Park Central Development is a 501c3 community development corporation that works to strengthen and attract investment that creates and maintains equitable, vibrant urban neighborhoods and commercial districts where people live, work and play.

Park Central provides and facilitates full-service neighborhoods with amenities that the City of St. Louis is unable and unwilling to provide. Park Central coordinates and facilitates safety and security, housing, parking, entertainment districts, and other services to create vibrant neighborhoods that stakeholders benefit from.

These unique districts and neighborhoods provide a competitive advantage when trying to attract top talent. Park Central provides place-based community development as well as coordination of initiatives & priorities on a neighborhood level to advance activity that impacts the local area to gain community support.

Formed in 2009, Park Central Development is a consolidation of the former Central West End Midtown Development Corporation and the Forest Park Southeast Development Corporation. In 2017, PCD redefined its mission and core service area, and stabilization efforts in order to meet the greater community need of Bridging the Delmar Divide. We now serve as a Community Development Corporation (CDC) an estimated 35,000 residents in our core neighborhoods. We serve an additional 25,000 residents in our legacy neighborhoods through contract services and technical assistance to community stakeholders.

**Over the past 15 years, PCD has worked to fulfill our mission which is to work to strengthen and attract investment that creates and maintains equitable vibrant urban neighborhoods and commercial districts where people want to live, work and play.**

- Neighborhood Planning & Services
- Major Infrastructure Projects & Improvements
- Administration of Commercial, Business and Special Taxing Districts
- Technical Assistance to the Investment Community to Facilitate Private Investment in the Community
OUR NEIGHBORHOODS

We strive to connect the neighborhoods of St. Louis
Neighborhood Engagement

Neighborhood Planning

Park Central was selected by the Lincoln Institute in 2022 to be the lead CDC Partner for its Legacy Cities Initiative for the city of St. Louis, which would focus on a planning initiative for the Delmar Corridor in partnership with the City of St. Louis, SLDC, Delmar Main and the groups along the Delmar Corridor. Neighborhood planning on a comprehensive level helps residents and business owners identify community priorities, plan for the long term, and build consistency around the community’s goals. We strive to create cohesive neighborhoods through participatory community engagement and neighborhood planning processes.
As Urban Neighborhoods Revitalize, Equity of Existing Stakeholders must be at the center of development and neighborhood plans. Park Central Development believe that all families and businesses should have access to safe, stable, affordable housing and retail locations. This means providing assistance to these stakeholders allowing them a.) stay in their homes and businesses, b.) participate in the process to realize the financial gain in their existing homes and businesses from the upward growth of private development and increased investments. Park Central’s Stay in Place Model aims to assist long term stakeholders or individuals with resources and technical assistance to become stable or scale up in the areas we serve.

These are foundational tools that lay the framework for anti-displacement for responsible neighborhood development, and should be apart of resources allocated by the city and developers.
How Park Central Development is incorporating the Anti-Displacement Model

**Aging In Place**

- **Home Repairs**
  - Residents who are eligible for assistance can receive up to $15,000 per home as of 2023 in the 17th/9th Ward for Homes and up to $3,000 in its other service areas.

To whom it may concern I would like to express my sincere gratitude for the tax relief program 2022!...Lately it has been difficult for me to make ends meet financially. This program literally saved my home from going up for auction in as little as two weeks!

I want to thank you for you thorough and efficient help. I was in a very precarious position, about to lose my home...
U have made such a positive impact in my life and I thank you so much!!!

"I want to say this program is a blessing...."
