## Welcome to Queer Spirit Warriors retreats.

These retreats are an immersive experience to find your inner warrior.

Primarily for the LGBTQIA+ community and we welcome all those who are exploring their human identity in relation to gender, sex, sexuality, relationship diversity and spirit.

We offer four retreats throughout 2024 starting in June and concluding in January 2025.

We welcome folks to join for the entire four programmed retreats, however understanding that sometimes this isn't possible you can choose to join for individual retreats.

### Invitation to Empowerment:

Invitation to Empowerment is the first retreat of four. This retreat will enable you to access and start to action your dreams, talents, and desires of which you all have the right to explore. You have the right to enjoy satisfying relationships in what ever way you choose and here you will get to explore the many ways in which this might be achieved. At the same time, you also have the right to celebrate who you are, to work in rewarding environments and to live and walk in the world with authenticity and passion. Invitation to empowerment will help you to navigate and also cultivate all of this into your lives through a deep and expansive connection to self, to nature and to each other.
