## CHAPTER III

### GOVERNANCE AND ADMINISTRATION

## **GOVERNANCE AND ADMINISTRATION\***

### **PURPOSE**

The El Dorado County Charter SELPA is composed of local educational agency charters (LEAs) located outside the geographic boundaries of El Dorado County. The El Dorado County Charter SELPA has designated the El Dorado County Office of Education as the Responsible Local Agency (RLA) and the County Superintendent of Schools as the Superintendent of the RLA.

As members of the El Dorado County Charter Special Education Local Plan Area (SELPA), (hereinafter referred to as Charter SELPA), each charter (as identified by the CDS (County, District, School) code issued by the State Board of Education) is considered an LEA (Local Education Agency) for purposes of special education.

The Charter SELPA further recognizes its' members as single charter partners or organization partners. Single Charter Partner is defined as an entity with one charter CDS code. An Organization Partner is an entity with multiple charters (CDS codes) as members of the Charter SELPA. An entity is defined as an organization with one governing board or one CEO (Chief Executive Officer) position. The title of CEO may differ by organization, but the intent is that final decision making in the organization is vested in one leadership position.

The function of the SELPA and participating agencies is to provide a quality educational program appropriate to the needs of each eligible child with a disability who is served by the Charter SELPA members.

All such programs are operated in a cost effective manner consistent with the funding provisions of Education Code Section 56700 et seq, IDEA, all other laws and policies, and the procedures of the El Dorado County Charter Special Education Local Plan Area.

### **CHANGES IN THE GOVERNANCE STRUCTURE**

Any changes in the governance structure of the El Dorado County Special Education Local Plan Area, including the dividing of the SELPA into more than one operating entity, changing the designation of and/or responsibilities of the Responsible Local Agency, are subject to specific Provisions of Education Code Sections 56140, 56195, et seq., 56195.7 et seq., 56200 et seq., and 56205 et seq.

1. Any local agency which is currently designated as a Local Education Agency (LEA) participating in the El Dorado County Local Plan for Special Education may elect to pursue an alternative option from those specified in Education Code Section 56195.1 by notifying the appropriate county superintendent at least one year prior to the date the alternative plan would become effective (E.C.56195.3(b)).
2. Any alternative plan of an LEA is subject to the approval of the county superintendent of the county or counties which would have school districts as participating agencies in the alternative plan. (E.C. 56195.1)
3. Approval of a proposed alternative plan by the appropriate county superintendent may be based on the capacity of the LEA Charter(s) to ensure that special education programs and services are provided to all children with disabilities. (E.C. 56140(b))
4. If an alternative plan is disapproved by a county superintendent, the county office shall return the plan with comments and recommendations to the LEA charter(s). The charter or

charters participating in the alternative plan may appeal the decision to the Superintendent of Public Instruction. (E.C. 56140 (b) (2))

5. Any alternative plan to be submitted by a charter or a group of charters currently participating in the El Dorado County Charter SELPA must meet the standards established by the State Board of Education and not adversely affect the size and scope status of the current local plan geographic area.

6. Any changes in the designation of the responsible local agency for the El Dorado County Charter SELPA must conform to the above code provisions and the administrative provisions and the administrative provisions for approval as specified in the Local Plan

Disagreements among the participating agencies of the El Dorado County Charter SELPA are attempted to be resolved through dispute resolution procedures. If not resolved, the matter would be presented to the Chief Executive Officers' (CEO) Council for discussion and dispute resolution.

### **GOVERNANCE STRUCTURE OF THE PLAN**

California Education Code Section 56200 (c) (2) requires that the Local Plan, "specify the responsibilities of each participating county office and district governing board in the policy-making process, the responsibilities of the superintendent of each participating district and county in the implementation of the plan, and the responsibilities of district and county administrators of special education in coordinating the administration of the plan." In accordance with this provision, the El Dorado County Charter SELPA has developed the following governance structure, policy development and approval process.

