

PROMPT FRAMEWORK for

STUDENTS: The FIVE "S" Model

AI for Education

S  **ET THE SCENE**

Tell the chatbot what role you would like it to take, so it can provide you a better, more targeted answer.

Ex: "You are a Shakespeare expert and are great at helping HS students study..."

S  **PECIFIC**

Be specific in your instructions. Clearly define what you want the Chatbot to do and provide important details.

Ex: "Create a list of five debate topics on recycling for a 9th grader..."

S  **IMPLIFY YOUR LANGUAGE**

Chatbots work best when you use simple language, so don't go crazy building out complex prompts.

Ex: "Explain the Pythagorean Theorem to me like I'm a 5th grader..."

S  **TRUCTURE THE OUTPUT**

Tell the Chatbot how to structure its answers. Chatbots can use bullets, format a chart, and even use emojis.

Ex: "Create a quiz with multiple choice and open-ended questions for me..."

S  **HARE FEEDBACK**

Chatbots don't always get it right the first time and can make mistakes. So provide feedback throughout your chat.

Ex: "Change the format of the quiz to a study guide and flashcards..."
