Abundance Key

- a** Abundant, immediately apparent
- c** Common, less apparent
- p** Present, may require some patience.
- u** Uncommon, more patience, another visit.
- r** Rare, it's your lucky day.
- m** Migrant, seen principally in migration.

Based on local records 2001-02, a work in progress

WEST RUTLAND MARSH An Important Bird Area

The West Rutland Marsh is a designated Important Bird Area having met the necessary Vermont ornithological criteria as an essential habitat for one or more species of birds. Rutland County Audubon organizes and conducts regular monthly monitoring surveys of the marsh with the participation of many individuals. To date over one hundred species have been identified.

With the sustainability of the marsh in mind, Audubon in partnership with the Town of West Rutland and State and Federal agencies, have already established certain conservation and easement plans for the watershed while continuing to advocate for their expansion.

Brochure Published by the Town of West Rutland & Rutland County Audubon Society Partnership