### **RESPONSIBILITIES OF EACH GOVERNING BOARD IN THE POLICY- MAKING PROCESS AND PROCEDURES FOR CARRYING OUT THE RESPONSIBILITY**

Upon entry into the Charter SELPA, the governing board for each LEA charter shall approve the Agreement for Participation, Representations and Warranties, and the Local Plan for Special Education. The Charter SELPA Local Plan is approved by the CEO Council and the Board of the El Dorado County Office of Education.

Amendments to the Local Plan to revise LEA membership (additions/deletions) shall be approved by the Board of the El Dorado County Office of Education. Prior to County Board approval, new LEA members and/or termination of LEA members shall be approved through the process as identified in Charter SELPA policies. All membership changes shall be communicated with the Charter SELPA CEO Council at the next regularly scheduled meeting.

The Board of the El Dorado County Office of Education will hold the required public hearings and approve the annual service plan and the annual budget plan. The plans shall be sent to all charter LEA members and communicated with the Charter SELPA CEO Council at the next regularly scheduled meeting. Notice of the public hearings shall be posted in each charter school at least 15 days prior to the hearing, as required by law.

As described within the Local Plan and adopted policies of the Charter SELPA, the Boards of Education delegate the ongoing policy-making process, the allocation plan process, and administrative procedures for carrying out that responsibility to the governance structure of the Charter SELPA.

## **RESPONSIBILITIES OF CHIEF EXECUTIVE OFFICERS**

### **CHARTER SELPA CHIEF EXECUTIVE OFFICERS' (CEO) COUNCIL**

The Charter SELPA CEO Council membership consists of the CEO or designee of each charter LEA member. Each charter LEA member has one vote. Organization Partners, that operate more than one charter school, may have a single representative for all schools operated, but such representative shall have a number of votes equal to the number of charter LEAs represented.

Charter SELPA CEO Council meetings are subject to California Open Meeting laws, specifically the Brown Act (Government Code 54950-54963), which requires that CEO Council members conduct business at properly noticed and agendized public meetings.

A majority of the LEAs present at a regularly scheduled and posted CEO Council meeting shall constitute a quorum.

The Charter SELPA CEO Council will meet regularly with the El Dorado County Superintendent of Schools and/or designee to direct and supervise the implementation of the Local Plan. The Council has exclusive authority to make and take all reasonable and appropriate steps to implement all decisions which may have a material effect on any and/or all Charter SELPA policies, practices, operations, organization, services, functions, and any other purpose related to the purpose for which the Charter SELPA is established. A minimum of two meetings per year will be held; generally in September and May.

The Charter SELPA CEO Council is responsible to approve Charter SELPA policies and administrative regulations.

The Charter SELPA CEO Council is responsible to approve the Allocation Plan, which is the framework for distribution of funds within the Charter SELPA.

Material changes to the Local Plan, other than for membership changes, shall be approved by the Charter SELPA CEO Council and the Governing Board of the El Dorado County Office of Education.

#### **Charter School Admission Criteria:**

It is the intent of the El Dorado County Charter SELPA to provide options for charter schools in terms of SELPA membership. While it is always preferable for a charter school to participate with their geographic SELPA, the Charter SELPA has been developed to allow for a viable alternative for SELPA membership. Therefore, there are specific criteria which must be met in order for a charter school to be considered for membership in the El Dorado County Charter SELPA.

## **Charter SELPA Selection Committee**

As outlined in Charter SELPA policies, a Charter SELPA Selection Committee has been established to approve the admission of new Charters to the SELPA. The Charter SELPA Selection Committee is comprised of:

- The El Dorado County Superintendent of Schools/Designee
- One Charter CEO, member of the CEO Executive Committee
- One Charter CEO selected by the El Dorado County Superintendent of Schools/Designee

The Charter SELPA Selection Committee will meet, review all documents, and approve or reject members. Because of a high volume of applications to the Charter SELPA, the Selection Committee may include more than one member of the CEO Executive Committee or CEO Council and more than one Charter CEO selected by the EDCOE County Superintendent/Designee in order to efficiently review the number of applications submitted. Meetings may take place through teleconference. For the purposes of this section, teleconference” means a meeting where the members are in different locations, connected by electronic means, through either audio or video, or both.

The Charter SELPA Selection Committee will inform the CEO Council members of their decision. The Charter SELPA AU shall inform the charter school of the decision.

