

# All Surface Sanitiser

## Product Description

All Surface Sanitiser utilises eco-friendly, naturally derived, mild surfactants and a natural fermentation extract to produce an environmentally-responsible and sustainable biocidal cleaner suitable for all kitchen areas.

## Core Benefits

- Kills 99.999% of bacteria.
- Quadruple action - cleans, sanitises, removes unpleasant odours, regular use helps prevent lime scale build up.
- Leaves surfaces sparkling clean, odour free and protected.
- Approved to EN1276 for Pseudomonas Aeruginosa, Escherichia Coli, Staphylococcus Aureus & Enterococcus Hirae.
- Active supported under the EU Biocides Regulation (528/2012) for 'Private areas and public health area disinfectants and other biocidal products'.
- Safer for the user as well as the environment than most traditional disinfectants.
- Suitable for domestic and industrial use.

## How Does it Work

The ingredients in All Surface Sanitiser work in synergy to ensure an efficient kill of a wide range of microbial specials. The product has multiple modes of action:

- Damage outer membranes, causing leakage of cell contents.
- Attacks other cell structures, proteins and DNA.
- Prevents protein synthesis.
- Arrests energy production by the cell.

## Areas of use:

Floors

Walls

Windows

Mirrors

Tables

Bannisters

**Contains: Cleaning agents and naturally derived biocide.**

## Directions For Use

Dilute as per requirement.

Spray, leave for required contact time (15 seconds for enveloped viruses, 30 seconds for bacteria) and wipe.

Ensure surfaces are clean prior to sanitising.

Note: Food surfaces should be wiped after spraying.

# Dosing Instructions

## Make Up 750ml Trigger Spray Bottles

- 1 Fill the empty 750ml bottle with 690ml of cold water (just above label).
- 2 Ensure lid is tightly secure on dosing bottle.
- 3 Tip concentrate dosing bottle upside down until small chamber is filled.
- 4 Remove cap and pour contents of small chamber into 750ml bottle. Once the cap is removed, the patented valve separates the bottle from the dosing chamber, NO LEAKS.
- 5 Screw trigger top onto 750ml bottle, give it a good shake and your bottle is now ready to use.

## Directions To Sanitise Floor Areas

### Mop Bucket (based on 12L mop bucket)

- 1 Fill Mop bucket ½ way with cold water.
- 2 Ensure lid is tightly secure on dosing bottle.
- 3 Tip concentrate dosing bottle upside down until small chamber is filled.
- 4 Remove cap and pour contents of small chamber into mop bucket. Once the cap is removed, the patented valve separates the bottle from the dosing chamber, NO LEAKS.
- 5 Mop floor area and leave to dry naturally.

## Directions For Use

Clean surface to remove any stubborn matter. Spray on surface. Leave for the required contact time (15 seconds for enveloped viruses, 30 seconds for bacteria) and wipe with a clean damp cloth.

## For Appliances

Spray on to clean cloth dampened with water. Wipe on surface and leave to dry naturally.

### Each 1L super concentrate makes approx 16 x 750ml bottles.

Flourish Surface Sanitiser is a naturally derived highly effective disinfectant cleaner. Proven to kill Bacteria and Viruses including SARS-CoV-2( Coronavirus) without harsh chemicals, being kinder to the environment and protecting the user.
