux  
Seconded: Kadhem

WHEREAS the board of directors of the SCSU both believes and is legally bound by the University of Toronto Governing Council’s Policy that states “all Student Organizations must conduct themselves in an open, accessible and democratic manner”.

WHEREAS the SCSU must demonstrate a “willingness to freely share information about the organization with members” as well as principles that embody “transparent management”.

WHEREAS the SCSU must act in a way that promotes “transparency and accountability to the membership”.

WHEREAS as democratically elected representatives, the board members must show an “openness to scrutiny”, in regards to the decisions they make.

WHEREAS the SCSU must honour their “commitment to ensuring that meetings, events and activities of the organization are communicated to the membership in such a way that members are able to participate fully in such meetings, events and activities”.

WHEREAS there have been baseless allegations of anti-blackness during discussions within the union meeting spaces, that have detrimentally impacted the function of the executive team and their mandate for “ensuring that members’ voices and perspectives whether expressed individually or by a group, can be heard and, if appropriate, acted upon”.

BE IT RESOLVED that the meetings of the board, finance committee, elections and appeals committee, and annual general meetings have the audio recorded to be published online with the minutes of the meeting. If the audio is to be turned off to discuss sensitive information, a ⅔ majority of the board/committee must authorize this and the reason for this must be documented along with the names of the board members who requested this.
BE IT FURTHER RESOLVED that the board live-stream their monthly meetings using Facebook live to allow students the ability to comment and ask questions during these meetings.

BE IT FURTHER RESOLVED that the live-streamed video will be uploaded to the SCSU YouTube Channel and Facebook page on a monthly basis by the Vice-President Operations within a week of the meeting.

Alibux explains that this act has sole purpose of explaining membership. Many students do not know what is happening so this leads them to opt out. Alibux wants to show that they (Union) do represent them (students) and he wants them to know about what is said in meetings. He knows that minutes exclude details due to physical limitations, thus, he wants this initiative as it will make everything transparent.

Imran wants to discuss the first be it resolved clause in discussion, as the audio will be turned off. The reason for this must be documented along with the name of board of directors who represent this. How can the group publish this online for others to see; what does this look like from anti-oppression perspective, she believes all this is important

Santosh’s concern is that if an individual outside table wants to speak, how would live chat work to accommodate this, and would the group be responsible for comments that are being published in discussion; how will this be monitored

Alibux responds that it can be specific if sensitive issue is being spoken on.

The ⅔ of the board agreeing motion is there to make sure that consensus is important for sensitive info to just be documented. If it is not an issue to this degree, it is important to mention that the whole group is agreeing to something

Kashif moves for broadcast to be on Facebook Live

He specifies that it is important to make it clear that there will be comments from something being broadcasted. It can be volatile if it is decided that all comments will be responded to due to the fact this may be infeasible to do.

He wants to stick to a livestream, that way people that want to watch are able to watch, and people that want to speak can speak, there are other ways for those not physically there to speak
Alibux responds that he understands the volatility. The main concern is that these meetings will take too long; he agrees that answering all questions will be infeasible. He does want comments to be open, for people to exchange ideas and opinions to be formulated there. His main concern would just be the livestream and he is okay as long as this happens.

Rahman adds that it will be difficult to look or moderate livestream as priority is at board meeting. She mentions execs are open to having office hours during the week to discuss motions, this could be taken into consideration for comments to be spoken on instead of having these on the facebook live.

Bukhari wants to reiterate that they should have the comment ports blocked as there is no way…

Bukhari continues that they should strike out people being able to comment.

Kashif wants to call to question on the amendment.