Any charter school may apply to the Charter SELPA Selection Committee to become a LEA member of the SELPA. The Charter SELPA will establish an annual timeline for submission of applications. Once granted membership, the charter LEA will participate in the governance of the SELPA in the same manner as all other charter LEA members in the SELPA. The timeline for submission may be amended by the Charter SELPA Superintendent/designee for unique circumstances, including State Board of Education charter approvals.

The applicant member, not an expansion of an existing member, will be deemed a member of the SELPA upon approval of the Charter SELPA Selection Committee, and subsequent Local Plan Membership amendment approved by El Dorado County Office of Education Governing Board, and the California Department of Education. The applicant member charter LEA board must also take action to approve membership.

The Charter SELPA Selection Committee shall review applications to determine if the applicants meet the requirements of the application process as established by the Charter SELPA. The Charter SELPA Selection Committee will inform the CEO Council members of their decision.

Applications for additional schools of a current Charter SELPA member, shall be approved by the Charter SELPA, pursuant to Charter SELPA policies, and are not required to be reviewed by the Charter SELPA Selection Committee. Because they are current members, the Charter SELPA has significant documentation available to assess the new charter LEA capacity.

The applicant member, an expansion of an existing member, will be deemed a member of the SELPA after approval of the Charter SELPA, and subsequent Local Plan Membership amendment approved by the El Dorado County Office of Education Governing Board, and the California Department of Education. The applicant member charter LEA board must also take action to approve membership.

## **Charter SELPA Membership Appeals Committee**

The Charter SELPA Membership Appeals Committee meets on an “as needed basis” to hear Selection Committee appeals and membership termination appeals. The El Dorado County Superintendent/designee shall serve as an ex officio member of the Charter SELPA Membership Appeals Committee. An invitation to participate in the Membership Appeals Committee shall be issued annually at the first CEO Council meeting of the fiscal year.

Charter SELPA Membership Appeals Committee meetings are subject to California Open Meeting laws, specifically, the Brown Act (Government Code 54950-54963) which requires that SELPA Membership Appeals committee members conduct business at properly noticed and agendized public meetings.

## **CHARTER SELPA EXECUTIVE COMMITTEE**

### **Responsibilities of the Charter SELPA Executive Committee**

The Executive Committee shall serve as an informal advisory body to the Charter SELPA. The Executive Committee shall be comprised of all Charter SELPA CEO Council members who have an interest in participating as a committee member. Committee participation shall be at the discretion of individual members who shall be free to attend, or not attend, meetings as they choose. However, at no time shall an Executive Committee meeting be conducted with a majority of SELPA members.

Committee meetings shall occur from time to time on an informal basis as the Committee may determine. The Committee shall have no continuing subject matter jurisdiction. However, it is contemplated that the Committee shall, from time to time, consider and advise the Charter SELPA on administrative matters including, but not limited to, program operations, future strategic planning, procedural matters, and fiscal considerations.

An invitation to participate in the Executive Committee shall be issued annually at the first CEO Council meeting for the fiscal year. The El Dorado County Superintendent/designee shall serve as an ex-officio member of the Executive Committee.

Summaries of the Executive Committee meetings shall be transmitted to the full membership of the Charter CEO Council.

### **Special Education Community Advisory Committee (CAC)**

Each charter school may select a parent representative to participate in the Special Education Community Advisory Committee to serve staggered terms in accordance with E.C. §56191 for a period of at least two years. Selected parents will be the parent of a child with a disability. This group will advise the Charter SELPA AU on the implementation of the El Dorado County Local Plan for Special Education in Charter Schools (“Local Plan”) as well as provide local parent training options in accordance with the duties, responsibilities and requirements of E.C. § 56190-56194.

Because of the geographic diversity anticipated within the El Dorado County Charter SELPA, meetings may take place through teleconference. For purposes of this section, “teleconference” means a meeting where the members are in different locations, connected by electronic means, through either audio or video, or both.

