

BREMSKERL CV

BREMSKERL PREMIUM QUALITY DOESN'T STOP WITH OUR BRAKE PADS

Our air disc brake rotors and calipers are designed to provide your fleet with a high level of safety, longer life and extended uptime, just like our world-class brake pads.

When you chose us as your technical partner in the aftermarket you can place that same high degree of trust in our high quality rotors and calipers.

EXTENDED LIFE ROTORS

All Bremskerl rotors are treated with a proprietary process that improves durability, increases life and provides some of the best corrosion resistance available.

AIR DISC BRAKE CALIPERS

- Bremskerl CV air disc brake calipers are remanufactured in the USA.
- 3-year, unlimited mileage warranty.
- All units have been tested per FMVSS-121 dyno test to ensure performance.
- Calipers pass a 96-hour salt spray test— demonstrating improved corrosion resistance.
- Every unit is end-of-line tested and issued a serial number barcode.

AIR DISC BRAKE ROTORS

- Extended life rotors: All of our rotors go through a thermochemical process that extends life by protecting against common contaminants, including chlorides and salts.
- G3000 Cast Iron for durability and friction performance.
- Full lot traceability of dimensional and chemical composition on each and every part.
- Bare rotors are available as an option.
