

IPSALU TANTRA INTERNATIONAL

Power of Voice

with Ian & Margo

Do you express yourself easily and naturally? Do you feel your own unique energy that alters the entire space for others when you speak? Your voice transforms you and others in ways you don't realize: It inspires or repels, energizes or deflates.

Your voice is a product of what you heard and experienced and then unconsciously incorporated as your own. It reflects your parents' voices and the power, tensions, fears, and traumas that you carry in your body, resulting in blockage and imbalance of the energy in the 5th chakra in the area of the throat, known as Vishuddha.

In this exciting breakthrough experience, you will learn to open your voice past these limitations. Through unique breathwork practices, energy movements, and vocal techniques, you will unleash the sound of your soul!

October 24-27, 2024

Hope Springs Retreat Center (near Cincinnati, OH)