## **Charter SELPA Special Education Steering Committee**

The Steering Committee serves in an advisory capacity to the Charter SELPA. Each charter LEA is entitled to select one representative for this committee. The Steering Representatives are the charter LEA's special education directors or special education program leads. They meet regularly for the purpose of advising the Charter SELPA and receiving and disseminating direct program/instructional information.

## **Charter SELPA Special Education Fiscal Committee**

The Fiscal Committee meets twice per year. The designated fiscal representative from each charter LEA member is invited to attend. Charter CEOs and Special Education Administrative contacts are invited to attend as well. Meetings take place through teleconference. The meeting serves as a communication tool to inform fiscal contacts of actions taken by CEO Council that may have budgeting and financial reporting considerations.

## **FULL CONTINUUM OF SERVICES**

Both state and federal law provides that students with exceptional needs are entitled to a free, appropriate public education (FAPE) that includes special education and related services to meet their unique needs in the least restrictive environment (LRE). Each SELPA member must ensure that all children served under their jurisdiction who have disabilities, regardless of the severity of their disability, and who are in need of special education and related services, are identified, located, evaluated and served. Therefore, a full continuum of services are available within the Charter SELPA.

Given this fact, the plan provides funding per the Charter SELPA Educational Allocation Plan to the Charter Schools so that they may appropriately provide for all the students with special education needs attending their schools. This obligation can be met in several ways, which may include:

1. Hire appropriately credentialed special education staff.
2. Contract with another LEA.
3. Contract with Nonpublic Schools/Agencies.

These methods of providing necessary services may be used by a single school in the Charter SELPA, or several schools within the Charter SELPA could join together to provide the services.

## **EVALUATION**

E. C. 56600 was written, in part, to ensure that SELPAs participate with all State efforts to provide for ongoing comprehensive evaluation of special education programs in order to refine and improve programs, policies, regulations, guidelines, and procedures on a continuing basis, and to assess the overall merits of these efforts.

The El Dorado County Charter SELPA annually submits all information required by the California Department of Education, Special Education Division, in this effort, including statistical data, program information, and fiscal information related to the programs and services for children with disabilities in the El Dorado County Charter SELPA.

The Charter SELPA Administration is responsible for collecting all data required by the California Department of Education related to special education budgets and services, and reports them annually.

SELPA staff supports all members of the Charter SELPA in the collection of data related to compliance, due process procedures, availability of services, key performance indicators, etc., as needed.

### **DATA COLLECTION AND DEVELOPMENT OF MANAGEMENT INFORMATION SYSTEMS**

California Department of Education requires of each SELPA the collection of specified data in such a manner as to be communicative with the CASEMIS – Management Information System of the State.

The Charter SELPA has designed and implemented a data collection and storage system that provides for the management and reporting of required data for state and federal systems. The SELPA continues to work with the State’s Department of Management Information System to collect and report all required data related to special education fiscal and program services, and to provide other pertinent information necessary for the operation of the SELPA. The Charter SELPA staff supports all the member LEA charter schools in the Charter SELPA in their collection and reporting of required data.

The Charter SELPA staff strives to support a system which is responsive to the data needs of the member LEA charter schools.

### **PROVISION FOR ONGOING REVIEW OF PROGRAMS**

The State has in place a system for review of the special education programs in the charter schools. It is the responsibility of the SELPA to support the delivery of effective programs and services in its LEAs, to support a continuum of appropriate service options, to improve the quality of the programs offered, and to monitor them and participate in review processes, including the Key Performance Indicator, the Procedural Safeguards, complaint processes and mediation and due process procedures.

The El Dorado County Charter SELPA endeavors first to provide adequate information, resources and support to all its member LEA charters, so that they may deliver compliant, quality services. Further, the Charter SELPA staff, under the direction of the CEO Council and in conjunction with the CAC and the informal advisement from the CEO Executive Committee, participates in all State review processes and any local review processes to ensure that appropriate and necessary services are offered for all children with disabilities and to support continuous improvement of those services.

The SELPA ensures that adequate information related to all areas of compliance is available to all the charter LEA members.

The SELPA ensures the availability of a full continuum of options, supplemental aids and services, and regionalized programs, for all children with disabilities, severe low incidence, and non-severe.

