

SAMPLE ALMOND POLLINATION AGREEMENT

| ("Beekeeper") and | ("Grower") |
|--|---|
| agree as follows: | |
| 1. Beekeeper shall place colonies of bees in Grower's almond County, CA during thepollination season. Beek Grower's orchard before 10% bloom of early varieties, weath 96 hours after the last application of dormant spray. Grower the date of such last application to facilitate placement schedo of delivery, have a minimum of 5 Langstroth deep frames or shall have an average of 7 Langstroth deep frames or their equiverage of clustering bees. Inspection of the colonies shall placement at a minimum ambient temperature of 60° F. and varieties in the placement at a minimum ambient temperature of 60° F. and varieties in advance of the date and time of inspectionspector and permit Beekeeper to attend. If, with Beekeeper when the ambient temperature is less than 60° F. at the time of the increased by 5% for each degree of ambient temperature be inspection occur if the ambient temperature is less than 54° F be delivered to Grower and Beekeeper simultaneously and, if understrength, Beekeeper shall have 48 hours from the receipt colonies to compensate for the understrength colonies. If Becorrection, the amount due Beekeeper shall be reduced in proaverage number of full strength frames (with no credit for colonie apicultural practices and remove the colonies after completio within 14 days after notice from Grower. | eeper shall place said colonies in her permitting, but not sooner than shall promptly advise Beekeeper of uling. Each colony shall, at the time their equivalent and the colonies uivalent, with a minimum of 70% occur withindays of wind speed of less than 10 mph. ral third party knowledgeable in the colonies. Grower shall notify etion and the identity of the r's permission, inspection occurs of inspection, the rating results shall below 60° F. In no event shall are results of the inspection shall are colonies delivered are not of the results to provide additional ekeeper shall fail to make such aportion to the shortage in the lonies containing less than 5 frames) as in accordance with usual |
| 2. Grower shall pay Beekeeper the sum of \$ | for each colony in installments as |
| % on execution of this agreement% on delivery of the colonies% on completion of pollination | |

Any amounts not paid when due shall bear interest at 10% per annum. If suit shall be brought for nonpayment, the prevailing party shall recover its reasonable attorneys' fees as a part of its costs of suit.

| 3. Beekeeper shall place the colonies in mutually agreeable locations in groups of not less thancolonies, which shall be accessible at all hours to Beekeeper and its vehicles and equipment for placement, servicing and removal. |
|--|
| 4. Grower shall give Beekeeper a minimum of 48 hours notice prior to application of harmful or toxic chemicals. Beekeeper may remove the colonies in such event and in the event of a threat of flooding of the colony locations and replace them when the threat of damage to the colonies has passed. In such event, Grower shall pay Beekeeper an additional charge of \$4.00 per colony for removal and replacement. Said charge shall be payable with Grower's final installment. |
| 5. Beekeeper shall comply with all applicable laws and regulations. Grower acknowledges that Beekeeper makes no warranty that the number of colonies set forth above will be sufficient to achieve full pollination of Grower's orchard and that pollination is dependent on weather conditions, colony loss due to disease, pests or acts of nature and other matters beyond Beekeeper's control, for which Beekeeper shall have no responsibility. In no event, shall Beekeeper be responsible for failure or reduction of Grower's crop. Beekeeper shall be excused from performance if prevented by quarantine or other law or regulation, weather, flooding, colony loss or other matters beyond its control for so long as such cause shall exist. |
