NEW MCRC INITIATIVE

Replace AZGOP Data Center

The MCRC is committed to solving two urgent PC Tool issues. One is the loss of data when using Campaign SideKick, and two is the obsolescence of data when using AZGOP Data Center.

We will be spinning up our two new apps while PCs are returning signed Voter Data Agreements. We MUST get your signed agreement before access to the tools can be granted.

The first app, Precinct Master runs on Windows, allows voter lookup, can create paper walk lists, and will be available once your signed Voter Data Agreement is returned.

We are changing horses on the canvassing app! We have decided to go with "Voter Spectrum". This feature rich Colorado developed app runs on any device with an internet connection and a browser. It will be available for us in about two more weeks, and we think you will agree it is worth the wait. We expect to be ready to train immediately after it is available.

The MCRC is looking forward to giving our PCs the tools they need.

To gain access send signed Voter Data Agreement form found at <https://www.gopld3.org/resources> to Bob Gomez at bob@rjgomez.com

BYLAWS COMMITTEE

The Bylaws committee has spent many hours working towards completing and revising LD3 bylaws - please read the draft and give feedback to the committee.

SCHOOL BOARD COMMITTEE

Join the school board committee for one of the school boards even if you do not have kids or grandkids in school. Help us stop indoctrination of our youth.

KNOW YOUR ARIZONA CONSTITUTION

DID YOU KNOW?

To become a Precinct Committeeman it should be mandatory to LEARN our AZ Constitution. How can we possibly fight for our State if we do not know and cannot inform the citizens of Arizona our legal rights that are being violated. To save our State and country it has come down to “WE THE PEOPLE” to Come together and demand those in power to follow our constitution.

For Example:

Article VII. Section 2A

No person shall be entitled to vote at any general election... Unless such person be a CITIZEN OF THE UNITED STATES, be of the age of 18, and shall have resided in the state for the period of time preceding such election as prescribed by law...

BREAKING NEWS

Behind the smoke & mirrors of the mainstream media

Submitted by Shanny Cohen

FBI's Biden Family Bribery Business in Ukraine is exposed.

Sen. Chuck Grassley (R-Iowa) released an unclassified FBI-generated record FD-1023 by legally protected whistleblowers.

This record implicates then-Vice President Biden and son Hunter Biden in a criminal bribery scheme with a Ukrainian Gas Company, Burisma.

A corruption investigation in Ukraine led by Ukraine Prosecutor General Viktor Shokin was standing in the way of Burisma's sights of American business. The 15+ recordings & text messages to Hunter Biden and "The Big Guy" expose The Biden Crime Family ensuring Shokin would be fired, in exchange for illicit payments.

Burisma's CEO Zlochevsky reportedly stated that he had to pay Vice President Biden and Hunter Biden each \$5 million. The \$10 million total was routed to various off shore bank accounts.

Hunter was additionally "employed" at \$80,000 a month despite no actual work performed.

Is it the fiery combustions or the NON eco-friendly truth causing decline of EV sales?

More and more posts are showing up on facebook with pictures of their cars burnt to a crisp outside of Desert Ridge, AJ's and other Phoenix locations. No, even the 118° weather can cause this. The so-called "eco-friendly" vehicles are anything but that to the environment. Having to rely on energy not being weaponized against us in the future is enough for me to say no. Let's say, a pandemic where you're told to stay home so they just cut the energy so you can't charge your car. It's happening in China, we must hope that much like the release of covid, that trend doesn't make it here.

The amount of diesel that the haul trucks use in the mining of lithium and copper, the vast mountains that are destroyed, are all for a material that is not renewable or biodegradable. This is not my idea of environment friendly. Ford has reported the sales of their EV Lightning F-150 were below projections so drastically, they have lowered prices 17% on the base model.

COVID, back so soon? Mysterious death toll of vaccinated rising.

Despite still being unable to isolate covid, NBC News and USA today rumor to prepare for the next wave. As if the original bio-weapon and endless follow up shots and more shots called boosters weren't enough, they are urging you to get 3 different types of shots at once this fall to "protect" against "Covid-19", RSV & the flu according to USA Today.

Interestingly enough, they maintain a Fear Tracker of "covid-deaths" on their website still. I'd be interested to see a Vaccine death tracker.

Biden announced this past week he will create a permanent Pandemic Agency within the Whitehouse.

As we see the most highly trained athletes in the world dropping dead, myocarditis at an all time high, and family members of the vaccine executives dying, when will the rest of the world open their eyes?

INTERNATIONAL NEWS:

THE SOUND OF FREEDOM

The Sound of Freedom movie exposes the world crisis of child sex trafficking.

Being that AZ is a border state and one of the top child sex trafficking locations, it is imperative that "We the People" wake up and share this very important Documentary!

Stop the evil that is infesting our world!

Source Reporting:
 On June 26, 2020, CHS S-[REDACTED] ("CHS") reported the following:

First Meeting with Burisma Executives in Kyiv, Ukraine 2015/2016. In late 2015 or 2016, during the Obama/Biden administration, CHS was first introduced to officials at Ukraine natural gas business Burisma Holdings ("Burisma") through [REDACTED] Oleksandr Ostapenko (alternate transliteration - Alexander Ostapenko; for full identification of Ostapenko, see attachments to [REDACTED] CV [REDACTED] Serial 212, a FD-1023 by CHS serialized on 1/2/2018).

CHS and Ostapenko traveled to Ukraine and went to Burisma's office that was located 20 minutes away from the City Center. The purpose of the meeting was to discuss Burisma's interest in purchasing a US-based oil and gas business, for purposes of merging it with Burisma for purposes of conducting an IPO in the US. Burisma was willing to purchase a US-based entity for \$20-30 million. At this meeting was CHS, CHS's former business partner, [REDACTED] (an USPER [REDACTED]), Ostapenko, Burisma's CFO, Vadim Pojarskii (email Vadym.Pozharsky; [REDACTED], telephone [REDACTED]), Karina Zlochevsky (the daughter to Burisma's CEO and founder Mykola Zlochevsky) and her husband (FNU LNU). The conversation was in Russian, and thus [REDACTED] did not participate therein.

During the meeting, Pojarskii asked CHS whether CHS was aware of Burisma's Board of Directors. CHS replied "no", and Pojarskii advised the board members included: 1) the former President or Prime Minister of Poland; and, 2) Joe Biden's son, Hunter Biden. Pojarskii said Burisma hired the former President or Prime Minister of Poland to leverage his contacts in Europe for prospective oil and gas deals, and they hired Hunter Biden to "protect us, through his dad, from all kinds of problems" (CHS was certain Pojarskii provided no further/specific details about what that meant).

CHS asked why they (Burisma) needed to get CHS's assistance regarding the purchase/merger of a US-based company when Biden was on their board. Pojarskii replied that Hunter Biden was not smart, and they wanted to get additional counsel. The group then had a general conversation about whether the purchase/merger with a US company would be a good business decision.

Meeting with CHS, Ostapenko, and Mykola Zlochevsky in Vienna, Austria in 2016. Approximately one or