### **PROCESS FOR ALLOCATING PROGRAM SPECIALIST SERVICES THROUGHOUT THE REGION**

The Charter SELPA currently employs program specialist(s). In addition, in accordance with Education Code §56780, all coordination responsibilities for program specialist services as outlined are fully supported through the governance structure of the SELPA. This includes the administrative staff, program specialist services, Charter Special Education Steering Committee,

Charter Executive Committee, and Charter CEO Council. Openings for program specialist positions are advertised, and the selection processes conducted are consistent with County Office hiring practices. The interview panel includes representatives from LEAs, as well as SELPA personnel.

Duties of program specialists are those specified in Education Code §56368 and the Local Plan:

- A. Assist Resource Specialist, Designated Instruction and Service instructors, and Special Class Teacher in the planning and implementation of individual education programs for children whose disability is in the area or expertise of the Program Specialist.
- B. Coordinate curricular resources in a manner to make them available and effective for personnel who are in need of the resources.
- C. In conjunction with the SELPA Director, assess program effectiveness to promote the program for individuals with exceptional needs.
- D. Participate in school staff development, research, program development, and innovation or special methods and approaches.
- E. Provide coordination, consultation, and program development in areas to which the program specialist is assigned.
- F. Under the direction of the SELPA Director, assure the pupils have full educational opportunity, regardless of the district of residence in the Special Education Local Plan Area.
- G. Participate in I.E.P.s at the request of Local Education Agency or parent.
- H. Assist Local Education Agencies with non-public, non-sectarian and state school placements when requested.

Safeguards for the assurance of appropriate use of regionalized funds are the responsibility of the SELPA Executive Director and as approved by the governance structure. Program Specialist(s) are employed by the AU and supervised by the SELPA Director.

Reason for leaving Geographic SELPA: As Academy of Arts and Sciences continues to grow, so does our need for a compassionate, organized SELPA. Due to the low number of students with special needs, we have been able to outsource our needs to a third party focused on this task. As our organization moves forward and our population grows, we want to address our students' needs in a responsible, in-house format. We have not been part of a SELPA prior to this application. With schools throughout California, we want to ensure that our students, parents, and staff have access to resources and information that will help in the education of students with special needs. The El Dorado SELPA is the type of organization that can provide the necessary tools and support that we seek.

Reason for leaving Geographic SELPA: We have high expectations for our students and staff; last year and this year we have had some challenges with the staff provided by our current SELPA and we are looking to service our students better in the future. We believe that in order for our students to be successful, we must have a program in place that puts their needs first and is understanding and shares the values we want to teach at our school. Our goal is to serve students in an inclusive manner as much as possible, to ensure students are still receiving the fundamental lessons learned in the classroom. When students need to be pulled out of the general education classroom, we're looking to ensure that it is done in a manner that best caters to the needs of the students. Overall, we are looking for a team that is willing to collaborate with us to serve our special education students.

Reason for leaving Geographic SELPA: Becoming part of EDCOE Charter SELPA will provide LEA status which will allow us to do this and, as a result, develop our special education program in alignment with philosophy, current instructional practices, structures and methodology. Because of the nature of a family oriented school culture, NOCCS staff knows all students well, including their abilities, strengths and needs. We will be able to better support our special education students' learning as well as their families when, as a Charter SELPA member, we have the ability to hire our own special education staff. This will allow us to reorganize our intervention program so that RtI and Special Education are well integrated and inclusive, ensuring that all students are equitably served. Additionally, with our own special education team and special education lead, we will be able to hold ourselves accountable for student progress and a successful collaboration between the special educators and the classroom teachers. Professional Development offered through EDCOE Charter SELPA will ensure that NOCCS teachers and leadership members will learn best practices and stay updated on special education practices and issues in California.

Authorizing Agency: Cuyama School District

Date Authorized: 1/13/2015

Date Originally Opened: 2001

Geographic SELPA: Santa Barbara County Office of Education

Reason for leaving Geographic SELPA: Olive Grove has been in operation for 13 years and because their original authorizer, Los Olivos Unified School District, was entering into Basic Aid status, the authorizer voted to close all sites outside their boundaries and has supported staff at those sites to reconstitute as a new school under another authorizer. The new authorizer, Cuyama Joint Unified School District, does not want to handle the school's special education and asked them to apply to another SELPA for 2015-16. CSDC has been working with them to find a new authorizer, rewrite Olive Grove's charter and secure knowledgeable people in special education to help Olive Grove.

