PC TECHNICIAN

SUMMARY

Trudeau Institute, an internationally acclaimed, path-breaking research institute focused on combating infectious disease, has recently expanded to develop the Trudeau Research Network, consisting of productive, collaborative and strategic inter-disciplinary partnerships, including New York State, biomedical research institutions, biopharma/biotech, and major foundations, with Trudeau as a hub. The Institute engages in multi-disciplinary research devoted to translating the advances of basic science into new strategies to meet today’s urgent infectious disease challenges.

The Trudeau Institute has an immediate opening for a PC Technician. The successful candidate will handle a variety of tasks to support the daily operations of the organization’s computer systems.
