

Scale your business with Cortina

Cortina is the marketplace software built by retailers for retailers. We help you make more money without taking on additional inventory or capital risk.

Benefits of Cortina:

- ✓ A simple way to manage all marketplace vendors in one place.
- ✓ Cortina technology enables infinite brand connections.
- ✓ Easy implementation at low cost.
- ✓ Your site experience looks and feels completely seamless to customers, you own all the data and the customer.

Cortina works in three easy steps:

Curate your favorite products

Handpick all of your favorite items from brands you love.

Upload products to your site

Shoppers can buy from multiple brands and also transact on your site.

Let the brands handle the rest!

You don't hold inventory, manage fulfillment, or shipping.

Looking for additional sales channels?

Become a supplier for other brands using Cortina Marketplace Technology. Gain additional sales, product placement and marketing exposure. Expose your brand on our partners websites.