Reason for leaving Geographic SELPA: Because of the unique nature of the program that will be offered at Roses in Concrete, we agree with the core belief that the charter should be empowered to develop our own individual and successful educational experiences. Roses in Concrete Community School will be in a unique position in the region as the only demonstration school serving Oakland Unified School District and four institutions of higher education (IHE). As such, we must be able to: hire and supervise our own personnel to service students with disabilities and model best practices in special education that align with the vision of Roses in Concrete Community School. In addition, the partnerships, services and support offered by the El Dorado Charter SELPA will be essential to a successful launch in the Fall of 2015. Local control of all aspects of Roses in Concrete Community School, including services to students with disabilities, will enable Roses in Concrete Community School to fully implement its vision of personalization with attention to the whole student.

Reason for leaving Geographic SELPA: Sycamore Academy has been an arm of the District for Special Education since authorization in 2009. While the relationship between the District and the charter has consistently improved, the philosophical difference between the District Special Education policies and procedures and our charter continue to present roadblocks to improved services for our students. Additionally, we know we can provide improved services in a more timely manner, with more consistency and integrity to our program as outlined in our charter, if we had more control and autonomy over services and personnel.

Reason for leaving Geographic SELPA: Over the past four years, our school has worked diligently to provide a quality education for ALL of our students. For students with disabilities, arguably the students who are the most academically vulnerable, our participation as the school of the district for Special Education has not served our students well. We have experienced staffing vacancies, poor quality staff, excessive absence and untimely provision of services despite multiple efforts to collaborate and problem-solve with OUSD. We believe that we can apply the same tenacity and inspiration to our work with special education students that we apply to our general education population and achieve great results on their behalf. At this juncture, we are confident that we are established in our program and have significant infrastructure in place that will allow for the development and implementation of an solid special education program. We are also closely connected to many members of the Oakland charter sector and would appreciate the opportunity to work side by side in the development of innovations in special education that can eventually be shared more broadly.

**Reason for leaving Geographic SELPA: El Rancho believes that partnering with the EDCOE SELPA would provide an opportunity to meet the needs of our special education students. Currently we have 78 Special Education students, 3 which require full-time one-on-one aides. Currently none of these students have a full-time aide which has been the case since the beginning of school year. This leads to inconsistencies for our students since they don't have the same aides working with them throughout the day. In addition, our special education teachers are continuously training new aides which takes time from instruction and working with their students. The Orange Unified SELPA uses out of date materials and curriculum that do not meet the needs of our students. This results in students not receiving the proper support because the assessments do not accurately identify areas of need. This partnership with EDCOE would allow El Rancho to seek other services to ensure our students' needs are met.**

Reason for leaving Geographic SELPA: **We have used the special education services through our authorizer for our 2015-2016 school year and would like to make a change. While our authorizer has been providing service to our students with IEPs and assessing students who may qualify, it took several weeks for them to assign us a Resource Specialist (RSP) and the service has been more disjointed than we would like. For example, many of our students are required to have service at the district school closest to his/her home address, which takes students away from our educational program. We find this model quite restrictive and chafing with our goal to provide services in the least restrictive environment possible. In addition, communication from our authorizer to the administration and teachers in regards to meetings, staffing assignments and schedules for speech therapists and other service providers have also been less than ideal. Becoming our own LEA for special education would allow us to provide services on-site and to hire a part-time special education teacher who can coordinate our program with the SELPA, our school administration and teachers, our families, and our service providers so that our program better serves the student and provides the student with full access to our educational program. We are interested in EDCOE SELPA in particular due to its high quality services and extensive network of charter members throughout the state.**

