Launched 5 community outreach teams to better serve those most impacted by our work.

Translated our materials into Amharic, Spanish, French, and Vietnamese.

Heard from almost 4,500 callers, 88% of whom live in DC, Maryland, or Virginia.

Embarked on a strategic planning process to determine our strategic priorities for the next three years.

Doubled our number of volunteers.

$230K in grants given to 1,446 patients.

+41% increase in number of grants given over 2016.

+60% increase in donations to DCAF.

DCAF ANNUAL REPORT

Help make 2018 even more successful—GIVE TODAY at dcabortionfund.org.
Research suggests that two out of three pregnant people who have abortions anticipate stigma if others were to learn about it. (Women’s Health Issues, 2011)

84% of clinics experienced at least one form of anti-abortion harassment in 2011. (Guttmacher Institute, 2014)

At DCAF, we are here for our patients, no matter their circumstances or why they chose to have an abortion.

46% of Americans are unable to cover a $400 unexpected expense. (Board of Governors for the Federal Reserve)

While abortion costs vary from state to state, the national average for a surgical abortion in the first trimester is around $500. (Guttmacher Institute, 2014)

58% of women aged 15-44 enrolled in Medicaid live in places where Medicaid does not cover abortion, except in limited circumstance. (Guttmacher Institute, 2016)

Restrictions designed to deny access to abortion care disproportionally affect people living with low incomes. We strive to make “choice” a reality.

A PERSON’S RIGHT TO HEALTH CARE SHOULD NOT DEPEND ON THEIR WALLET.

The DC Abortion Fund (DCAF) is an all-volunteer, 501(c)(3) nonprofit that makes grants to pregnant people in the DC area, as well as those traveling to the area, who cannot afford the full cost of an abortion. DCAF is the only organization in DC that focuses solely on providing this service in our community.