After thoughtful consideration about operating a charter school in California, Ben Harris, CEO, reached out to the California experts in the charter school community. After significant research, including meetings with Delta Managed Solutions, Inc. and Young, Minney & Corr, LPP, it was determined that EPIC Charter School will be proposing to act as an independent LEA for purposes of special education. EPIC has experienced great success in our Oklahoma Charter School; however, we will need the expertise of the El Dorado County Charter SELPA. The El Dorado County Charter SELPA will be valuable resource in areas such as California laws and SELPA administrative processes. This partnership will foster the greatest impact for the greatest number of students using best practices, and work collaboratively within a community of like minded charter schools, all while improving the EPIC special education programs.**

Reason for leaving Geographic SELPA: **Our decision making process began when teachers noticed that our special education program was not in line with our school program as a whole. We attempted to improve the situation by working closely with our contracted provider, but found that without a commitment to Montessori the improvements were superficial. The School Director and School Based Intervention Team Coordinator worked with the school's Business Manager to see if becoming independent for special education services was financially feasible, and it was determined that it was. The idea was presented to the Board of Directors and was enthusiastically supported. Our letter stating our desire for independence was submitted to the Butte County of Education SELPA in June, 2015.**

Reason for leaving Geographic SELPA: **Our scholars must be driven from our school campus a school in the Anaheim Elementary School District. This results in an unnecessary loss of instructional time. This school's calendar and ours are not in alignment. This makes it difficult to have a consistency in services. Additionally, some of our scholars would be better served by a program in which the Speech Therapist and/or RSP Teacher could work with them in the classrooms (push-in vs. push-out). This is not possible under the current model. In our dialogues with other individuals involved in charter schools, the El Dorado SELPA has frequently been mentioned and comes with high recommendations. This option has been deeply discussed in our Teacher Think Tank Meetings, the Family and Staff Team (F.A.S.T.) Meetings, GOALS Academy Governance Committee Meetings, and in less formal dialogues with staff, parents, scholars, and community members. There is a strong consensus among all stakeholders that we must depart from the Anaheim Elementary School SELPA to pursue the El Dorado SELPA.**

GPS is positioned to understand their role as an LEA and understands their fiscal and membership responsibility as an LEA. The discussion started in November 2015 when there was a lack of available resource teachers at Hayward Unified to provide services to meet our student needs. Our goal is to join the El Dorado County Office of Education (EDCOE) Charter SELPA and gain access to the appropriate Special Education services to ensure that quality programs for students with disabilities are implemented.**

With Board approval, we began the process of becoming a potential partner. **Achieve Charter School administration and board members have been researching SELPA options since becoming an LEA in 2012. We were specifically looking for a SELPA interested in the success of charter schools and equity in governance, funding, and services. Over the last 4 years, we worked with our county SELPA leadership and other local charter LEAs to improve equity for charters within the SELPA. After researching the operating practices of EDCOE, Achieve leadership felt our special education program and students would benefit greatly from a partnership.**

**When YCCA was originally conceptualized, designed, and proposed by staff at the YCOE, it was expected the YCOE Board would approve YCCA as a dependent charter school of YCOE. However, the YCOE Board determined they wanted to have independence between YCCA and YCOE, and that they wanted YCCA to be autonomous. Thus the final proposal for YCCA that was approved by the authorizer (i.e., the YCOE board) was for YCCA to be an independent charter school that would be supported by YCOE through MOUs (including an MOU for special education). By applying for membership in the EDCOE Charter SELPA, YCCA is ensuring it will be as autonomous and independent as possible.**

**Our decision to apply to become an El Dorado Charter SELPA Partner has been long discussed and considered by stakeholders throughout our schools. In 2016 and 2017, the Environmental Charter Schools (ECS) Chief Executive Officer and Chief Operating Officer met with Principals, Assistant Principals and SPED Coordinators from each of our three school sites (Environmental Charter Middle Schools in Gardena and Inglewood, and Environmental Charter High School in Lawndale), as well as the Director of Curriculum & Instruction to discuss the strengths and the weaknesses in our current partnership. In these conversations, stakeholders consistently expressed frustration with a lack of transparency in the current partnership, and the fact that the SELPA is primarily focused on meeting the needs of district partners, above the needs of Charter school members.**
